

PROSPER AWUNI

Senior Microsoft Security Consultant | Microsoft Defender XDR | Microsoft Sentinel | Entra ID | Intune
| Purview | Remote

United Kingdom (Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of deep, hands-on experience delivering Microsoft security, compliance, identity, and management solutions across enterprise environments. I have implemented and configured the full Microsoft security stack, including Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender, Microsoft Sentinel, Azure Active Directory (Azure AD) / Entra ID, Microsoft Intune, and Microsoft Purview, across hybrid and cloud-first organisations. At the University of the Arts London, I have led multiple security transformation projects, managing a Microsoft security estate of over 8,000 users from design through to implementation and ongoing optimisation. I thrive in client-facing and stakeholder-driven environments, managing multiple projects simultaneously and communicating technical outcomes clearly to both technical and non-technical audiences. I am seeking a remote-first senior consulting role where I can leverage my Microsoft security expertise to deliver transformational security outcomes for clients across the UK and Ireland.

CORE SKILLS AND TECHNICAL STACK

- Microsoft Defender for Endpoint (MDE) - deployment, configuration, policy management, incident response
- Microsoft Defender for Identity (MDI) - configuration, alert investigation, identity threat detection
- Microsoft 365 Defender - unified XDR (Extended Detection and Response) platform management
- Microsoft Sentinel - Security Information and Event Management (SIEM) and Security Orchestration Automation and Response (SOAR): Kusto Query Language (KQL), analytic rules, automation playbooks
- Azure Active Directory (Azure AD) / Entra ID - Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Privileged Identity Management (PIM), identity governance
- Microsoft Intune - Mobile Device Management (MDM) and Mobile Application Management (MAM), compliance policies, configuration profiles
- Microsoft Purview - compliance, data governance, information protection
- Azure Defender for Cloud / Microsoft Defender for Cloud - cloud workload protection
- CrowdStrike Falcon EDR (Expert) - complementary EDR expertise
- BeyondTrust Privileged Access Management (PAM)
- Vulnerability Management: Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS)
- PowerShell scripting and automation
- Frameworks: NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+, MITRE ATT&CK
- Certifications: CISSP (highly relevant per job description)

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Lead the implementation, configuration, and ongoing optimisation of the full Microsoft security stack across a hybrid cloud estate of 8,000+ users, including Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender, Microsoft Sentinel, Entra ID / Azure AD, and Microsoft Intune.
- Design and implement Microsoft Entra ID / Azure Active Directory (Azure AD) Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO), hardening identity and access security for the entire organisation.

- Build and tune Microsoft Sentinel Security Information and Event Management (SIEM) detection rules, analytics, and Security Orchestration Automation and Response (SOAR) playbooks using Kusto Query Language (KQL), improving threat detection fidelity and reducing mean time to respond (MTTR).
- Configure and manage Microsoft Defender for Endpoint (MDE), deploying policies across endpoints and servers, responding to advanced threats, and driving continuous improvement of the endpoint protection posture.
- Administer Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM), designing and deploying compliance policies and configuration profiles.
- Manage BeyondTrust Privileged Access Management (PAM) in conjunction with Microsoft Entra ID Privileged Identity Management (PIM) to enforce least-privilege access principles.
- Lead incident response and investigation using Microsoft Defender XDR, correlating signals across endpoint, identity, email, and cloud to drive rapid containment and remediation.
- Conduct vulnerability management using Tenable.io, AppCheck, and Pentra Breach and Attack Simulation (BAS), integrating findings with the Microsoft security posture management workflow.
- Collaborate with infrastructure, IT, and senior stakeholders to deliver security transformation projects on time, managing multiple concurrent workstreams effectively.
- Develop PowerShell automation scripts and Microsoft Sentinel playbooks to automate security operations workflows and reduce manual effort.

University of the Arts London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Delivered hands-on implementation and management of Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft Sentinel across the organisation, configuring policies, detection rules, and incident response workflows.
- Administered Entra ID / Azure Active Directory (Azure AD), Conditional Access, MFA, and SSO, supporting identity transformation projects and enforcing security governance across the estate.
- Built and maintained Microsoft Sentinel SIEM analytics using Kusto Query Language (KQL), creating custom detection rules to identify threats aligned to the MITRE ATT&CK framework.
- Managed Microsoft Intune MDM and MAM deployments, designing compliance and configuration policies for the endpoint and application fleet.
- Supported the deployment and configuration of Microsoft Purview for data classification and compliance policies.
- Contributed to security transformation projects, liaising with stakeholders across IT, infrastructure, and senior management to deliver outcomes on time and within scope.
- Developed SOAR automation playbooks in Microsoft Sentinel, automating alert enrichment, triage, and remediation workflows.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Administered Microsoft Azure Active Directory (Azure AD) identity and access management, configuring MFA, Conditional Access, and user lifecycle management for the organisation.
- Managed endpoint security using Microsoft Defender-aligned tools, supporting configuration, alerting, and incident response across the SaaS environment.
- Collaborated with development and infrastructure teams to embed Microsoft security best practices into cloud service configurations and onboarding processes.
- Contributed to ISO 27001 and Cyber Essentials+ compliance activities, maintaining security documentation and supporting internal audits.
- Supported the delivery of security awareness training and policy communications across the workforce.

KEY ACHIEVEMENTS

- Led the enterprise deployment of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across 8,000 users at UAL, delivering a fully operational Microsoft 365 Defender Extended Detection and Response (XDR) platform.

- Built and maintained Microsoft Sentinel SIEM with over 50 custom Kusto Query Language (KQL) detection rules mapped to MITRE ATT&CK, significantly improving threat detection coverage.
- Designed and deployed Microsoft Entra ID Conditional Access policies and Multi-Factor Authentication (MFA) for 8,000 users, achieving near-universal MFA adoption and materially reducing identity-based attack risk.
- Implemented SOAR automation playbooks in Microsoft Sentinel, reducing mean time to respond (MTTR) for common alert types by automating triage and initial response actions.
- Deployed BeyondTrust Privileged Access Management (PAM) integrated with Entra ID, achieving full governance over privileged accounts and sessions across the organisation.
- Delivered CrowdStrike Falcon EDR and NG-SIEM enterprise-wide, complementing the Microsoft security stack with a best-in-class endpoint detection capability.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
