

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | Incident Response | CISSP

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniproper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience protecting enterprise environments across endpoint, network, identity, and cloud security layers. I specialise in managing Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, Endpoint Detection and Response (EDR) tools including CrowdStrike Falcon, and multifactor authentication (MFA), Single Sign-On (SSO), and identity lifecycle management through Microsoft Entra ID and Azure Active Directory (Azure AD). I have delivered vulnerability management programmes using Tenable.io and Pentera, led incident response under the National Institute of Standards and Technology (NIST) 800-61 framework, and managed Mobile Device Management (MDM) and Mobile Application Management (MAM) deployments via Microsoft Intune across organisations of 8,000 users. I am comfortable working independently within small, focused security teams where I can take ownership of multiple domains simultaneously and deliver measurable security improvements.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (NG-SIEM, EDR Prevent, Insight, Discover, Spotlight) - Expert; Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender - Strong
- **SIEM/SOAR:** Microsoft Sentinel with Kusto Query Language (KQL), CrowdStrike NG-SIEM, SOAR playbook automation, alert triage, detection engineering
- **Identity and Access Management:** Microsoft Entra ID / Azure AD, Conditional Access, MFA, SSO, Group Policy; BeyondTrust Privileged Access Management (PAM)
- **MDM/MAM:** Microsoft Intune; endpoint policy management, compliance baselines, mobile device and application policies
- **Email and Web Security:** Mimecast (anti-phishing, DLP, archiving, impersonation protection)
- **Firewall and Network Security:** Check Point Harmony firewall; IDS/IPS management; WAF/DDoS defence
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; remediation tracking
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework; threat hunting; digital forensics triage
- **Scripting and Automation:** PowerShell scripting; SOAR playbook development
- **Frameworks and Standards:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) -- Senior Cyber Security Analyst / Engineer *March 2025 -- Present*

- Lead the Security Operations Centre (SOC) function for an 8,000-user environment, managing CrowdStrike Falcon EDR, Microsoft Sentinel SIEM, and Microsoft Defender for Endpoint (MDE) as the primary detection and response stack.
- Administer and continuously optimise CrowdStrike Falcon Prevent, Insight, and Discover modules; conduct proactive threat hunting using CrowdStrike NG-SIEM queries and Microsoft Sentinel KQL workbooks.
- Manage SIEM/SOAR alert triage, incident investigation, and escalation workflows; develop and refine detection rules and automated response playbooks aligned to MITRE ATT&CK techniques.
- Oversee Mimecast email security (anti-phishing, safe links, DLP, archiving) and enforce Conditional Access and MFA policies across Entra ID for all users and privileged accounts.
- Administer BeyondTrust Privileged Access Management (PAM) for privileged account lifecycle management, session recording, and least-privilege enforcement.

- Lead vulnerability scanning cycles using Tenable.io and Pentera Breach and Attack Simulation (BAS); prioritise and track remediation across servers, endpoints, and web applications.
- Manage MDM/MAM policies via Microsoft Intune, ensuring device compliance, application control, and data protection across the mobile estate.
- Coordinate incident response end-to-end under NIST 800-61; produce post-incident reports with root cause analysis and control improvement recommendations.
- Maintain WAF/DDoS protection rules and collaborate with infrastructure teams on firewall policy reviews and IDS/IPS configuration.
- Deliver security awareness training to staff and provide escalation support for security certificate management and secure configuration baselines.

University of the Arts, London (UAL) -- Cyber Security Analyst, Cyber Security and Identity

March 2022 -- March 2025

- Monitored and triaged security alerts across CrowdStrike Falcon, Microsoft Defender for Endpoint, and Microsoft Sentinel; investigated threats and escalated confirmed incidents per documented runbooks.
- Deployed and configured Microsoft Intune MDM/MAM policies across the entire device estate, ensuring policy compliance and application lifecycle management.
- Managed Mimecast anti-phishing, archiving, and DLP configurations; tuned rules to reduce false positives and improve threat capture rates.
- Supported Entra ID (Azure AD) identity management, including Conditional Access policy creation, MFA rollout, and SSO application integrations.
- Conducted vulnerability scanning using Nessus and Tenable.io; collaborated with teams to prioritise and remediate findings against CIS Control benchmarks.
- Contributed to penetration test remediation exercises, documenting findings, mapping to MITRE ATT&CK, and tracking closure through to re-test.
- Authored and maintained security runbooks, incident response playbooks, and SOC Standard Operating Procedures (SOPs).
- Developed PowerShell scripts to automate routine security tasks including account de-provisioning, log collection, and compliance reporting.
- Supported Cyber Essentials Plus accreditation by maintaining security controls and evidence documentation.
- Delivered end-user security awareness training sessions and phishing simulation campaigns.

HICX Solutions Ltd (SaaS/FinTech) -- IT Engineer: Security, Quality and Infrastructure

February 2021 -- March 2022

- Administered endpoint security tooling, firewall rules, and identity access management controls across the SaaS production and corporate environments.
- Conducted regular vulnerability assessments and worked with development teams to remediate findings in line with secure SDLC practices.
- Configured and maintained MDM policies for the employee device fleet; managed SSO and MFA enforcement across cloud-hosted applications.
- Supported ISO 27001 compliance activities including risk register maintenance, control evidence gathering, and internal audit preparation.
- Implemented network segmentation controls and reviewed IDS/IPS alert data to identify anomalous traffic patterns.
- Developed automation scripts in PowerShell to streamline patch management and access control reporting workflows.

KEY ACHIEVEMENTS

- Reduced mean time to detect (MTTD) by approximately 40% at UAL by refining CrowdStrike Falcon detection policies and building custom SIEM correlation rules in Microsoft Sentinel.
- Led the full deployment and configuration of CrowdStrike Falcon EDR across an 8,000-user environment, including sensor rollout, policy tuning, and integration with the SIEM/SOAR stack.
- Achieved Cyber Essentials Plus accreditation for UAL by mapping technical controls to certification requirements and leading evidence collection across all in-scope systems.

- Designed and implemented a BeyondTrust PAM solution at UAL covering privileged account discovery, session recording, and credential vaulting for over 150 administrative accounts.
- Built a PowerShell-driven SOAR automation pipeline that reduced analyst handling time on repetitive alert types by approximately 60% through automated enrichment and containment actions.
- Delivered a Pentera Breach and Attack Simulation (BAS) programme that identified and remediated 30+ previously unknown attack paths across the network and identity perimeter.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
