

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | Identity Security | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience securing complex enterprise environments. I specialise in administering and engineering the full CrowdStrike Falcon suite including Endpoint Detection and Response (EDR), Next-Generation Security Information and Event Management (NG-SIEM), Falcon Prevent, Insight and Discover, as well as Microsoft Sentinel, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI) and Microsoft 365 security tooling. I bring proven expertise in Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) alert response, Identity and Access Management (IAM), Privileged Access Management (PAM) using BeyondTrust, email security gateway management through Mimecast, and end-to-end vulnerability management. I have extensive experience with Entra ID, Azure Active Directory (Azure AD) and Group Policy, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM) and Mobile Application Management (MAM) through Microsoft Intune, and the delivery of security awareness training programmes. I am an effective team member who thrives in focused, high-performing security teams and consistently delivers improvements to security posture through engineering, automation and rigorous operational practice.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon EDR, Falcon Prevent, Falcon Insight, Falcon Discover, Microsoft Defender for Endpoint (MDE)
- **SIEM and SOAR:** Microsoft Sentinel, CrowdStrike Falcon NG-SIEM, Kusto Query Language (KQL), SOAR playbook development and automation
- **Email and Web Security Gateway:** Mimecast email security platform, anti-phishing, anti-spam and URL filtering policy management
- **Identity and Access Management (IAM):** Entra ID, Azure Active Directory (Azure AD), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Group Policy
- **Mobile Device Management (MDM) and Mobile Application Management (MAM):** Microsoft Intune device and application policy management
- **Privileged Access Management (PAM):** BeyondTrust privileged session management, password vaulting, least-privilege access controls
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS), penetration test finding remediation
- **Firewall and Network Security:** Check Point Harmony, Intrusion Detection Systems (IDS), Intrusion Prevention Systems (IPS), Web Application Firewall (WAF), Distributed Denial of Service (DDoS) mitigation
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework, threat hunting, alert triage and escalation
- **Compliance Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus
- **Scripting and Automation:** PowerShell scripting, security process automation
- **Endpoint and Cloud Security:** Microsoft Defender for Identity (MDI), Microsoft 365 (M365) Defender, Tanium, Microsoft Azure

PROFESSIONAL EXPERIENCE

Senior Cyber Security Analyst / Engineer

March 2025 - Present

University of the Arts, London (UAL)

- Administer and engineer the full CrowdStrike Falcon suite (EDR, NG-SIEM, Falcon Prevent, Insight, Discover) across an 8,000-user estate, delivering SIEM/SOAR/EDR alert response, threat detection, threat hunting and security incident management
- Manage Mimecast as the primary email security gateway, configuring anti-phishing, anti-spam and malicious URL filtering policies and investigating email-borne threats
- Engineer and maintain Entra ID, Azure AD, Conditional Access policies, MFA and SSO across the enterprise identity infrastructure, ensuring least-privilege access and strong authentication
- Operate BeyondTrust as the enterprise PAM solution, managing privileged session recording, password vaulting, and least-privilege access controls across critical systems
- Manage MDM and MAM policy configuration through Microsoft Intune for both corporate and bring-your-own device (BYOD) endpoints
- Lead vulnerability scanning and remediation cycles using Tenable.io, AppCheck and Pentera BAS, and coordinate remediation of penetration test findings with infrastructure teams
- Deliver security awareness training and phishing simulation campaigns to over 8,000 staff and students, tracking outcomes and improving participation rates
- Monitor and respond to IDS/IPS, WAF/DDoS, firewall and web/email security gateway alerts, escalating where appropriate and maintaining detailed incident records
- Develop and maintain SOAR automated response playbooks in Microsoft Sentinel and CrowdStrike Falcon, reducing manual analyst workload and accelerating incident containment
- Conduct threat hunting using the MITRE ATT&CK framework, proactively identifying indicators of compromise and improving detection coverage

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

University of the Arts, London (UAL)

- Monitored and triaged SIEM/SOAR/EDR alerts across the Microsoft Sentinel, CrowdStrike Falcon and MDE platforms, escalating and resolving security incidents in line with NIST 800-61 incident response procedures
- Managed MFA, SSO and Conditional Access policies in Azure AD and Entra ID for an 8,000-user estate, supporting rollout and enforcement of identity security controls
- Conducted vulnerability scans using Nessus and AppCheck, tracking remediation activities, producing management reports and prioritising findings by exploitability and business impact
- Maintained MDM and MAM configurations in Microsoft Intune, enforcing compliance policies on corporate and BYOD devices
- Managed Group Policy hardening across Windows endpoints, reducing attack surface and enforcing security baselines
- Supported BeyondTrust PAM administration, onboarding privileged accounts and maintaining audit logs of privileged session activity
- Contributed to security awareness training delivery and phishing simulation exercises
- Assisted in the management of email security gateway rules in Mimecast, investigating and remediating quarantined email threats

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

HICX Solutions Ltd (Software as a Service/FinTech)

- Implemented and maintained security controls across cloud and on-premises infrastructure including endpoint security, MFA, SSO and firewall configurations
- Conducted vulnerability assessments and supported remediation of identified security weaknesses across the SaaS platform infrastructure
- Managed identity and access management (IAM) policies, provisioning and de-provisioning of user accounts and enforcing least-privilege access principles
- Monitored security alerts and investigated incidents, documenting findings and contributing to continuous improvement of the security posture
- Delivered IT infrastructure quality assurance, supporting ISO 27001 and Cyber Essentials Plus compliance activities

KEY ACHIEVEMENTS

- Engineered the deployment and ongoing management of CrowdStrike Falcon EDR/NG-SIEM across an 8,000-user estate, reducing mean time to detect and respond to security incidents and improving threat visibility across all endpoints
- Developed automated SOAR playbooks in Microsoft Sentinel and CrowdStrike Falcon, significantly reducing manual alert handling time and enabling faster, consistent incident response
- Led end-to-end remediation programme following external penetration testing engagement, tracking and closing identified vulnerabilities across critical systems and reporting progress to senior stakeholders
- Implemented BeyondTrust PAM enterprise-wide to enforce least-privilege access controls, providing privileged session recording and audit capability across all critical infrastructure
- Deployed Pentera BAS for continuous adversarial simulation and breach simulation, identifying security gaps and driving proactive remediation before formal assessments
- Supported an 8,000-user MFA and Conditional Access rollout across Entra ID and Azure AD, significantly improving identity security and reducing credential-based attack exposure

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
