

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon EDR | SIEM/SOAR | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) certified Senior Cyber Security Engineer with over five years of hands-on experience securing large enterprise environments. I have expert-level proficiency with CrowdStrike Falcon, including Falcon Prevent, Insight, Discover, and CrowdStrike Next-Generation Security Information and Event Management (NG-SIEM), and I have strong experience managing web and email security gateways including Mimecast. I administer Microsoft Entra ID (Azure Active Directory), Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO) at scale, and I manage Privileged Access Management (PAM) solutions including BeyondTrust. I have a consistent track record in vulnerability scanning and remediation using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), and in managing Mobile Device Management (MDM) and Mobile Application Management (MAM) through Microsoft Intune. I have extensive experience across Security Orchestration, Automation and Response (SOAR), Security Information and Event Management (SIEM) alert triage, incident response aligned to the National Institute of Standards and Technology (NIST) 800-61 framework, Intrusion Detection and Prevention (IDS/IPS), security certificate management, penetration test finding remediation, and security awareness training delivery. I am seeking a hybrid Senior Cyber Security Engineer opportunity in London where I can contribute as a strong individual within a focused security team.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, Insight, Discover, NG-SIEM) at expert level across 8,000+ user estate
- **SIEM/SOAR/EDR:** CrowdStrike NG-SIEM, Microsoft Sentinel with Kusto Query Language (KQL), detection rule authoring, alert triage, SOAR playbook automation
- **Email and Web Security Gateways:** Mimecast (email filtering, sandboxing, anti-phishing, DKIM/DMARC, business continuity)
- **Identity and Access Management (IAM) / MFA/SSO:** Microsoft Entra ID / Azure Active Directory, Conditional Access, MFA enforcement, SSO integration, Group Policy
- **Privileged Access Management (PAM):** BeyondTrust (credential vaulting, session recording, just-in-time access, privileged account governance)
- **MDM/MAM:** Microsoft Intune (corporate and BYOD device compliance, application management, Conditional Access integration)
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera BAS, Nessus, scan scheduling, remediation tracking, stakeholder reporting
- **Firewall and Network Security:** Check Point Harmony Endpoint, IDS/IPS tuning, Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) mitigation, firewall rule management, VPN
- **Endpoint and Cloud Security:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender (M365 Defender), Tanium
- **Scripting and Automation:** PowerShell (SOAR automation, reporting, remediation scripts)
- **Frameworks and Standards:** NIST 800-61, MITRE Adversarial Tactics, Techniques, and Common Knowledge (ATT&CK) framework, Cyber Essentials Plus, ISO 27001, CIS Controls, NIST Cybersecurity Framework (CSF)

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)
Senior Cyber Security Analyst / Engineer

March 2025 - Present

- Lead security operations across an estate of over 8,000 users, administering CrowdStrike Falcon EDR (Prevent, Insight, Discover, NG-SIEM) as the primary endpoint detection and response and SIEM/SOAR platform.

- Manage and tune Mimecast email security gateway, including web and email filtering policies, anti-phishing controls, sandboxing, and business email continuity services, reducing email-borne threat exposure across the organisation.
- Administer Microsoft Entra ID (Azure Active Directory) including Conditional Access policy management, MFA rollout, SSO configuration, Group Policy management, and privileged identity governance.
- Operate BeyondTrust PAM to control and audit all privileged access, enforcing least-privilege principles, just-in-time access, credential vaulting, and session recording.
- Manage Microsoft Intune MDM/MAM policies for corporate and BYOD endpoints, enforcing device compliance baselines and application management controls integrated with Conditional Access.
- Lead vulnerability management programme using Tenable.io, AppCheck, and Pentera BAS, scheduling scans, coordinating remediation with infrastructure and desktop teams, and tracking resolution within agreed SLAs.
- Maintain Check Point Harmony Endpoint firewall rules and manage IDS/IPS, reviewing event logs and tuning detection rules to reduce false positives and improve alert fidelity.
- Manage security certificate lifecycle including SSL/TLS certificates, ensuring timely renewal and minimising exposure from expired or misconfigured certificates.
- Develop PowerShell automation scripts and SOAR playbooks to accelerate incident response and reduce manual triage workload for common alert types.
- Coordinate remediation of penetration testing findings, tracking identified vulnerabilities to closure and reporting progress to the IT Security Officer and senior management.
- Plan and deliver security awareness training and phishing simulation campaigns, reporting engagement metrics and risk indicators to stakeholders.
- Support Cyber Essentials Plus recertification and ISO 27001 compliance activities, including evidence collection, gap analysis, and control documentation.

University of the Arts, London (UAL)

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Administered CrowdStrike Falcon (Prevent, Insight, Discover) across the full university estate, managing sensor deployment, group policies, alert triage, and response actions.
- Deployed and managed Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and M365 Defender across an 8,000-user environment, configuring detection policies and incident response workflows.
- Operated Microsoft Sentinel as the primary SIEM platform, authoring KQL queries for custom detection rules, threat hunting, workbooks, and management dashboards.
- Administered Microsoft Entra ID (Azure Active Directory), managing user and group lifecycle, Conditional Access policies, MFA rollout, and SSO for third-party application integrations.
- Maintained BeyondTrust PAM platform, including privileged session recording, credential vaulting, access reviews, and reporting to meet audit and compliance requirements.
- Operated Mimecast for email gateway security, managing anti-phishing detection policies, DKIM/DMARC alignment, blocked sender lists, and continuity service testing.
- Managed Microsoft Intune MDM/MAM policies for corporate and BYOD device compliance, including application management, compliance baselines, and Conditional Access integration.
- Conducted regular vulnerability assessments using Tenable.io and Nessus, producing risk-prioritised reports for infrastructure teams and tracking remediation to closure.
- Responded to security incidents using the NIST 800-61 incident response lifecycle, producing post-incident reports and contributing to playbook development and improvement.
- Planned and delivered security awareness training, coordinating annual phishing simulation campaigns and tracking staff engagement metrics.

HICX Solutions Ltd (SaaS/FinTech)

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Managed endpoint security controls, antivirus, and MDM/MAM configuration across a SaaS/FinTech cloud environment, ensuring compliance with client security requirements.

- Implemented and administered MFA and IAM controls, managing access reviews and identity governance processes to support security and compliance objectives.
- Conducted internal vulnerability assessments and coordinated remediation activities with development and infrastructure teams, prioritising findings by severity and business risk.
- Administered firewall rules, VPN configuration, and network security policies, supporting IDS/IPS log monitoring and incident escalation.
- Managed cloud security posture in Microsoft Azure, including role-based access control (RBAC), log management, and security monitoring configuration.
- Managed SSL/TLS security certificate lifecycle, ensuring timely renewal and correct deployment across production and development environments.
- Supported ISO 27001 and SOC 2 compliance activities, including evidence gathering, documentation, and remediation of identified control gaps.
- Delivered security awareness training to staff, reinforcing good security practices around phishing, password hygiene, and data handling.

KEY ACHIEVEMENTS

- Expert administration of CrowdStrike Falcon NG-SIEM and EDR across an 8,000+ user estate at UAL, achieving comprehensive endpoint visibility and improving threat detection and response capability.
- Led deployment and ongoing management of Microsoft Defender for Endpoint (MDE) across 8,000 endpoints, integrating with CrowdStrike NG-SIEM and Microsoft Sentinel for unified SIEM/SOAR alerting and incident response.
- Designed and implemented BeyondTrust PAM solution, establishing privileged access management and session recording for all administrative accounts, directly reducing privileged access risk.
- Drove vulnerability management programme using Tenable.io, AppCheck, and Pentera BAS, consistently achieving high rates of critical and high vulnerability remediation within agreed SLAs.
- Automated routine SOAR tasks using PowerShell scripting, significantly reducing analyst triage time for common alert patterns and accelerating containment actions across the SOC workflow.
- Supported UAL's Cyber Essentials Plus recertification and ISO 27001 compliance, coordinating evidence gathering and stakeholder reporting to meet audit deadlines.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
