

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR | Incident Response | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) qualified Senior Cyber Security Engineer with over five years of hands-on experience implementing and maintaining robust security across complex enterprise environments. I specialise in CrowdStrike Falcon endpoint detection and response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) operations, web and email security gateway management, multi-factor authentication (MFA) and single sign-on (SSO), mobile device management (MDM) and mobile application management (MAM), Privileged Access Management (PAM), and vulnerability management and remediation. At the University of the Arts London (UAL), I protect an estate of over 8,000 users by engineering threat detections, leading incident response, and managing multi-layered security controls spanning endpoint, identity, email, and network perimeter. I bring a proactive engineering mindset and a strong track record of translating penetration test findings into remediated, measurable security improvements.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Falcon Prevent, EDR, Insight, Discover, NG-SIEM) - Expert
- **SIEM / SOAR:** Microsoft Sentinel (Kusto Query Language (KQL)), CrowdStrike NG-SIEM, alert triage, detection tuning, automated playbooks
- **Email Security Gateway:** Mimecast - policy management, anti-phishing, data loss prevention
- **MFA / SSO / Identity:** Microsoft Entra ID / Azure Active Directory (Azure AD), Conditional Access, Group Policy
- **MDM / MAM:** Microsoft Intune - device compliance, application security policies
- **Privileged Access Management (PAM):** BeyondTrust
- **Vulnerability Management:** Tenable.io, Nessus, Pentra Breach and Attack Simulation (BAS), AppCheck - scanning, prioritisation, and remediation tracking
- **Firewall / Perimeter:** Check Point Harmony, Web Application Firewall (WAF), Distributed Denial of Service (DDoS) mitigation, Intrusion Detection System (IDS) / Intrusion Prevention System (IPS)
- **Microsoft Security:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Endpoint Security:** Tanium, MDM/MAM configuration
- **Scripting and Automation:** PowerShell, SOAR playbook development
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework, threat hunting
- **Security Awareness:** Training programme design and delivery
- **Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Administer and optimise CrowdStrike Falcon across the UAL estate, managing EDR, Falcon Prevent, Insight, Discover, and NG-SIEM modules to maintain comprehensive endpoint threat visibility and detection coverage
- Manage SIEM and SOAR operations, tuning detection rules, triaging alerts, and developing automated response playbooks to accelerate mean time to respond and reduce analyst toil

- Lead vulnerability management programme using Tenable.io and Pentera BAS, prioritising and tracking remediation of penetration test findings across infrastructure and cloud environments
- Configure and maintain MFA and SSO controls via Microsoft Entra ID and Conditional Access policies, enforcing Zero Trust authentication across 8,000 user accounts
- Oversee MDM and MAM deployments through Microsoft Intune, enforcing device compliance policies and securing application access from managed and unmanaged endpoints
- Manage Mimecast email security gateway, tuning inbound and outbound policies to block phishing, malware, and data loss events; deliver phishing simulation campaigns
- Administer BeyondTrust PAM platform, controlling privileged account access across on-premises and cloud systems and enforcing least-privilege principles
- Maintain WAF, DDoS mitigations, IDS and IPS controls, and security certificate lifecycle, coordinating with network and infrastructure teams to protect perimeter integrity
- Lead security incident response under NIST 800-61, performing identification, containment, eradication, and post-incident review activities for complex security events
- Design and deliver security awareness training programmes to staff across all levels, reducing susceptibility to social engineering and phishing threats
- Remediate findings from external penetration testing engagements, tracking closure of critical and high vulnerabilities within agreed service level agreements (SLAs)

University of the Arts London (UAL) - Cyber Security and Identity

March 2022 - March 2025

Cyber Security Analyst

- Monitored and triaged security alerts from CrowdStrike Falcon and Microsoft Sentinel, leading investigations and coordinating incident response under NIST 800-61 procedures
- Managed Mimecast email security gateway configuration, quarantine policies, and end-user reporting workflows to reduce phishing exposure and email-borne threats
- Supported deployment and ongoing management of MFA, SSO, and Conditional Access policies in Microsoft Entra ID and Azure AD for the full 8,000-seat user base
- Conducted vulnerability scanning using Tenable.io, Nessus, and AppCheck; compiled risk-based remediation reports for IT infrastructure teams
- Assisted with BeyondTrust PAM administration and Microsoft Intune MDM and MAM configuration to enforce endpoint and identity security baselines
- Reviewed firewall rules, contributed to IDS and IPS tuning, and maintained security certificate records to support perimeter security operations
- Contributed to security awareness initiatives, creating targeted training content aligned with observed threat trends

HICX Solutions Ltd (SaaS / FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Implemented and maintained endpoint protection, vulnerability scanning, and access management controls across SaaS and on-premises infrastructure
- Configured Azure AD, deployed MFA, and managed Group Policy across hybrid cloud and on-premises environments to secure user access and device compliance
- Conducted security quality assurance reviews and contributed to IT risk documentation, policy development, and audit support activities
- Supported email security gateway and MDM configuration, providing secure communication and device management foundations for a fast-growth FinTech environment

KEY ACHIEVEMENTS

- Led enterprise-wide CrowdStrike Falcon deployment across an 8,000-user UAL estate, consolidating EDR, SIEM, and threat intelligence capabilities into a single unified platform
- Reduced alert-to-response time by over 50% through the implementation of automated SOAR playbooks integrated with Mimecast, Microsoft Defender, and Entra ID
- Achieved zero successful phishing-based account compromises over a 12-month period by combining enforced MFA, email gateway hardening, and targeted security awareness training

- Managed end-to-end remediation of all critical and high findings from external penetration tests within agreed SLA windows, demonstrating a systematic vulnerability management process
- Rolled out Microsoft Intune MDM and MAM for over 8,000 users, replacing legacy endpoint management and eliminating non-compliant device access to corporate resources

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
