

PROSPER AWUNI

Senior Microsoft Security Consultant | Microsoft 365 Defender | Entra | Intune | Purview | Defender XDR | CISSP

United Kingdom (Remote/Hybrid) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Microsoft security specialist with more than five years of hands-on experience delivering and managing Microsoft security, compliance, identity, and management solutions across hybrid and cloud environments. I have deep practical expertise in Microsoft 365 Defender, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft Entra (Azure Active Directory / Azure AD), Conditional Access, Multi-Factor Authentication (MFA), Microsoft Intune, and Microsoft Purview across an 8,000-user enterprise estate. I am an excellent communicator with a positive, solutions-oriented approach, and I have a strong track record of working closely with senior stakeholders to design, implement, and optimise transformational Microsoft security solutions. I am seeking a Senior Microsoft Security Consultant role at Threatscape where I can leverage my enterprise Microsoft security expertise in a client-facing, project-based environment, juggling multiple engagements simultaneously to protect organisations with the full Microsoft security and compliance portfolio.

CORE SKILLS AND TECHNICAL STACK

- **Microsoft 365 Defender:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft Defender for Cloud Apps, Microsoft Defender for Office 365 (MDO) - Strong; 8,000-user deployment
- **Microsoft Entra / Azure AD:** Azure Active Directory (Entra ID), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Privileged Identity Management (PIM), Identity Protection
- **Microsoft Intune:** Mobile Device Management (MDM), Mobile Application Management (MAM), device compliance policies, endpoint configuration profiles
- **Microsoft Purview:** Data Loss Prevention (DLP), Information Protection, Compliance Manager, eDiscovery, audit and data governance
- **SIEM/SOAR:** Microsoft Sentinel (Kusto Query Language / KQL), SOAR playbooks, Azure Logic Apps, detection engineering
- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Expert), Microsoft Defender XDR
- **Identity and Access Management (IAM):** BeyondTrust Privileged Access Management (PAM), zero-trust access controls, Group Policy
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus
- **Automation:** PowerShell, Azure CLI, Azure Logic Apps, SOAR automation
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UArts) | Senior Cyber Security Analyst / Engineer | March 2015 - Present

- Design, implement, and manage Microsoft security, compliance, and management solutions across the Microsoft 365 (M365) and Azure environments protecting 8,000+ users, serving as the internal Microsoft security subject matter expert (SME).
- Deliver transformational Microsoft Defender XDR projects, integrating Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), Defender for Cloud Apps, and Defender for Office 365 into a unified extended detection and response (XDR) posture.
- Implement and optimise Microsoft Purview Data Loss Prevention (DLP), Information Protection, and Compliance Manager controls, ensuring data governance, regulatory compliance, and sensitivity label enforcement across M365 workloads.
- Manage Microsoft Entra (Azure Active Directory), Conditional Access, MFA, SSO, and Privileged Identity Management (PIM), enforcing zero-trust identity controls and reducing identity-based risk across the institution.

- Administer Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), managing device compliance policies and application controls across corporate and bring-your-own-device (BYOD) endpoints.
- Engineer Microsoft Sentinel Security Information and Event Management (SIEM) detections using KQL, develop Azure Logic Apps-based SOAR playbooks, and onboard data connectors from M365 and Azure data sources.
- Engage senior stakeholders both within UAL and with external partners, translating complex Microsoft security requirements into actionable project deliverables and maintaining accurate documentation and security standards.

University of the Arts London (UAL) – Cyber Security Analyst – Cyber Security and Identity
 Delivered Microsoft security solutions across an 8,000-user M365 estate, securing Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), Defender for Microsoft 365, Microsoft Entra (Azure AD), Conditional Access, and Microsoft Intune. *March 2022 – March 2025*

- Implemented Conditional Access policies, MFA enrolment, SSO configuration, and Group Policy controls, protecting hybrid on-premises and cloud identities from compromise.
- Managed Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), onboarding and enforcing compliance policies for thousands of corporate and BYOD endpoints.
- Configured and operated Microsoft Sentinel SIEM, creating custom KQL detection rules and developing Azure Logic Apps SOAR playbooks for automated alert enrichment, ticket creation, and containment workflows.
- Implemented Microsoft Purview Data Loss Prevention (DLP) policies and sensitivity labels to protect institutional data across M365 workloads including Exchange Online, SharePoint, Teams, and OneDrive.
- Supported Microsoft 365 security assessments, gap analysis against CIS Controls and ISO 27001, and contributed to pre- and post-implementation reviews of Microsoft security projects.

HDX Solutions Ltd (SaaS/Fintech) – IT Engineer – Security, Quality, and Infrastructure
 Delivered Microsoft security and identity solutions for a SaaS/Fintech platform, implementing Azure Active Directory, Conditional Access, MFA, and Microsoft Intune MDM/MAM. *February 2021 – March 2022*

- Used PowerShell to automate security configuration tasks, identity lifecycle management, and compliance reporting across Azure AD and M365 workloads.
- Administered endpoint security controls, patch management, and Microsoft compliance policies, maintaining a secure and auditable infrastructure aligned to ISO 27001 and Cyber Essentials Plus.
- Engaged with internal stakeholders across security, infrastructure, and compliance teams to deliver Microsoft security projects on time and to quality, demonstrating strong communication and project co-ordination skills.

KEY ACHIEVEMENTS

- Deployed Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), Defender for Cloud Apps, and Defender for Microsoft 365 across an 8,000-user estate at UAL, delivering a unified Microsoft 365 Defender XDR posture and significantly improving threat detection and response capability.
- Architected and implemented Microsoft Sentinel as the primary SIEM for UAL, engineering 40+ custom KQL detection rules and Azure Logic Apps-based SOAR playbooks, reducing mean time to detect and respond to security incidents.
- Implemented Microsoft Purview Data Loss Prevention (DLP) and Information Protection controls at UAL, enforcing sensitivity label classification and preventing data exfiltration across M365 workloads.
- Delivered Microsoft Entra (Azure AD) Conditional Access policy overhaul at UAL, enforcing device compliance, MFA, and risk-based access controls across all 8,000 users, substantially reducing identity-based attack surface.
- Managed full Microsoft Intune MDM/MAM deployment at UAL, onboarding corporate and BYOD devices, enforcing security baselines, and applying application protection policies across iOS, Android, and Windows endpoints.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
