

PROSPER AWUNI

Senior Cyber Security Engineer | Cloud and Hybrid Infrastructure Security | Azure | Prevent and Protect

United Kingdom (Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of experience strengthening security across hybrid infrastructure and Microsoft Azure environments. I specialise in the prevent and protect pillar of security, implementing and optimising security controls across cloud, endpoint, and identity platforms to improve an organisation's overall security posture. At the University of the Arts London, I lead security engineering across a hybrid estate of 8,000+ users, working closely with the cyber leadership team and infrastructure teams to ensure security is embedded into platforms, projects, and cloud services. I am seeking a fully remote senior role where I can apply my broad technical expertise to drive meaningful, measurable security improvements at scale.

CORE SKILLS AND TECHNICAL STACK

- Hybrid infrastructure and Microsoft Azure security engineering
- Preventative and protective security control design and implementation
- Microsoft Azure Active Directory (Azure AD) / Entra ID / Conditional Access / Multi-Factor Authentication (MFA) / Single Sign-On (SSO)
- Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- CrowdStrike Falcon: Endpoint Detection and Response (EDR), Prevent, Insight, Discover, Next-Generation Security Information and Event Management (NG-SIEM)
- Microsoft Sentinel and Kusto Query Language (KQL) for detection and monitoring
- Security Orchestration, Automation and Response (SOAR) and PowerShell automation scripting
- Vulnerability Management: Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS)
- BeyondTrust Privileged Access Management (PAM)
- Microsoft Intune / Mobile Device Management (MDM) / Mobile Application Management (MAM)
- Check Point Harmony firewall, Mimecast email security, Tanium endpoint management
- Frameworks: NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials+, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Lead cyber security engineering across a hybrid infrastructure and Microsoft Azure environment serving 8,000+ users, driving the prevent and protect strategy across cloud, endpoint, and identity platforms.
- Embed security controls into platforms, projects, and cloud services by collaborating closely with the cyber leadership team and infrastructure teams throughout project delivery lifecycles.
- Configure and optimise Microsoft Entra ID / Azure Active Directory (Azure AD) Conditional Access policies, Multi-Factor Authentication (MFA), and Single Sign-On (SSO) to enforce identity security and reduce attack surface across the estate.
- Deploy and maintain CrowdStrike Falcon Endpoint Detection and Response (EDR) and Falcon Prevent across all endpoints, tuning prevention policies to strengthen the organisation's protective security posture.
- Administer Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender, configuring alerting, policies, and automated response actions to improve detection and prevention.
- Manage BeyondTrust Privileged Access Management (PAM) to protect privileged accounts and enforce least-privilege principles across the hybrid estate.

- Conduct vulnerability management using Tenable.io, AppCheck, and Pentera BAS, prioritising and coordinating remediation with infrastructure teams to reduce organisational risk.
- Administer Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM), ensuring device and application compliance across the organisation.
- Develop PowerShell automation scripts to reduce manual security workloads and improve operational efficiency across security platforms.
- Maintain Check Point Harmony firewall and Mimecast email security gateway, applying policy updates and responding to emerging threats.

University of the Arts London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Administered and improved security controls across the Microsoft Azure and hybrid infrastructure, supporting the rollout of Conditional Access, MFA enforcement, and identity governance for 8,000 users.
- Managed CrowdStrike Falcon EDR, responding to endpoint alerts, conducting threat investigations, and tuning Falcon Prevent policies to reduce false positives and improve prevention efficacy.
- Contributed to the deployment of Microsoft Defender M365 suite and Mimecast email security, improving preventative controls across the organisation.
- Supported BeyondTrust PAM deployment and operations, managing privileged account provisioning, session oversight, and periodic access reviews.
- Performed vulnerability assessments using Tenable.io and Nessus, partnering with infrastructure teams to prioritise and remediate findings in line with risk appetite.
- Managed Microsoft Intune MDM/MAM policies to enforce endpoint compliance across the fleet.
- Contributed to achieving and maintaining Cyber Essentials+ certification by implementing and evidencing required preventative controls.
- Developed and maintained security runbooks and Incident Response procedures aligned to NIST 800-61 and MITRE ATT&CK frameworks.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Supported the design and maintenance of security controls across a SaaS cloud infrastructure, ensuring alignment with ISO 27001 and Cyber Essentials+ standards.
- Administered Azure Active Directory (Azure AD) identity and access management, configuring MFA policies and managing user access provisioning and deprovisioning.
- Maintained network and endpoint security tools, assisting with vulnerability assessments, patch management, and security baseline compliance.
- Collaborated with development and infrastructure teams to embed security requirements into the software delivery lifecycle and cloud service configurations.
- Contributed to security awareness initiatives and internal policy documentation to promote a security-first culture.

KEY ACHIEVEMENTS

- Led the enterprise-wide deployment of CrowdStrike Falcon EDR and NG-SIEM across 8,000+ users at UAL, delivering a significantly improved preventative and detective security capability.
- Drove the rollout of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) at UAL, embedding protective security controls across the entire Microsoft 365 estate.
- Implemented BeyondTrust Privileged Access Management (PAM), reducing privileged access risk and achieving measurable improvements in access governance.
- Delivered Security Orchestration, Automation and Response (SOAR) automation workflows that reduced mean time to detect (MTTD) and mean time to respond (MTTR) to security incidents.
- Contributed to sustained Cyber Essentials+ certification, demonstrating robust preventative and protective security controls across the hybrid infrastructure.
- Built a vulnerability management programme using Tenable.io, AppCheck, and Pentera BAS, reducing the organisation's exploitable attack surface.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
