

PROSPER AWUNI

Cyber Security Engineer | CrowdStrike | SIEM/SOAR | EDR | Vulnerability Management | PAM |
Financial Services

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Cyber Security Engineer with more than five years of hands-on experience implementing and maintaining robust security across complex enterprise environments. I specialise in CrowdStrike Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM)/Security Orchestration, Automation and Response (SOAR), Privileged Access Management (PAM), Multi-Factor Authentication (MFA)/Single Sign-On (SSO), Mobile Device Management (MDM)/Mobile Application Management (MAM), and vulnerability management. I have delivered enterprise security programmes protecting more than 8,000 users at a large UK higher education institution, and I am now seeking a hybrid senior cyber security engineering role within financial services where I can apply my expertise in CrowdStrike, Mimecast, Entra ID, Intune, and incident response to protect a focused, high-performing security function.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, EDR, Insight, Discover, NG-SIEM) - Expert
- **SIEM/SOAR:** Microsoft Sentinel (KQL), CrowdStrike Falcon NG-SIEM, alert triage, detection engineering, playbook development
- **Identity and Access:** Entra ID / Azure Active Directory (AD), Conditional Access, MFA, SSO, Group Policy, BeyondTrust PAM
- **Email and Web Security:** Mimecast, web/email security gateway management, phishing defence
- **MDM/MAM:** Microsoft Intune, Mobile Device Management (MDM), Mobile Application Management (MAM)
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus, penetration test remediation
- **Firewalls / Network Security:** Check Point Harmony, IDS/IPS, WAF/DDoS management
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework, Tier 3 escalation, threat hunting
- **Scripting / Automation:** PowerShell, SOAR automation, playbook engineering
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

- University of the Arts, London (UK) | Senior Cyber Security Analyst/Engineer - SIEM across an 8,000-endpoint estate, acting as the primary technical owner and senior escalation point for all EDR-related security events. March 2025 - Present
- Manage WAF/DDoS, web and email security gateways (Mimecast), SIEM/SOAR/EDR alert response, firewalls, MFA/SSO, MDM/MAM (Intune), and IDS/IPS, ensuring continuous protection of the institution's infrastructure.
 - Lead Tier 3 security incident response, performing advanced threat hunting and forensic investigation using CrowdStrike Falcon Insight and Microsoft Sentinel, aligned to NIST 800-61 and MITRE ATT&CK.
 - Engineer and tune detection rules, correlation alerts, and SOAR playbooks in Microsoft Sentinel and CrowdStrike NG-SIEM to improve signal quality and reduce false positives.
 - Oversee the vulnerability management programme using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), coordinating penetration test remediation and risk reporting to senior stakeholders.
 - Manage BeyondTrust Privileged Access Management (PAM) platform, enforcing least-privilege access across all privileged accounts and third-party integrations.
 - Administer Entra ID / Azure Active Directory, Conditional Access policies, MFA, SSO, and Group Policy to enforce zero-trust identity controls across the institution.

- Deliver security awareness training to staff and stakeholders, driving a positive security culture across the organisation.

University of the Arts, London (UAL) – Cyber Security Analyst, Cyber Security and Identity
Administered Mimecast email security gateway, protecting 8,000 users from phishing, malware, and business email compromise (BEC).
March 2022 -- March 2025

- Managed Microsoft Intune MDM/MAM estate, enforcing device compliance policies and application controls across corporate and bring-your-own-device (BYOD) fleets.
- Monitored, investigated, and responded to security alerts from CrowdStrike Falcon EDR and Microsoft Sentinel SIEM, performing triage, containment, and root cause analysis.
- Administered Azure Active Directory (Entra ID), Conditional Access, MFA, and SSO, implementing identity access control measures and preventing unauthorised account activity.
- Conducted threat hunting using CrowdStrike Falcon Insight, proactively identifying indicators of compromise (IoCs) and adversarial Tactics, Techniques, and Procedures (TTPs) using the MITRE ATT&CK framework.
- Supported Check Point Harmony firewall management, security policy configuration, and IDS/IPS tuning.
- Participated in penetration tests, co-ordinating remediation of findings with infrastructure and application teams.
- Managed security certificates, patching cycles, and contributed to ad-hoc security projects as directed by the IT Security Officer.

HGX Solutions Ltd (SaaS/Fintech) – IT Engineer, Security, Quality and Infrastructure
Administered security tooling and infrastructure for a SaaS-based fintech platform, maintaining firewalls, VPN, MDM/MAM, and endpoint security controls.
February 2021 -- March 2022

- Implemented Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), enforcing security baselines across a remote-first workforce.
- Conducted vulnerability assessments and security audits, coordinating remediation activities and producing risk reports for management.
- Supported identity and access management (IAM), managing user provisioning, Group Policy, and MFA enrolment.
- Delivered security awareness training and contributed to ISO 27001 and Cyber Essentials Plus compliance activities.

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon EDR, Prevent, Insight, and Discover across 8,000+ endpoints at UAL, significantly improving endpoint visibility, threat detection, and mean time to respond (MTTR) to security incidents.
- Engineered over 40 custom SIEM detection rules and SOAR playbooks in Microsoft Sentinel aligned to MITRE ATT&CK, reducing analyst alert triage time by automating initial enrichment and containment steps.
- Implemented BeyondTrust Privileged Access Management (PAM) across the UAL estate, eliminating standing privileged access and enforcing just-in-time (JIT) controls for all administrative accounts.
- Led full lifecycle vulnerability management programme at UAL using Tenable.io, AppCheck, and Pentera BAS, achieving measurable reduction in critical and high-risk findings quarter-on-quarter.
- Managed Mimecast email gateway protecting 8,000 users, introducing advanced threat protection policies that blocked phishing campaigns and business email compromise (BEC) attempts.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
