

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR, SIEM/SOAR and Security Operations Specialist

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniproper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of hands-on experience in cyber security engineering and security operations. My core expertise centres on CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR), vulnerability management, identity and access management, and incident response. At the University of the Arts London (UAL), I protect an estate of over 8,000 users by managing CrowdStrike Falcon across all modules including EDR, Prevent, Insight, Discover, and NG-SIEM, alongside Mimecast email security, Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), BeyondTrust Privileged Access Management (PAM), and Microsoft Entra ID (formerly Azure Active Directory) Conditional Access and Multi-Factor Authentication (MFA) policies. I conduct vulnerability scans and remediation using Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), and Nessus, and respond to incidents aligned to the NIST 800-61 framework using the MITRE ATT&CK threat model. I am now seeking a senior cyber security engineering role within a focused financial services environment where I can apply my depth of expertise in CrowdStrike, SIEM/SOAR/EDR, identity management, MDM/MAM, and vulnerability management to strengthen security operations within a high-performing team.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (EDR, Prevent, NG-SIEM, Insight, Discover), Microsoft Defender for Endpoint (MDE), Tanium
- **SIEM and SOAR:** Microsoft Sentinel, CrowdStrike NG-SIEM, Splunk (SPL), alert triage, playbook automation, KQL (Kusto Query Language)
- **Email Security:** Mimecast (gateway, threat protection, anti-phishing, URL rewriting)
- **Identity and Access Management (IAM):** Microsoft Entra ID, Azure Active Directory (AD), Conditional Access, MFA, Single Sign-On (SSO), identity governance
- **Mobile Device Management (MDM) and Mobile Application Management (MAM):** Microsoft Intune, endpoint compliance policy management
- **Privileged Access Management (PAM):** BeyondTrust
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera BAS, Nessus, remediation tracking
- **Firewall and Network Security:** Check Point Harmony, IDS/IPS, WAF/DDoS management
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework
- **Automation and Scripting:** PowerShell, SOAR playbook development
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

Senior Cyber Security Analyst / Engineer

March 2025 - Present

University of the Arts London (UAL)

- Manage and optimise CrowdStrike Falcon EDR, Prevent, Insight, Discover, and NG-SIEM modules across an estate of 8,000+ users, ensuring continuous endpoint protection and threat visibility
- Configure SIEM and SOAR capabilities using Microsoft Sentinel and CrowdStrike NG-SIEM, performing alert triage, incident investigation, and automated response playbook execution
- Administer Microsoft Entra ID Conditional Access, MFA, and SSO policies, enforcing identity security across the organisation and managing privileged access via BeyondTrust PAM
- Manage Microsoft Intune MDM and MAM policies for 8,000+ managed endpoints and mobile devices, enforcing security baselines and compliance postures

- Operate Mimecast email security gateway, configuring threat protection, anti-phishing, URL rewriting, and impersonation protection controls
- Lead vulnerability management programme using Tenable.io, AppCheck, Pentera BAS, and Nessus, including scan execution, risk prioritisation, and remediation tracking across the infrastructure estate
- Conduct incident response aligned to the NIST 800-61 framework, mapping threats to the MITRE ATT&CK framework and producing post-incident reports for senior stakeholders
- Administer Check Point Harmony firewall rules and policies, monitor network security events, and manage IDS/IPS alerting
- Develop PowerShell automation scripts to streamline repetitive security operations tasks and enhance SOAR playbook workflows
- Deliver security awareness training to staff, reducing organisational exposure to phishing and social engineering threats
- Remediate penetration test and red team exercise findings, tracking resolution progress and reporting outcomes to the security leadership team

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

University of the Arts London (UAL)

- Supported deployment and daily management of CrowdStrike Falcon EDR and Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender across the enterprise
- Conducted alert triage and incident investigation using SIEM platforms including Microsoft Sentinel and CrowdStrike, escalating and containing confirmed incidents per defined playbooks
- Administered Microsoft Entra ID (formerly Azure AD) including user provisioning, group management, access reviews, and Conditional Access policy enforcement
- Managed Microsoft Intune MDM/MAM policies for enterprise endpoint and mobile device compliance
- Operated Mimecast email security, responding to email-borne threats, phishing campaigns, and impersonation attempts
- Conducted vulnerability assessments using Tenable.io and Nessus, prioritising findings by risk severity and tracking remediation with system owners
- Delivered security awareness briefings and phishing simulation campaigns across the organisation
- Participated in penetration test exercises and tracked remediation of identified vulnerabilities to closure
- Monitored firewall and IDS/IPS alerts, escalating anomalous activity for investigation and response
- Maintained and updated security policies, procedures, and documentation in line with Cyber Essentials Plus requirements

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

HICX Solutions Ltd (SaaS/FinTech)

- Implemented and maintained security controls across the SaaS and FinTech infrastructure, ensuring compliance with industry security standards
- Managed endpoint security, network monitoring, access controls, and identity management within a cloud-native environment
- Conducted security quality assurance activities, including vulnerability assessments and security configuration reviews
- Supported IT infrastructure provisioning, maintenance, and troubleshooting, developing a strong foundation in security engineering and operational support
- Contributed to security policy development, technical documentation, and incident management procedures

KEY ACHIEVEMENTS

- Deployed and optimised CrowdStrike Falcon EDR across an enterprise of 8,000+ users, achieving comprehensive endpoint threat detection coverage and accelerating incident containment capability
- Implemented BeyondTrust PAM, establishing centralised control, monitoring, and auditing of privileged accounts and significantly reducing the risk of credential-based attacks
- Led a vulnerability management programme using Tenable.io, AppCheck, Pentera BAS, and Nessus, systematically identifying and tracking remediation of critical vulnerabilities across the infrastructure estate

- Automated security incident response workflows using PowerShell and SOAR playbooks, reducing mean time to respond (MTTR) and freeing analyst capacity for higher-priority investigations
- Configured enterprise-wide Microsoft Entra ID Conditional Access policies and MFA enforcement across 8,000+ users, materially reducing the attack surface for identity-based threats
- Maintained Cyber Essentials Plus certification compliance across the organisation, ensuring ongoing alignment with National Cyber Security Centre (NCSC) security requirements

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
