

PROSPER AWUNI

Senior Cyber Security Engineer | Security Information and Event Management (SIEM) | CrowdStrike EDR | Asset Management Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer and Certified Information Systems Security Professional (CISSP) with over five years of experience implementing and managing enterprise security technology in complex, regulated environments. I specialise in Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR), Security Orchestration, Automation and Response (SOAR), and Identity and Access Management (IAM), with expert-level experience on CrowdStrike Falcon and Microsoft Sentinel. I have extensive experience protecting large user estates through hands-on management of WAF and DDoS controls, email security gateways, Privileged Access Management (PAM), vulnerability management, and incident response. I am experienced working within small, high-impact security teams reporting to a senior officer level and am comfortable taking end-to-end ownership of infrastructure security across hybrid and cloud environments. My background within a complex, regulated institution makes me well suited to the security demands of the asset management sector.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, NG-SIEM, Insight, Discover) - Expert
- **Security Information and Event Management (SIEM) / Security Orchestration, Automation and Response (SOAR):** Microsoft Sentinel (Kusto Query Language (KQL)), CrowdStrike NG-SIEM, SOAR playbook engineering and automation
- **Email Security Gateways:** Mimecast, Check Point Harmony
- **Identity and Access Management / Multi-Factor Authentication / Single Sign-On:** Microsoft Entra ID, Azure Active Directory, Conditional Access, MFA, SSO
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune, MDM/MAM policy management
- **Privileged Access Management (PAM):** BeyondTrust
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS)
- **Microsoft Defender Suite:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Endpoint Management:** Tanium, Microsoft Intune
- **WAF/DDoS, Intrusion Detection and Prevention Systems (IDS/IPS):** Network perimeter security controls, Check Point Harmony
- **PowerShell Scripting and Security Automation**
- **Frameworks:** NIST Cybersecurity Framework (CSF), NIST 800-61, MITRE ATT&CK, CIS Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL) - Senior Cyber Security Analyst / Engineer March 2025 - Present
Oversee the UAL London (UAL) enterprise estate of over 8,000 users, reporting directly to the security leadership team and providing regular posture reporting to senior stakeholders.

- Administer CrowdStrike Falcon EDR across the full endpoint estate, including configuration, policy management, alert triage, threat hunting, and reporting using Falcon Prevent, Insight, Discover, and NG-SIEM modules.
- Manage Microsoft Sentinel SIEM and SOAR, engineering KQL-based detection rules, tuning alert logic, and building automated playbooks to reduce mean time to detect and respond to security events.
- Operate Mimecast email security gateway, managing anti-phishing, anti-malware, and data loss prevention policies to protect inbound and outbound communications.

- Manage WAF and network security controls in conjunction with the infrastructure team, contributing to the organisation's layered defence posture.
- Administer BeyondTrust Privileged Access Management (PAM), enforcing least-privilege access and managing privileged session recording and account lifecycle across critical systems.
- Manage MFA and SSO provisioning through Microsoft Entra ID, Azure AD, and Conditional Access, ensuring strong authentication standards across all user populations.
- Oversee MDM/MAM policy management via Microsoft Intune across Windows, macOS, iOS, and Android endpoints, maintaining compliance and security baselines.
- Lead vulnerability management using Tenable.io, AppCheck, and Pentera BAS, including asset scanning, risk prioritisation, remediation tracking, and penetration test finding remediation.
- Lead incident response activities aligned to NIST 800-61, coordinating containment, eradication, and recovery, and producing detailed post-incident reports and root cause analyses.
- Deliver security awareness and phishing simulation programmes to strengthen organisational security culture.
- Produce board-level and operational reporting on security risks, control performance, and incident trends.

University of the Arts London (UAL) - Cyber Security Analyst, Cyber Security and Identity
 Managed security operations across SIEM, EDR, and security, and identity platforms, performing tier 2 and tier 3 alert triage, investigation, and escalation. *March 2022 - March 2025*

- Configured Microsoft Entra ID Conditional Access policies, MFA, and SSO integrations to enforce zero-trust identity controls across the estate.
- Maintained Microsoft Intune MDM/MAM policies, managing device enrolment, compliance baselines, and application controls.
- Conducted vulnerability assessments using Nessus and AppCheck, producing risk-prioritised reports and tracking remediation to closure.
- Supported incident response investigations through log analysis, forensic triage, and MITRE ATT&CK-aligned threat mapping.
- Contributed to the deployment and ongoing configuration of BeyondTrust PAM and Microsoft Defender suite tooling.
- Maintained and improved SIEM detection rules and SOAR playbooks, reducing false positive rates and improving detection fidelity.

HGX Solutions Ltd (SaaS/FinTech) - IT Engineer, Security, Quality and Infrastructure
 Implemented endpoint security and MDM across a cloud-based environment, enforcing security baselines and access policies for remote and office-based staff. *February 2021 - March 2022*

- Configured MFA and SSO solutions for SaaS application access, reducing credential-based attack surface in a FinTech context.
- Monitored security events and managed vulnerability remediation in alignment with contractual and compliance requirements in a regulated SaaS/FinTech environment.
- Maintained cloud and on-premises infrastructure supporting the business's security and availability requirements.

KEY ACHIEVEMENTS

- Expert-level deployment and management of CrowdStrike Falcon EDR across an 8,000-user estate, delivering full endpoint visibility and reducing incident dwell time.
- Designed and operationalised Microsoft Sentinel SIEM with custom KQL detection rules and SOAR automation, significantly improving security operations efficiency.
- Led a full Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) rollout, enhancing threat visibility across endpoints and identity infrastructure.
- Implemented BeyondTrust PAM across critical administrative systems, eliminating uncontrolled privileged access and achieving measurable risk reduction.
- Achieved and maintained Cyber Essentials Plus certification, demonstrating a mature and auditable security control framework.
- Ran Pentera Breach and Attack Simulation (BAS) exercises to continuously validate the effectiveness of detection and prevention controls.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
