

PROSPER AWUNI

Level 3 SOC Analyst | CrowdStrike Falcon | SOAR | SIEM | Threat Hunting | Detection Engineering | Incident Response | MITRE ATT&CK

United Kingdom (Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosp

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Level 3 (L3) Security Operations Centre (SOC) Analyst and senior threat hunter with more than five years of hands-on experience in security operations, incident response, threat hunting, and detection engineering. I have expert-level proficiency with CrowdStrike Falcon Endpoint Detection and Response (EDR), CrowdStrike Fusion Security Orchestration, Automation and Response (SOAR), and Microsoft Sentinel Security Information and Event Management (SIEM), and I am highly experienced in developing and tuning SIEM detection rules aligned to MITRE ATT&CK tactics and emerging threat intelligence. I act as a final escalation point for complex high-severity incidents, lead proactive threat hunting exercises across cloud and on-premises environments, design and maintain automated SOAR response playbooks, and mentor Level 1 (L1) and Level 2 (L2) analysts to build SOC capability. I have been resident in the United Kingdom for more than five years and am eligible for Security Check (SC) clearance.

CORE SKILLS AND TECHNICAL STACK

- **SOAR Platforms:** CrowdStrike Fusion SOAR (Expert), Microsoft Sentinel SOAR / Azure Logic Apps, automated playbook design and maintenance
- **SIEM Platforms:** CrowdStrike Falcon NG-SIEM (Expert), Microsoft Sentinel with Kusto Query Language (KQL), Splunk / SPL (Moderate)
- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (EDR, Prevent, Insight, Discover, NG-SIEM) - Expert; Microsoft Defender for Endpoint (MDE)
- **Threat Hunting:** Intelligence-driven and hypothesis-based threat hunting, MITRE ATT&CK framework, Tactics, Techniques, and Procedures (TTP) analysis, indicators of compromise (IoC) identification
- **Incident Response (IR):** NIST 800-61 lifecycle, Tier 3 escalation and lead investigator, containment, forensic analysis, root cause analysis (RCA), post-incident reporting
- **Detection Engineering:** SIEM detection rule development, correlation logic, EDR query engineering, signal-to-noise tuning, MITRE ATT&CK mapping
- **Cloud Security:** Microsoft Azure, Microsoft 365 (M365), Entra ID / Azure AD security monitoring
- **Automation / Scripting:** PowerShell, SOAR automation, alert enrichment automation, evidence collection scripting
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus
- **Frameworks:** NIST 800-61, MITRE ATT&CK, NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer | March 2025 - Present

- Oversee the threat intelligence and incident response team, leading complex incident investigations across Microsoft Azure, Microsoft 365 (M365), and hybrid on-premises environments, aligned to NIST 800-61 incident response lifecycle.
- Develop and tune SIEM detections, correlation rules, and Endpoint Detection and Response (EDR) queries in CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, aligned to MITRE ATT&CK tactics and current threat intelligence.
- Design, develop, and maintain automated SOAR response playbooks using CrowdStrike Fusion SOAR and Microsoft Sentinel / Azure Logic Apps, improving analyst response efficiency and reducing mean time to respond (MTTR).
- Conduct proactive, intelligence-driven threat hunting exercises across enterprise and cloud environments using CrowdStrike Falcon Insight and Microsoft Sentinel KQL, identifying adversarial Tactics, Techniques, and Procedures (TTPs) before alerts are generated.

- Lead investigation into high-severity security incidents across cloud, endpoint, and network environments, performing host and network forensic analysis and producing detailed post-incident reports.
- Manage and optimise the CrowdStrike Falcon EDR platform, including Falcon Prevent, Insight, Discover, and NG-SIEM, maintaining full endpoint visibility and detection coverage across 8,000+ devices.
- Provide technical mentoring and guidance to junior analysts, developing SOC capability and sharing threat intelligence, hunting techniques, and detection engineering knowledge.
- Manage vulnerability scanning and risk management using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), aligning remediation prioritisation to active threat intelligence.

University of the Arts London (UAL) – Cyber Security Analyst, Cyber Security and Identity

March 2022 -- March 2025

- Monitored, triaged, and escalated security alerts from CrowdStrike Falcon EDR and Microsoft Sentinel SIEM, performing L2/L3 incident investigation, containment, and remediation.
- Conducted proactive threat hunting using CrowdStrike Falcon Insight, developing and executing hunt hypotheses aligned to MITRE ATT&CK techniques and current threat intelligence.
- Engineered SIEM detection rules and SOAR playbooks in Microsoft Sentinel using KQL, improving detection coverage and automating repetitive analyst tasks including alert enrichment and ticket creation.
- Developed and maintained automated SOAR playbooks in Azure Logic Apps to enrich alerts, collect evidence, and execute containment actions, reducing mean time to detect (MTTD) and mean time to respond (MTTR).
- Supported advanced incident response activities including forensic investigation, malware analysis, and post-incident reporting, aligned to NIST 800-61 and MITRE ATT&CK.
- Managed Entra ID / Azure Active Directory, Conditional Access, Multi-Factor Authentication (MFA), and identity threat detection using Microsoft Defender for Identity (MDI).

HCK Solutions Ltd (SaaSFinTech) – IT Engineer, Security, Quality and Infrastructure

February 2021 -- March 2022

- Monitored security events and alerts across the SaaSFinTech platform, performing security incident triage and escalation, and maintaining security tooling including EDR and endpoint protection.
- Administered identity and access management (IAM), enforcing least-privilege access and MFA across the organisation.
- Conducted vulnerability assessments and security audits, coordinating remediation activities and contributing to Cyber Essentials Plus compliance.
- Used PowerShell to automate security operations tasks including alert enrichment, user account auditing, and compliance reporting.

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon EDR, Prevent, Insight, Discover, and NG-SIEM across 8,000+ endpoints at UAL, establishing the organisation as an expert-level CrowdStrike shop with deep EDR visibility and advanced threat hunting capability.
- Designed and deployed 40+ CrowdStrike Fusion SOAR and Microsoft Sentinel SOAR playbooks aligned to MITRE ATT&CK, automating alert enrichment, evidence collection, and initial containment steps, substantially reducing mean time to respond (MTTR).
- Led multiple high-severity incident response investigations at UAL across cloud, endpoint, and network environments, containing threats within defined recovery time objectives (RTOs) and producing detailed post-incident reports for senior leadership.
- Built and maintained intelligence-driven threat hunting programme at UAL, using CrowdStrike Falcon Insight and Microsoft Sentinel KQL to proactively identify adversarial Tactics, Techniques, and Procedures (TTPs), resulting in early detection of advanced persistent threats (APTs) and lateral movement indicators.
- Engineered 40+ custom SIEM detection rules in Microsoft Sentinel and CrowdStrike NG-SIEM, aligned to MITRE ATT&CK tactics, reducing false positive rates and improving signal quality for the security operations team.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
