

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM/SOAR/EDR | CrowdStrike | IAM | PAM | Vulnerability Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of progressive experience in enterprise security operations within complex, regulated environments. I hold the Certified Information Systems Security Professional (CISSP) certification and specialise in Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), Endpoint Detection and Response (EDR), and Identity and Access Management (IAM). I am an expert user of CrowdStrike Falcon (Next-Generation SIEM (NG-SIEM), EDR, Prevent, Insight, and Discover) and have extensive experience managing email and web security gateways, Privileged Access Management (PAM), vulnerability scanning and remediation, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM), Mobile Application Management (MAM), and Intrusion Detection System (IDS) and Intrusion Prevention System (IPS) tooling. I have a strong track record of driving measurable risk reduction through structured vulnerability remediation, SIEM alert tuning, PAM governance, and security awareness programmes in high-complexity enterprise environments, and I am well-suited to a senior-level role within an asset management or financial services security team.

CORE SKILLS AND TECHNICAL STACK

- **SIEM / SOAR / EDR:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover), Microsoft Sentinel + Kusto Query Language (KQL), Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Splunk
- **Email and Web Gateway Security:** Mimecast, web and email filtering, anti-phishing and anti-malware policies
- **Identity and Access Management (IAM):** Microsoft Entra ID (formerly Azure Active Directory (AD)), Conditional Access, MFA, SSO, Group Policy administration
- **Mobile Device and Application Management:** Microsoft Intune (MDM/MAM)
- **Privileged Access Management (PAM):** BeyondTrust; privileged credential vaulting, session recording, and least-privilege enforcement
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; vulnerability scanning, risk prioritisation, and remediation lifecycle management
- **Firewall and Network Security:** Check Point Harmony, IDS/IPS, firewall rule management, VPN, network segmentation
- **Incident Response:** NIST 800-61, MITRE ATT&CK, incident triage to resolution
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), Centre for Internet Security (CIS) Controls, ISO 27001, Cyber Essentials+
- **Scripting and Automation:** PowerShell, KQL-based SOAR playbooks
- **Certifications:** CISSP, CompTIA Security+, Microsoft Certified Solutions Associate (MCSA), CompTIA A+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Lead end-to-end SIEM/SOAR/EDR security operations for an enterprise of 8,000+ users, managing alert triage, investigation, and incident response in line with NIST 800-61 and the MITRE ATT&CK framework.
- Own the CrowdStrike Falcon platform strategy and operations (NG-SIEM, EDR, Prevent, Insight, Discover), including sensor governance, detection policy management, threat hunting, and proactive alert investigation across all endpoints.

- Administer Mimecast email security gateway, managing anti-phishing, anti-spam, anti-malware, and impersonation protection policies; investigate and respond to email-borne threats.
- Govern Microsoft Entra ID (formerly Azure Active Directory), Conditional Access, MFA, and SSO controls for all 8,000 users; enforce Zero Trust access policies and conduct regular access reviews.
- Manage Microsoft Intune (MDM/MAM) for enterprise-wide endpoint compliance, application management, and conditional device access enforcement.
- Operate BeyondTrust Privileged Access Management (PAM) solution; manage privileged credential vaulting, session recording, least-privilege access governance, and audit trail reporting.
- Execute vulnerability management lifecycle (Tenable.io, Pentera BAS, AppCheck, Nessus): conducting scans, prioritising findings by risk, managing remediation with infrastructure teams, and tracking closure of critical and high vulnerabilities.
- Manage penetration testing engagements and lead structured remediation tracking, reporting risk reduction metrics to senior leadership.
- Maintain IDS/IPS configurations and Check Point Harmony firewall rules, supporting network segmentation and reducing lateral movement risk.
- Deliver targeted security awareness training and phishing simulation campaigns, reporting measurable improvements in staff security behaviour.
- Maintain security certificate and PKI lifecycle management across enterprise web services and internal systems.
- Drive continuous improvement of SOAR automation and SIEM detection engineering to reduce false-positive rates and improve MTTD and MTTR.

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Performed day-to-day SIEM/EDR alert monitoring, triage, and incident response, managing the investigation lifecycle from detection through containment and recovery.
- Administered CrowdStrike Falcon EDR platform: sensor deployment, policy configuration, threat investigation, and escalation to senior engineers.
- Managed Mimecast email security policies and investigated phishing, Business Email Compromise (BEC), and malware delivery attempts.
- Administered Microsoft Entra ID/Azure AD, Group Policy, and user access controls for the enterprise population.
- Performed vulnerability scanning using Tenable.io and Nessus; produced detailed remediation reports for infrastructure and application teams.
- Supported Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) platform operations, alert investigation, and tuning.
- Contributed to Microsoft Sentinel KQL detection rule development and threat-hunting query writing.
- Managed Microsoft Intune compliance policies, device enrolment, and mobile application management.
- Supported PAM operations, privileged account reviews, and joiners/movers/leavers access processes.
- Delivered phishing simulation campaigns and security awareness training, tracking improvement metrics.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Administered endpoint security, MDM/MAM, and user access controls in a SaaS and FinTech environment subject to financial data security requirements.
- Managed Active Directory, Group Policy, and user provisioning; supported firewall and VPN administration.
- Supported vulnerability assessment, patch management, and security certificate management.
- Assisted with ISO 27001 compliance activities, risk assessments, and audit preparation.
- Delivered IT security support and security awareness training across the organisation.

KEY ACHIEVEMENTS

- Deployed and managed CrowdStrike Falcon across 8,000 endpoints at UAL, achieving full endpoint visibility and a significant reduction in MTTD and MTTR.

- Implemented Microsoft Entra ID Conditional Access and MFA rollout for 8,000 users, significantly reducing identity-related security incidents through Zero Trust enforcement.
- Led BeyondTrust PAM implementation, eliminating uncontrolled privileged account usage and delivering comprehensive privileged session audit capability.
- Reduced critical and high vulnerability exposure by over 60% through a structured remediation programme driven by Tenable.io and Pentera BAS findings.
- Drove measurable reduction in phishing susceptibility through sustained security awareness and simulated phishing programmes.
- Supported Cyber Essentials+ certification attainment for UAL, demonstrating compliance with UK government security baseline controls.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
