

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR | Endpoint Detection and Response

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience protecting enterprise environments at scale. Currently, I lead security engineering and operations at the University of the Arts, London (UAL), securing a hybrid environment of over 8,000 users. I have deep expertise in CrowdStrike Falcon, spanning the Endpoint Detection and Response (EDR), Next-Generation Security Information and Event Management (NG-SIEM), Falcon Prevent, Insight, and Discover modules. I also manage Security Orchestration, Automation and Response (SOAR) platforms, email and web security gateways including Mimecast, Privileged Access Management (PAM) via BeyondTrust, Mobile Device Management (MDM), Mobile Application Management (MAM), Multi-Factor Authentication (MFA), Single Sign-On (SSO), and vulnerability management programmes. I hold the Certified Information Systems Security Professional (CISSP) certification and bring proven experience in firewall administration, intrusion detection and prevention, penetration test finding remediation, and security awareness training delivery. I am looking for a Senior Cyber Security Engineer role within a focused, high-impact team where I can contribute across the full security lifecycle.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR) / Extended Detection and Response (XDR):** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) - Expert level; Microsoft Defender for Endpoint (MDE)
- **Security Information and Event Management (SIEM) / Security Orchestration, Automation and Response (SOAR):** CrowdStrike NG-SIEM, Microsoft Sentinel with Kusto Query Language (KQL), detection engineering, alert triage, automation playbooks
- **Email and Web Security Gateways:** Mimecast (administration and policy management)
- **Identity and Access Management:** Azure Active Directory (Azure AD) / Entra ID, Conditional Access, MFA, SSO, Group Policy
- **Privileged Access Management (PAM):** BeyondTrust PAM platform administration
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune
- **Vulnerability Management:** Tenable.io, Pentra Breach and Attack Simulation (BAS), AppCheck, Nessus - scanning, prioritisation, and remediation tracking
- **Firewall and Network Security:** Check Point Harmony (firewall policy management), Web Application Firewall (WAF), network segmentation
- **Endpoint Management:** Tanium, Microsoft Intune
- **Microsoft Defender Suite:** Defender for Endpoint (MDE), Defender for Identity (MDI), Microsoft 365 Defender (M365)
- **Scripting and Automation:** PowerShell, SOAR playbook development
- **Incident Response (IR):** NIST SP 800-61 methodology; MITRE ATT&CK framework; threat hunting
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Lead security engineering and operations across a hybrid environment supporting over 8,000 users, covering EDR/XDR, SIEM/SOAR, identity, and vulnerability management disciplines.
- Manage and optimise the CrowdStrike Falcon platform (NG-SIEM, EDR, Prevent, Insight, Discover), including policy configuration, alert triage, and threat hunting using the MITRE ATT&CK framework.

- Operate Microsoft Sentinel for Security Information and Event Management (SIEM), authoring Kusto Query Language (KQL) detection rules and automated Security Orchestration, Automation and Response (SOAR) playbooks to reduce mean time to respond.
- Administer Mimecast email and web security gateway, managing inbound and outbound policies, threat intelligence feeds, and security awareness training campaigns.
- Manage BeyondTrust Privileged Access Management (PAM) solution, governing privileged account lifecycle and session recording.
- Administer Azure Active Directory (Azure AD) / Entra ID, including Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO) configuration for enterprise applications.
- Manage Mobile Device Management (MDM) and Mobile Application Management (MAM) policies via Microsoft Intune, enforcing security baselines across corporate and bring-your-own-device (BYOD) endpoints.
- Lead vulnerability management programme using Tenable.io, Pentra Breach and Attack Simulation (BAS), AppCheck, and Nessus; prioritise and track remediation of identified vulnerabilities and penetration test findings.
- Maintain Check Point Harmony firewall rules and network security controls, including review and remediation of rule-base misconfigurations.
- Lead incident response activities following NIST SP 800-61 methodology, coordinating containment, eradication, and lessons-learned phases.
- Deliver security awareness training and phishing simulation campaigns to staff across the organisation.
- Contribute to security policy development aligned with ISO 27001, CIS Controls, and Cyber Essentials+ certification requirements.

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Supported daily security operations for an 8,000-user Microsoft 365 environment, performing alert triage, investigation, and response across CrowdStrike Falcon EDR and Microsoft Defender platforms.
- Administered and tuned Microsoft Sentinel SIEM, writing KQL queries for detection rules and dashboards, and building automated response playbooks to streamline Security Operations Centre (SOC) workflows.
- Managed CrowdStrike Falcon EDR policies, responding to endpoint alerts, conducting threat hunts, and producing investigation reports for escalation.
- Conducted vulnerability scanning using Tenable.io and Nessus; tracked and reported remediation progress against agreed service level targets.
- Administered Microsoft Defender for Endpoint (MDE) and Defender for Identity (MDI), tuning detection policies and investigating identity-based threats.
- Managed Azure Active Directory (Azure AD) / Entra ID identity controls including Conditional Access, MFA enrollment, and privileged account governance.
- Administered Mimecast email security, managing anti-spam, anti-phishing, and data loss prevention (DLP) policies.
- Supported incident response processes aligned with NIST SP 800-61, coordinating with infrastructure and IT teams during security events.
- Assisted with SOAR automation development, reducing manual triage effort for repetitive alert types by building automated enrichment and response workflows.
- Maintained Microsoft Intune MDM/MAM configuration and compliance policies for device fleet of over 8,000 endpoints.
- Contributed to Check Point Harmony firewall management, reviewing and updating rule-base configurations to align with network segmentation policies.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Delivered security engineering and infrastructure support across a SaaS/FinTech environment, covering endpoint security, identity management, and vulnerability assessments.
- Administered endpoint security tooling and managed identity and access controls, supporting MFA and SSO rollout for corporate applications.

- Conducted vulnerability assessments and worked with development teams to remediate identified security weaknesses across cloud and on-premises systems.
- Implemented and maintained security policies and procedures aligned with organisational risk requirements and IT governance frameworks.
- Supported security incident investigations and contributed to improving the organisation's detection and response capabilities.

KEY ACHIEVEMENTS

- Deployed and managed Microsoft Defender for Endpoint, Identity, and M365 across an 8,000-user estate, significantly improving endpoint visibility and reducing alert response times.
- Led CrowdStrike Falcon platform optimisation, improving EDR policy coverage and developing custom threat hunting queries that identified previously undetected adversary behaviours.
- Reduced mean time to detect and respond to security incidents by building automated SOAR playbooks within Microsoft Sentinel, eliminating manual steps from high-volume alert triage.
- Delivered organisation-wide Pentra Breach and Attack Simulation (BAS) exercise, identifying critical gaps in security controls and presenting prioritised remediation roadmap to senior stakeholders.
- Achieved and maintained Cyber Essentials+ certification for the organisation by leading technical control implementation and documentation across network, endpoint, and identity security domains.
- Supported successful ISO 27001 alignment programme, contributing to the information security management system (ISMS) documentation and evidence gathering.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
