

PROSPER AWUNI

Senior Cyber Security Engineer | Azure and M365 Cloud Security | NIST | CIS | ISO 27001 | CISSP | PowerShell

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with more than five years of experience designing, implementing, reviewing, and managing security measures to protect Microsoft Azure and Microsoft 365 (M365) environments. I bring deep expertise in Azure Active Directory (Entra ID), Conditional Access, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 security services, SIEM/SOAR engineering, and PowerShell scripting and automation. I am highly experienced in applying security frameworks including the National Institute of Standards and Technology Cybersecurity Framework (NIST CSF), Center for Internet Security (CIS) Controls, and ISO 27001, and I hold relevant certifications including the Certified Information Systems Security Professional (CISSP). I am seeking a Senior Cyber Security Engineer role at Baringa where I can manage and prioritise a security engineering backlog using Agile methodologies, implement automation opportunities, and work closely with senior stakeholders to protect Azure and M365 environments at scale.

CORE SKILLS AND TECHNICAL STACK

- **Cloud Security:** Microsoft Azure, Microsoft 365 (M365) security services, Azure Security Center, Azure Policy, Azure Logic Apps, cloud security architecture design and review
- **Identity and Access:** Entra ID / Azure Active Directory (AD), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Privileged Identity Management (PIM), BeyondTrust Privileged Access Management (PAM)
- **Endpoint and Threat Protection:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft Defender for Cloud Apps, CrowdStrike Falcon EDR
- **SIEM/SOAR:** Microsoft Sentinel (KQL), CrowdStrike NG-SIEM, SOAR playbook development, detection engineering, alert triage
- **Scripting and Automation:** PowerShell, Azure CLI, Azure Logic Apps, SOAR automation
- **Security Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus
- **Compliance and Governance:** Security architecture artefacts (models, templates, standards, procedures), risk management, security documentation
- **Methodology:** Agile security engineering, backlog prioritisation, stakeholder engagement

PROFESSIONAL EXPERIENCE

- University of the Arts, London (UoA) | Senior Cyber Security Analyst/Engineer, March 2025 -- Present
- Design, implement, and assess security architecture artefacts including models, templates, standards, and procedures to support engineering best practices and aligning to NIST CSF, CIS Controls, and ISO 27001 frameworks.
- Manage and maintain Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft Defender for Microsoft 365 (M365) across an 8,000-user estate, acting as the senior technical authority for Microsoft cloud security.
 - Develop, maintain, and assess security architecture artefacts including models, templates, standards, and procedures to support engineering best practices across the institution.
 - Coordinate and manage cyber security engineering projects, ensuring timely delivery and quality, and managing an Agile security engineering backlog to prioritise workstreams effectively.
 - Identify and implement automation opportunities using PowerShell, Azure Logic Apps, and SOAR playbooks to reduce manual effort and improve incident response efficiency.
 - Administer Entra ID / Azure Active Directory, Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO), enforcing zero-trust identity security across the organisation.

- Manage Microsoft Sentinel Security Information and Event Management (SIEM) platform, engineering KQL-based detection rules and integrating security data sources across Azure, M365, and on-premises environments.
- Maintain accurate documentation and team processes, ensuring security standards and procedures are current and auditable.

University of the Arts London (UAL) – Cyber Security Analyst, Cyber Security and Identity, SSO, and Group Policy across the 8,000-user institution, delivering identity access control aligned to CIS Controls and NIST CSF. *March 2022 – March 2025*

- Deployed and maintained Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft Defender for Microsoft 365 (M365), implementing endpoint detection, identity threat protection, and cloud application security.
- Configured and operated Microsoft Sentinel SIEM, creating custom detection rules using Kusto Query Language (KQL) and integrating data connectors across Azure and M365 workloads.
- Developed and maintained SOAR automation playbooks using Azure Logic Apps and Microsoft Sentinel to automate alert enrichment, containment, and analyst notification workflows.
- Supported security architecture reviews, contributing to the design and implementation of cloud-native security controls across Azure and M365, aligned to ISO 27001 and Cyber Essentials Plus.
- Managed BeyondTrust Privileged Access Management (PAM) and enforced least-privilege access controls for privileged accounts and service identities.
- Conducted vulnerability management using Tenable.io and Nessus, coordinating remediation activities and reporting risk posture to senior management.

HGX Solutions Ltd (SaaS FinTech) – IT Engineer, Security, Quality and Infrastructure, and MFA Design and Implementation Azure Active Directory, Security, Quality and Infrastructure policies, and MFA for a Software-as-a-Service (SaaS) FinTech platform, aligning identity security to organisational policy. *February 2021 – March 2022*

- Implemented Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), enforcing device compliance and security baselines across corporate and remote-working staff.
- Used PowerShell scripting to automate identity provisioning, security reporting, and configuration management tasks, improving operational efficiency.
- Contributed to ISO 27001 compliance activities, including developing security documentation, conducting internal audits, and supporting risk assessment processes.
- Managed infrastructure security including firewalls, VPN, patching, and endpoint security, maintaining the availability and integrity of the cloud-hosted FinTech platform.

KEY ACHIEVEMENTS

- Deployed Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), and Defender for Microsoft 365 (M365) across an 8,000-user estate at UAL, consolidating endpoint and identity threat protection within the Microsoft cloud security platform.
- Architected Microsoft Sentinel as the primary Security Information and Event Management (SIEM) platform for UAL, engineering 40+ custom KQL detection rules and Azure Logic Apps-based SOAR playbooks aligned to NIST CSF and MITRE ATT&CK, reducing alert response times significantly.
- Implemented BeyondTrust Privileged Access Management (PAM) across the UAL enterprise estate, eliminating standing privileged access and enforcing just-in-time (JIT) administrative access controls.
- Led vulnerability management programme at UAL using Tenable.io, AppCheck, and Pentra BAS, achieving consistent quarterly reduction in critical and high-severity findings across cloud and on-premises infrastructure.
- Delivered Azure Active Directory / Entra ID Conditional Access policy overhaul at UAL, enforcing device compliance, MFA, and location-based controls across all 8,000 users, significantly reducing identity-based attack surface.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
