

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike | SIEM/SOAR | Identity Security | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a hands-on Senior Cyber Security Engineer with over 5 years of experience implementing and managing enterprise security technologies within complex environments. My expertise centres on CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, and a wide range of complementary security controls including Web Application Firewall (WAF)/Distributed Denial of Service (DDoS) protection, Intrusion Detection and Prevention Systems (IDS/IPS), email security gateways, and Privileged Access Management (PAM). I bring strong experience administering identity security services including Multi-Factor Authentication (MFA), Single Sign-On (SSO), Microsoft Entra ID (formerly Azure Active Directory), and Group Policy, alongside Mobile Device Management (MDM) and Mobile Application Management (MAM) solutions such as Microsoft Intune. I am experienced in conducting vulnerability scanning and remediation programmes, remediating penetration test findings, and delivering security awareness training. I hold the Certified Information Systems Security Professional (CISSP) certification and thrive in small, focused security teams where breadth of knowledge and practical delivery are valued.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, EDR, Insight, Discover, NG-SIEM)
- **SIEM / SOAR:** CrowdStrike NG-SIEM, Microsoft Sentinel (KQL), Splunk/SPL; alert triage, detection engineering, playbook automation
- **Email Security:** Mimecast (gateway management, URL protection, impersonation controls, DLP)
- **Identity and Access Management (IAM):** Microsoft Entra ID / Azure Active Directory (AD), Conditional Access, MFA, SSO, Group Policy; Okta-equivalent identity governance
- **Privileged Access Management (PAM):** BeyondTrust PAM (privileged account lifecycle, session recording, least privilege enforcement)
- **Mobile Device Management / Mobile Application Management (MDM/MAM):** Microsoft Intune (device compliance, app protection policies)
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; remediation tracking and reporting
- **Network and Perimeter Security:** WAF/DDoS protection, IDS/IPS, Check Point Harmony firewall; firewall rule management and review
- **Endpoint Security:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender (M365D), Tanium
- **Scripting and Automation:** PowerShell scripting, SOAR automation workflows
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), NIST 800-61 Incident Response, MITRE ATT&CK, CIS Controls, ISO 27001, Cyber Essentials Plus
- **Certifications:** CISSP, CompTIA Security+, MCSA, CompTIA A+, Google IT Support Professional Certificate

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)
Senior Cyber Security Analyst / Engineer

March 2025 - Present

- Administer and optimise CrowdStrike Falcon across an enterprise estate of 8,000+ endpoints, managing Prevent, EDR, Insight, Discover, and NG-SIEM modules to ensure comprehensive endpoint visibility and rapid threat response.

- Manage Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, triaging and investigating security alerts and building automation playbooks to reduce mean time to respond (MTTR).
- Administer Mimecast email security gateway, configuring inbound and outbound policies, URL and attachment protection, impersonation controls, and Data Loss Prevention (DLP) rules.
- Maintain and configure Microsoft Entra ID (Azure Active Directory), Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO) integrations for over 8,000 users, eliminating account compromise risk.
- Manage BeyondTrust Privileged Access Management (PAM), governing privileged account lifecycle, enforcing least privilege, and maintaining session recording for audit and forensic purposes.
- Administer Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), maintaining device compliance policies, app protection controls, and endpoint configuration profiles.
- Design and execute vulnerability scanning programmes using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), triaging findings by risk severity and coordinating remediation across infrastructure and application teams.
- Manage Web Application Firewall (WAF), Distributed Denial of Service (DDoS) protection, Intrusion Detection System (IDS)/Intrusion Prevention System (IPS), and network firewall configurations (Check Point Harmony).
- Remediate penetration test findings, liaising with the IT Security Officer and business teams to track, prioritise, and close vulnerabilities within agreed Service Level Agreements (SLAs).
- Manage digital certificates and Public Key Infrastructure (PKI), ensuring timely renewal and compliance.
- Deliver security awareness training campaigns and phishing simulation exercises, improving user reporting rates and reducing click-through rates on simulated attacks.

University of the Arts, London (UAL)

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Triaged and responded to security alerts from CrowdStrike Falcon EDR and SIEM platforms, investigating threats and escalating confirmed incidents through the defined incident response process.
- Administered Microsoft Entra ID (Azure Active Directory), Group Policy, and Conditional Access for identity security governance across the university estate.
- Managed Mimecast email security gateway controls, reducing phishing, spam, and malicious attachment delivery.
- Supported the deployment and management of Microsoft Intune MDM/MAM, enforcing device compliance and mobile application policies.
- Conducted vulnerability assessments using Nessus and Tenable.io, producing risk-rated reports and supporting remediation efforts coordinated with infrastructure teams.
- Contributed to BeyondTrust PAM administration, managing privileged account requests and access reviews.
- Supported IDS/IPS monitoring and firewall rule review activities, identifying anomalous traffic patterns for investigation.
- Delivered security awareness campaigns and phishing simulation exercises, contributing to measurable improvements in user reporting behaviour.
- Assisted with remediation of penetration test findings and contributed to Cyber Essentials Plus certification programme.

HICX Solutions Ltd (SaaS/FinTech)

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Managed web application firewall (WAF), network firewall, and perimeter security controls for a cloud-hosted SaaS and FinTech environment, maintaining rule sets and reviewing firewall configurations.
- Deployed and maintained endpoint security tooling including EDR and antivirus solutions, ensuring 100% agent deployment and up-to-date protection.
- Administered identity and access management controls including MFA enforcement and SSO integration for internal and customer-facing systems.

- Conducted vulnerability assessments across the infrastructure estate, generating risk reports and coordinating remediation with development and infrastructure teams.
- Managed SIEM log ingestion and supported alert triage, contributing to security event investigation and incident response.
- Maintained digital security certificates and supported PKI lifecycle management.
- Delivered internal security awareness communications and supported compliance activities aligned to ISO 27001.

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon (Prevent, EDR, NG-SIEM) across an 8,000-user estate, achieving 100% endpoint visibility and materially reducing mean dwell time for threat detection.
- Built and maintained 40+ custom SIEM detection rules and SOAR automation playbooks, reducing false positive rates by over 30% and cutting manual analyst triage time significantly.
- Implemented Microsoft Entra ID Conditional Access and MFA across all 8,000 users, reducing account compromise incidents by over 60% year-on-year.
- Led remediation of 85+ high-risk vulnerabilities identified through Pentera Breach and Attack Simulation and Tenable.io scans, enabling successful Cyber Essentials Plus recertification.
- Deployed BeyondTrust PAM across 300+ privileged accounts, eliminating standing privileged access and significantly reducing insider threat exposure.
- Automated 15+ SOC workflows using PowerShell scripting and SOAR playbooks, reducing repetitive manual analyst effort by approximately 40%.
- Delivered security awareness training programme reaching all 8,000 staff, achieving measurable improvement in phishing reporting rates and reducing successful phishing simulation click-through rates.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)
- CompTIA A+
- Google IT Support Professional Certificate
