

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM | EDR | Incident Response | Cloud Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of hands-on experience securing complex enterprise environments across financial services and higher education sectors. I specialise in Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) engineering, Endpoint Detection and Response (EDR) operations, and vulnerability scanning and remediation. I have deep expertise in CrowdStrike Falcon, Microsoft Sentinel with Kusto Query Language (KQL), and the Microsoft Defender suite including Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender. I am experienced in managing Privileged Access Management (PAM) solutions, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM) and Mobile Application Management (MAM), and Identity and Access Management (IAM) across Microsoft Entra ID and Azure Active Directory. I bring a strong track record of alert triage, threat hunting, Intrusion Detection System (IDS) and Intrusion Prevention System (IPS) monitoring, web and email security gateway management, and security certificate lifecycle management. I am comfortable working to shift patterns, managing out-of-hours incidents, and collaborating closely with infrastructure and network teams to protect business-critical environments.

CORE SKILLS AND TECHNICAL STACK

- **SIEM and SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel (KQL), SOAR playbook development, alert triage, detection engineering
- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon Prevent, Insight, Discover, and Falcon Complete; alert response and threat hunting
- **Email and Web Security Gateways:** Mimecast email security, web content filtering, anti-phishing and anti-spam policy management
- **Firewall and Network Security:** Check Point Harmony firewall management; WAF and DDoS mitigation; IDS/IPS monitoring and tuning
- **Identity and Access Management (IAM):** Microsoft Entra ID (Azure Active Directory), Conditional Access policies, MFA, SSO, Group Policy
- **Privileged Access Management (PAM):** BeyondTrust PAM administration and policy enforcement
- **Mobile Device and Application Management:** Microsoft Intune, MDM and MAM policy configuration
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS); vulnerability scanning and remediation tracking
- **Cloud Security:** Microsoft Azure, Microsoft 365 security controls, Conditional Access, Microsoft Defender for Cloud
- **Incident Response:** NIST 800-61 framework, MITRE ATT&CK mapping, playbook development, digital forensics triage
- **Scripting and Automation:** PowerShell scripting, SOAR automation, Logic Apps
- **Frameworks:** NIST Cyber Security Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

Senior Cyber Security Analyst / Engineer

March 2025 - Present

- Lead the day-to-day operation of the SIEM and SOAR platform (Microsoft Sentinel), writing and maintaining KQL detection rules, tuning alert thresholds, and reducing false positive rates across an estate of over 8,000 users

- Manage CrowdStrike Falcon EDR across the organisation, including alert triage, threat hunting using Falcon Insight, endpoint policy management, and coordination of endpoint incident response
- Oversee Mimecast email security gateway configuration, including anti-phishing, anti-spam, and data loss prevention (DLP) policy management for all inbound and outbound mail flows
- Administer Microsoft Entra ID (Azure Active Directory), configuring Conditional Access policies, MFA enforcement, SSO integrations, and Privileged Identity Management (PIM) to control access to critical systems
- Manage BeyondTrust PAM solution including privileged account lifecycle, session recording policies, and access governance for administrative accounts
- Configure and manage Microsoft Intune for MDM and MAM, enforcing device compliance policies across corporate and Bring Your Own Device (BYOD) endpoints
- Lead vulnerability scanning and remediation cycles using Tenable.io and Pentera Breach and Attack Simulation, prioritising findings in alignment with CVSS scoring and business risk
- Coordinate out-of-hours incident response for high-severity security events, acting as escalation point for the SOC team and liaising with infrastructure and network stakeholders
- Manage security certificate lifecycle across web services and internal applications, ensuring timely renewals and appropriate cipher suite configurations
- Contribute to IDS/IPS rule tuning on the Check Point Harmony firewall platform, reducing noise while maintaining detection fidelity

University of the Arts, London (UAL)

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Conducted day-to-day alert triage across SIEM, EDR, and email security platforms, investigating and closing incidents within defined Service Level Agreement (SLA) targets
- Deployed and managed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across the full 8,000-user estate, onboarding endpoints and configuring baseline security policies
- Maintained and improved SOAR automation playbooks in Microsoft Sentinel, integrating with third-party tools via API to accelerate investigation and containment workflows
- Performed regular vulnerability scans using Nessus and AppCheck across web applications and infrastructure, producing remediation reports for IT infrastructure teams
- Managed web security gateway policies, enforcing category-based filtering and SSL inspection to reduce exposure to malicious web content
- Supported Mimecast administration including URL protection, impersonation protection policies, and threat intelligence integration
- Assisted in the management of the Tanium platform for endpoint visibility, software inventory, and rapid patch deployment
- Contributed to development and review of security policies and procedures aligned to ISO 27001 and Cyber Essentials Plus frameworks

HICX Solutions Ltd (SaaS/FinTech)

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Implemented and monitored endpoint security controls including EDR tooling, patch management, and device hardening across a cloud-first SaaS environment
- Administered Azure Active Directory including user lifecycle, group policies, MFA rollout, and Conditional Access policy configuration
- Managed Microsoft Intune MDM and MAM policies for corporate mobile devices and remote worker endpoints
- Supported vulnerability management scanning and assisted with remediation scheduling in collaboration with infrastructure and development teams
- Produced and maintained security documentation including risk registers, access control policies, and incident response playbooks
- Developed PowerShell scripts to automate routine security and administration tasks, reducing manual effort and improving consistency

KEY ACHIEVEMENTS

- Led full deployment and configuration of CrowdStrike Falcon EDR across an 8,000-user estate, achieving full endpoint coverage within six months and reducing mean time to detect (MTTD) by 40%
- Built a Microsoft Sentinel SOAR automation library of over 30 playbooks, reducing mean time to respond (MTTR) for high-severity alerts from four hours to under 45 minutes
- Delivered a Pentra Breach and Attack Simulation (BAS) programme that identified and drove remediation of 120+ critical and high vulnerabilities across network and endpoint attack surfaces
- Implemented BeyondTrust PAM across all privileged accounts, eliminating standing administrative access and achieving compliance with CIS Control 5 (Account Management)
- Achieved and maintained Cyber Essentials Plus certification for UAL for three consecutive years, coordinating cross-departmental evidence gathering and remediation
- Redesigned web and email security gateway policies using Mimecast and Check Point Harmony, reducing successful phishing email delivery rates by over 65%

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
