

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | Endpoint and Network Security | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of experience as a Senior Cyber Security Engineer within complex, regulated IT environments. I have deep hands-on expertise across Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), email and web security gateways, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM) and Mobile Application Management (MAM), Privileged Access Management (PAM) and vulnerability management. I am an expert in CrowdStrike Falcon across its Prevent, Endpoint Detection and Response (EDR), Insight and Next-Generation SIEM (NG-SIEM) modules, and I manage Microsoft Sentinel alongside Mimecast email security, Microsoft Entra ID (formerly Azure Active Directory) identity controls, BeyondTrust Privileged Access Management (PAM) and Microsoft Intune device management for a user estate of more than 8,000 individuals. I have a proven track record of remediating penetration test findings, managing vulnerability scan and remediation cycles, delivering security awareness training and contributing to security hardening and architecture projects within a small, high-impact IT security team.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR) and Next-Generation SIEM:** CrowdStrike Falcon (Prevent, EDR, Insight, Discover, NG-SIEM) - Expert
- **Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR):** Microsoft Sentinel, CrowdStrike Falcon NG-SIEM, automated playbooks, PowerShell scripting
- **Email and Web Security Gateway:** Mimecast; web filtering and DLP controls
- **Identity and Access Management (IAM) and Multi-Factor Authentication (MFA):** Microsoft Entra ID (Azure Active Directory), Conditional Access, MFA, Single Sign-On (SSO)
- **Privileged Access Management (PAM):** BeyondTrust
- **Mobile Device Management (MDM) and Mobile Application Management (MAM):** Microsoft Intune
- **Vulnerability Management:** Tenable.io, Pentra Breach and Attack Simulation (BAS), AppCheck, Nessus; vulnerability scanning, prioritisation and remediation tracking
- **Firewall and Network Security:** Check Point Harmony; Intrusion Detection and Prevention (IDS/IPS); Web Application Firewall (WAF); DDoS mitigation
- **Microsoft Defender Suite:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft Defender for Microsoft 365 (M365)
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework, end-to-end triage, containment, eradication and post-incident review
- **Frameworks and Compliance:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Manage all aspects of Endpoint Detection and Response (EDR) and Security Information and Event Management (SIEM) platforms, including CrowdStrike Falcon and Microsoft Sentinel, within a 8,000-user enterprise environment, maintaining robust alerting, detection coverage and platform health.
- Administer Mimecast email security gateway, managing policies, reviewing quarantine queues, responding to phishing incidents and tuning configurations to reduce email-borne threats reaching end users.

- Oversee Identity and Access Management (IAM) including Microsoft Entra ID (Azure Active Directory), Conditional Access policies, Multi-Factor Authentication (MFA) and Single Sign-On (SSO) controls for all staff across the organisation.
- Manage BeyondTrust Privileged Access Management (PAM) platform, enforcing least-privilege principles, controlling access to sensitive systems and maintaining audit records for privileged session activity.
- Administer Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM) across a diverse endpoint estate, enforcing compliance policies and managing device lifecycle.
- Execute vulnerability scanning and remediation programmes using Tenable.io, Pentra Breach and Attack Simulation (BAS) and AppCheck, producing risk-prioritised remediation plans and tracking findings through to closure with technology and business stakeholders.
- Manage security certificates and PKI controls, ensuring timely renewal and correct deployment across infrastructure and application services.
- Respond to security incidents in line with the NIST 800-61 incident response methodology, performing triage, investigation, containment, eradication and post-incident review, including liaison with senior stakeholders during high-severity events.
- Remediate penetration test findings identified through internal and third-party assessments, coordinating with technology teams and tracking risk acceptance or remediation to closure.
- Deliver security awareness training to staff at all levels, improving phishing resilience and embedding a positive security culture across the organisation.
- Build and maintain Security Orchestration, Automation and Response (SOAR) playbooks using PowerShell scripting to automate repetitive security operations tasks and accelerate response times.

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Managed day-to-day security operations including Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) alert triage, Endpoint Detection and Response (EDR) management via CrowdStrike Falcon, and Identity and Access Management (IAM) administration via Microsoft Entra ID.
- Administered Mimecast email security gateway, tuning anti-spam, anti-phishing and DLP policies to protect users and reduce phishing susceptibility across the organisation.
- Managed BeyondTrust Privileged Access Management (PAM) controls, maintaining access reviews, privilege escalation workflows and audit trails for sensitive system access.
- Supported deployment and ongoing management of Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM) across the 8,000-user estate, enforcing device compliance and mobile security policies.
- Conducted vulnerability assessments using Tenable.io, AppCheck and Nessus, triaging findings by risk severity and coordinating remediation with infrastructure and application teams.
- Supported penetration test engagements, reviewing findings and tracking remediation through to completion within agreed risk appetites.
- Managed Check Point Harmony firewall rules, reviewing configurations and supporting network security operations including Intrusion Detection and Prevention (IDS/IPS) monitoring.
- Monitored Web Application Firewall (WAF) and DDoS protection controls, escalating anomalies and tuning rulesets to maintain service availability and security.

HICX Solutions Ltd (Software as a Service / Financial Technology)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Delivered security engineering activities across a hybrid infrastructure environment including firewall management, email security gateway (Mimecast) configuration, endpoint security and vulnerability scanning.
- Administered Identity and Access Management (IAM) controls and enforced Multi-Factor Authentication (MFA) policies, managing user access lifecycle and Privileged Access Management (PAM) processes.
- Conducted vulnerability scanning and assisted with penetration test remediation, contributing to the closure of identified security weaknesses within agreed timeframes.

- Delivered security awareness training and contributed to ISO 27001 compliance activities and security policy development.

KEY ACHIEVEMENTS

- Led the deployment of Microsoft Defender for Endpoint (MDE) and CrowdStrike Falcon Endpoint Detection and Response (EDR) across an 8,000-user estate at UAL, delivering comprehensive endpoint detection coverage and significantly improving threat visibility across the organisation.
- Designed and implemented a suite of Security Orchestration, Automation and Response (SOAR) playbooks, automating alert triage and initial response actions for common incident types and reducing manual analyst workload.
- Drove the Pentera Breach and Attack Simulation (BAS) programme at UAL, enabling continuous automated validation of attack paths and providing risk-prioritised insight to reduce real-world attack surface.
- Managed all CrowdStrike Falcon NG-SIEM, Prevent and EDR modules at an expert level, maximising platform value across threat detection, threat hunting and security posture reporting.
- Supported UAL in achieving and maintaining Cyber Essentials Plus certification, demonstrating robust security controls across firewalls, secure configuration, access control, malware protection and patch management.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
