

PROSPER AWUNI

Senior Cyber Security Engineer

United Kingdom (Hybrid) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosp

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of hands-on experience managing and optimising enterprise security platforms across complex, regulated environments. I have deep expertise in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration Automation and Response (SOAR) platforms, Mimecast email and web security gateways, Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), and Entra Identity (formerly Azure Active Directory) including Conditional Access, Multi-Factor Authentication (MFA), and Single Sign-On (SSO). I have administered BeyondTrust Privileged Access Management (PAM) to enforce least-privilege access, led vulnerability scanning and remediation programmes, managed firewall and network security controls, and delivered security awareness training across 8,000-user environments. I thrive in focused, high-impact security teams and am comfortable owning end-to-end security operations while collaborating closely with infrastructure and business stakeholders.

CORE SKILLS AND TECHNICAL STACK

- **EDR and SIEM/SOAR:** CrowdStrike Falcon (EDR, NG-SIEM, Prevent, Insight, Discover), Microsoft Sentinel (SIEM), Microsoft Defender for Endpoint (MDE), Splunk
- **Email and Web Security:** Mimecast (anti-phishing, anti-spam, Data Loss Prevention), Menlo Security, secure email and web gateways
- **Identity and Access Management:** Microsoft Entra Identity (Azure Active Directory), Conditional Access, MFA, SSO, BeyondTrust Privileged Access Management (PAM)
- **MDM/MAM and Endpoint Management:** Microsoft Intune, Mobile Device Management (MDM), Mobile Application Management (MAM), Group Policy
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus, vulnerability scanning and remediation tracking
- **Network Security:** Firewall administration (Check Point Harmony, Palo Alto), Intrusion Detection and Prevention Systems (IDS/IPS), WAF and DDoS protection, VPN
- **Incident Response:** NIST 800-61 framework, MITRE ATT&CK, forensic analysis, containment and eradication, post-incident review
- **Scripting and Automation:** PowerShell, Kusto Query Language (KQL), SOAR playbook development
- **Frameworks:** NIST Cyber Security Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer March 2025 - Present

- Lead security operations across an 8,000-user enterprise environment, overseeing CrowdStrike Falcon EDR, Microsoft Sentinel SIEM, and Microsoft Defender for Endpoint (MDE) for continuous threat detection and alert triage
- Manage and optimise CrowdStrike Falcon Next-Generation SIEM (NG-SIEM), Prevent, Insight, and Discover modules, tuning policies and exclusions to reduce false positives and improve detection fidelity
- Administer Mimecast email security platform including anti-phishing rules, anti-spam policies, Data Loss Prevention (DLP) controls, and impersonation protection
- Manage SIEM/SOAR integrations and develop automated response playbooks using KQL and PowerShell, reducing mean time to respond to security incidents
- Administer BeyondTrust Privileged Access Management (PAM) platform to enforce least-privilege principles and maintain session recording and audit trails

- Manage Microsoft Intune MDM and MAM, enforcing device compliance policies and securing the mobile device estate across staff and student populations
- Oversee vulnerability scanning and remediation programmes using Tenable.io, AppCheck, and Pentera BAS, coordinating patch remediation with infrastructure teams
- Manage Entra Identity (Azure Active Directory) Conditional Access policies, MFA configurations, and SSO integrations across enterprise applications
- Manage IDS/IPS, security certificates, and VPN configurations, and deliver regular security awareness training to staff
- Lead incident response investigations following the NIST 800-61 framework, including forensic analysis, containment, eradication, and post-incident reporting
- Remediate penetration test findings, prioritising critical and high-risk vulnerabilities in coordination with the infrastructure and application teams

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Monitored and investigated security alerts from SIEM and EDR platforms, performing end-to-end triage, escalation, and incident documentation
- Led enterprise deployment of CrowdStrike Falcon EDR, configuring sensor policies, prevention rules, and response actions across all managed endpoints
- Administered Check Point Harmony firewall and managed web/email security gateways including Mimecast, applying rule changes and investigating policy breaches
- Supported vulnerability management activities using Tenable Nessus, coordinating remediation tracking with infrastructure and application teams
- Managed Entra Identity (Azure AD) Group Policy, Conditional Access, and MFA rollout, reducing identity-related security risks across the organisation
- Administered BeyondTrust PAM platform for privileged credential management, session recording, and least-privilege access enforcement
- Managed Microsoft Intune MDM/MAM and supervised endpoint compliance reporting across Windows, macOS, iOS, and Android devices
- Developed PowerShell automation scripts for security event correlation, compliance reporting, and repetitive security operations tasks
- Conducted phishing simulations and delivered security awareness campaigns to staff and students
- Contributed to ISO 27001 and Cyber Essentials Plus audit preparation, evidence collection, and remediation of audit findings

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Deployed and configured endpoint security, email security gateways, and identity management platforms to secure a SaaS FinTech environment
- Managed Azure Active Directory (Azure AD) MFA and SSO policies, improving identity security and access governance
- Maintained and monitored firewalls, VPN, and IDS/IPS infrastructure, responding to security alerts and escalating critical events
- Managed Microsoft Intune MDM and enforced device compliance policies across the organisation
- Conducted vulnerability assessments and coordinated vendor remediation for identified security weaknesses
- Supported ISO 27001 information security management system documentation, internal audit preparation, and risk register maintenance

KEY ACHIEVEMENTS

- Led CrowdStrike Falcon EDR deployment across an 8,000-user enterprise estate, improving endpoint threat visibility and reducing mean time to detect (MTTD) threats across the organisation
- Built automated SIEM/SOAR playbooks that significantly reduced analyst alert triage time and improved consistency of incident response procedures

- Designed and implemented a comprehensive vulnerability management programme using Tenable.io and Pentera BAS, achieving measurable reduction in critical vulnerability exposure and improving SLA compliance
- Achieved and maintained Cyber Essentials Plus certification, managing the end-to-end evidence collection, gap remediation, and assessor liaison process
- Successfully led multiple incident response investigations including advanced persistent threat (APT) containment, business email compromise (BEC), and phishing campaign responses
- Administered BeyondTrust PAM across the enterprise, reducing privileged account sprawl and achieving full session recording coverage for administrator accounts

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
