

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike | SIEM/SOAR | EDR | Incident Response | MFA/SSO |
MDM/MAM

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of experience managing enterprise security operations, spanning Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), Endpoint Detection and Response (EDR), firewall and security gateway management, and incident response. I have deep, hands-on expertise with CrowdStrike Falcon across EDR, Next Generation SIEM (NG-SIEM), Prevent, Insight and Discover modules, and I have led enterprise-wide deployments of Microsoft Defender for Endpoint (MDE), encompassing Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune. I have implemented and enforced Multifactor Authentication (MFA) and Single Sign-On (SSO) policies at scale via Microsoft Entra ID, managed privileged access via BeyondTrust Privileged Access Management (PAM), and delivered sustained vulnerability scan and remediation programmes. I am now seeking a senior security engineering position within a focused financial services team where I can apply my technical depth to protect critical infrastructure and drive security maturity.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR and SIEM/SOAR:** CrowdStrike Falcon (EDR, NG-SIEM, Prevent, Insight, Discover), Microsoft Sentinel (KQL), Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Firewall and Security Gateways:** Check Point Harmony firewall, perimeter security policy management, WAF concepts, firewall rule review and optimisation
- **Identity, MFA and SSO:** Microsoft Entra ID (formerly Azure Active Directory), Conditional Access, MFA, SSO, Privileged Identity Management (PIM)
- **MDM/MAM and Endpoint Management:** Microsoft Intune (MDM and MAM), Tanium, endpoint compliance policy design and enforcement
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS)
- **Incident Response:** NIST SP 800-61 Incident Response framework, MITRE ATT&CK framework, threat hunting, digital forensics support
- **PAM and Email Security:** BeyondTrust PAM, Mimecast email security gateway
- **Scripting and Automation:** PowerShell scripting, SOAR playbook development
- **Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Manage and optimise the CrowdStrike Falcon platform organisation-wide, encompassing EDR, NG-SIEM, Prevent, Insight and Discover modules, ensuring real-time endpoint visibility and threat containment across the estate
- Design, deploy and continuously tune SIEM and SOAR detection logic in Microsoft Sentinel using Kusto Query Language (KQL), reducing alert volumes, false positive rates and mean time to respond
- Administer Check Point Harmony firewall and security gateway policies, aligning perimeter controls with organisational risk appetite and ensuring consistent enforcement of access controls
- Lead the enterprise deployment of Microsoft Defender for Endpoint (MDE) across 8,000 users, integrating MDM and MAM via Microsoft Intune to enforce device compliance and application management policies
- Implement and enforce MFA and SSO policies via Microsoft Entra ID and Conditional Access, significantly reducing the risk of credential-based attacks and unauthorised access

- Manage the DDoS mitigation posture and WAF configuration in collaboration with infrastructure and network teams, ensuring availability and protection of externally facing services
- Lead vulnerability scan programmes using Tenable.io, AppCheck and Pentera BAS, tracking findings from identification through to remediation closure within agreed service level agreements
- Deliver end-to-end incident response activities following the NIST SP 800-61 framework, coordinating containment, eradication and recovery, and mapping adversary techniques to the MITRE ATT&CK framework
- Manage BeyondTrust PAM platform, governing privileged credential access, session recording and just-in-time access for administrative accounts across the enterprise
- Administer Mimecast email security gateway and Tanium endpoint management platform, ensuring policy compliance and threat visibility
- Automate security workflows, incident triage and reporting using PowerShell scripting and SOAR playbook development, reducing manual analyst workload

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Conducted security alert triage and continuous monitoring across the SIEM platform, investigating and escalating confirmed incidents in line with documented escalation procedures
- Performed threat hunting exercises and endpoint anomaly investigation using CrowdStrike Falcon EDR, identifying indicators of compromise and supporting containment activities
- Supported administration of Microsoft Entra ID (Azure Active Directory), including Conditional Access policy reviews, MFA enforcement and user access governance
- Contributed to vulnerability assessment activities, tracking remediation progress and producing management-level reporting on risk exposure
- Supported end-to-end incident response lifecycle, including post-incident lessons learnt reviews and documentation of security procedures
- Contributed to the successful delivery of Cyber Essentials Plus certification for the organisation, demonstrating compliance with baseline security controls
- Administered MDM policies via Microsoft Intune, ensuring endpoint compliance for institutional and bring-your-own devices

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Supported security engineering activities across a Software as a Service (SaaS) and FinTech environment, including endpoint security tooling deployment, management and integration
- Conducted infrastructure security assessments and implemented improvements to access controls, endpoint protection and security monitoring capabilities
- Assisted in quality assurance for security controls, documented security procedures and configurations, and supported audit and compliance activities
- Collaborated with development and infrastructure teams to embed security best practices throughout the software development and infrastructure lifecycle

KEY ACHIEVEMENTS

- Led enterprise-wide deployment of Microsoft Defender for Endpoint (MDE) across 8,000 users at University of the Arts London, delivering full endpoint visibility and measurable reduction in threat dwell time
- Built and tuned CrowdStrike Falcon NG-SIEM detection rules, significantly reducing false positive alert volumes and improving analyst efficiency across the Security Operations function
- Designed and implemented automated incident triage and response workflows using PowerShell and SOAR playbooks, cutting mean time to respond and reducing manual analyst burden
- Delivered sustained vulnerability management programme using Pentera BAS, Tenable.io and AppCheck, achieving consistent remediation of critical and high findings within agreed service level timeframes
- Implemented enterprise MFA and SSO via Microsoft Entra ID and Conditional Access across 8,000+ users, materially reducing credential-based attack exposure

- Contributed to successful Cyber Essentials Plus certification, demonstrating organisational compliance with NCSC (National Cyber Security Centre) baseline security standards

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
