

PROSPER AWUNI

Senior Security Engineer | CrowdStrike EDR | SIEM | Vulnerability Management | Identity Security | Financial Services

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Security Engineer with over five years of experience implementing and maintaining robust security systems and protocols across enterprise IT infrastructure. I have deep hands-on expertise managing CrowdStrike Endpoint Detection and Response (EDR) and CrowdStrike Next-Generation Security Information and Event Management (NG-SIEM), Mimecast mail security gateway, Tenable.io and Nessus vulnerability management, Microsoft Intune Conditional Access, and Microsoft Entra ID (Active Directory, Domain Name System (DNS), Group Policy Objects (GPO)). At the University of the Arts London (UAL), I have worked as part of a small, high-performing security team delivering significant improvements to the organisation's security posture, including deploying Microsoft Defender for Endpoint (MDE) to over 8,000 users and engineering an enterprise-wide Conditional Access framework. I bring a collaborative, structured approach to security engineering and am ready to join a growing financial services firm as a Senior Security Engineer, contributing directly to the protection of critical business systems and client data.

CORE SKILLS AND TECHNICAL STACK

- **EDR/SIEM:** CrowdStrike Falcon EDR, Falcon Prevent, Falcon NG-SIEM (LogScale), Falcon Insight, Falcon Discover; Microsoft Sentinel with Kusto Query Language (KQL); Splunk/SPL
- **Email Security:** Mimecast mail security gateway administration; anti-phishing, anti-spoofing and Data Loss Prevention (DLP) policy management
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS); risk-based prioritisation and remediation tracking
- **Identity and Access Management:** Microsoft Entra ID, Active Directory (AD), Azure Active Directory (Azure AD), DNS, Group Policy (GPO); Conditional Access; Multi-Factor Authentication (MFA); Single Sign-On (SSO); BeyondTrust Privileged Access Management (PAM)
- **Endpoint and Device Management:** Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM); Tanium
- **Microsoft Defender Suite:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender (M365)
- **Firewall and Network Security:** Check Point Harmony; perimeter security management and policy review
- **Incident Response and Automation:** NIST 800-61 incident response; Security Orchestration, Automation and Response (SOAR) playbook development; PowerShell scripting
- **Frameworks and Standards:** NIST Cybersecurity Framework (CSF), ISO 27001, CIS Controls, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Implement and maintain robust security systems and protocols across the IT infrastructure of a complex multi-site organisation with over 8,000 users.
- Administer CrowdStrike EDR and Falcon NG-SIEM as the primary platforms for threat detection, alert triage and incident response; manage detection rules and SOAR automation playbooks.
- Manage Mimecast mail security gateway including phishing simulation campaigns, anti-spam policies, impersonation protection and DLP rule sets.
- Oversee vulnerability management using Tenable.io and Nessus; conduct regular scan cycles and track remediation against agreed service level timelines.
- Engineer and manage Entra ID Conditional Access policies, GPO configurations and Azure AD identity governance to enforce least-privilege and zero-trust access controls.

- Administer Microsoft Intune MDM/MAM policies for corporate and bring-your-own-device (BYOD) endpoints, ensuring device compliance and data protection.
- Administer BeyondTrust Privileged Access Management (PAM) to govern privileged account access, session recording and credential vaulting.
- Lead incident response activities in accordance with NIST 800-61; coordinate cross-functional teams during security events and produce detailed post-incident reviews.
- Contribute to ISO 27001 and Cyber Essentials Plus compliance activities including risk register maintenance and control evidence collection.

University of the Arts, London (UAL) — Cyber Security Analyst, Cyber Security and Identity

March 2022 – March 2025

- Managed and maintained security systems across the organisation's IT estate, focusing on identity security, endpoint protection and SIEM operations.
- Administered Microsoft Sentinel SIEM, authoring KQL detection rules, hunting queries and incident playbooks aligned to MITRE ATT&CK techniques.
- Managed Mimecast mail security gateway, investigating phishing and Business Email Compromise (BEC) incidents and coordinating takedowns.
- Performed vulnerability assessments using Tenable.io and AppCheck; documented findings and tracked remediation with system owners.
- Configured and maintained Entra ID Conditional Access policies, MFA enforcement and Azure AD Group Policy settings.
- Managed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) deployments; tuned alert policies and investigated endpoint and identity-based threats.
- Supported BeyondTrust PAM platform administration including role-based access review and privileged session monitoring.

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure

February 2021 – March 2022

- Implemented and maintained security systems and protocols across a SaaS/FinTech infrastructure, including endpoint protection, email security and identity management platforms.
- Managed Active Directory, DNS and Group Policy, ensuring secure configuration and consistent enforcement of access control policies.
- Administered MFA and SSO solutions for internal staff and external-facing systems.
- Supported vulnerability management and patch management cycles, coordinating remediation activities with development and infrastructure teams.
- Assisted with incident triage and root-cause analysis; contributed to lessons-learned and security improvement programmes.

KEY ACHIEVEMENTS

- Deployed Microsoft Defender for Endpoint (MDE) to over 8,000 users at UAL, achieving full endpoint telemetry coverage across the estate.
- Engineered and operationalised CrowdStrike Falcon NG-SIEM, consolidating multi-source log ingestion and enabling automated SOAR-driven response to common attack patterns.
- Designed and rolled out an Entra ID Conditional Access policy framework enforcing risk-based MFA and device compliance checks across all user populations.
- Led a Pentra BAS assessment programme that identified and closed critical attack paths, demonstrating measurable improvement to the organisation's resilience.
- Reduced alert noise by 30% through systematic tuning of CrowdStrike and Sentinel detection rules, enabling the security team to focus on high-fidelity, high-severity alerts.
- Achieved and maintained Cyber Essentials Plus accreditation, demonstrating a strong baseline of security controls across endpoint, identity and network domains.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
