

PROSPER AWUNI

Cyber Security Engineer | CrowdStrike EDR | SIEM/SOAR | Vulnerability Management | IAM | PAM

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with more than five years of hands-on experience implementing and operating enterprise security platforms across large organisations. I bring expert-level proficiency in CrowdStrike Falcon Endpoint Detection and Response (EDR), strong experience managing Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, and a proven record of leading alert triage, incident response and vulnerability remediation. At the University of the Arts London (UAL) I manage security operations for a community of more than 8,000 users, overseeing email gateway security via Mimecast, Identity and Access Management (IAM) via Microsoft Entra ID, Privileged Access Management (PAM) via BeyondTrust, Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, and vulnerability management via Tenable.io and Pentera Breach and Attack Simulation (BAS). I am comfortable working as a senior member of a small, focused IT Security team, taking end-to-end ownership of the tooling stack including Web Application Firewall (WAF), Intrusion Detection and Prevention System (IDS/IPS), firewall management, Multi-Factor Authentication (MFA), Single Sign-On (SSO), and penetration testing remediation.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (NG-SIEM, Prevent, Insight, Discover) - Expert
- **SIEM and SOAR:** Microsoft Sentinel (KQL), CrowdStrike NG-SIEM, Splunk (SPL)
- **Email Gateway Security:** Mimecast (anti-phishing, anti-spam, Data Loss Prevention (DLP))
- **Identity and Access Management (IAM):** Microsoft Entra ID, Azure Active Directory (Azure AD), Conditional Access, MFA, SSO
- **Privileged Access Management (PAM):** BeyondTrust
- **Mobile Device Management (MDM) and Mobile Application Management (MAM):** Microsoft Intune
- **Vulnerability Management:** Tenable.io, Pentera BAS, Nessus, AppCheck
- **Firewall and Network Security:** Check Point Harmony, IDS/IPS, WAF/DDoS management
- **Endpoint Protection:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework, threat hunting
- **Scripting and Automation:** PowerShell, SOAR playbooks
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Security Awareness Training:** KnowBe4-style delivery, phishing simulation management

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) - Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Lead all CrowdStrike Falcon platform engineering, managing Endpoint Detection and Response (EDR) policies, prevention rules and detections across 8,000+ endpoints, ensuring near-full coverage and minimal dwell time.
- Manage the Security Information and Event Management (SIEM) environment in Microsoft Sentinel, authoring Kusto Query Language (KQL) detection rules, alert tuning and Security Orchestration, Automation and Response (SOAR) playbooks to automate triage and reduce alert fatigue.
- Administer the Mimecast email security gateway, configuring anti-phishing, anti-spam, sandboxing and Data Loss Prevention (DLP) policies, and remediating email-borne threats.

- Manage Identity and Access Management (IAM) via Microsoft Entra ID and Azure Active Directory (Azure AD), including Conditional Access policy design, Multi-Factor Authentication (MFA) rollout and Single Sign-On (SSO) configuration.
- Operate the BeyondTrust Privileged Access Management (PAM) platform, enforcing least-privilege access controls across all administrative accounts.
- Lead vulnerability scanning and remediation programmes using Tenable.io and Pentera Breach and Attack Simulation (BAS), triaging critical and high findings and driving remediation timelines with asset owners.
- Manage Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, enforcing device compliance policies and application access controls.
- Respond to security alerts and incidents, performing full lifecycle Incident Response (IR) in accordance with NIST 800-61 and the MITRE ATT&CK framework, including containment, eradication and post-incident review.
- Remediate penetration testing findings, documenting risk acceptance decisions and tracking remediation through to closure.
- Deliver security awareness training and phishing simulation campaigns to staff across the organisation.
- Manage IDS/IPS monitoring and WAF/DDoS alerting, escalating anomalies through defined runbooks.

University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity *March 2022 - March 2025*

- Performed day-to-day Security Information and Event Management (SIEM) alert triage and incident investigation across Microsoft Sentinel and CrowdStrike Falcon platforms.
- Configured and tuned the Mimecast email security gateway, reducing phishing click-through rates and improving sandbox detection coverage.
- Maintained CrowdStrike Falcon Endpoint Detection and Response (EDR) policies, conducted proactive threat hunting exercises and investigated suspicious endpoint activity.
- Supported Identity and Access Management (IAM) operations including Azure Active Directory (Azure AD) group management, Conditional Access policy configuration and MFA enrolment.
- Contributed to vulnerability management cycles using Tenable.io and Nessus, tracking remediation progress and preparing risk reporting for senior stakeholders.
- Managed Mobile Device Management (MDM) device enrolment and compliance policies via Microsoft Intune.
- Assisted with penetration test finding remediation and documented security procedures and runbooks.
- Contributed to security awareness training delivery and phishing simulation campaigns.

HICX Solutions Ltd (SaaS/FinTech) - IT Engineer: Security, Quality and Infrastructure *February 2021 - March 2022*

- Engineered and maintained security controls across a SaaS/FinTech infrastructure including firewall management, endpoint protection and security event monitoring.
- Configured and managed Identity and Access Management (IAM) tooling, Multi-Factor Authentication (MFA) policies and secure remote access solutions.
- Contributed to vulnerability assessments and implemented security hardening recommendations aligned with industry frameworks.
- Delivered IT security support across cloud and on-premise environments, managing user accounts, device policies and network security controls.

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon Endpoint Detection and Response (EDR) across 8,000+ endpoints at UAL, achieving near-full coverage and significantly reducing mean time to detect and respond.
- Reduced Microsoft Sentinel Security Information and Event Management (SIEM) alert volume by approximately 40% through Kusto Query Language (KQL) rule tuning and automated Security Orchestration, Automation and Response (SOAR) playbooks.
- Led BeyondTrust Privileged Access Management (PAM) implementation, eliminating shared administrative credentials across critical systems and reducing privilege-related risk.
- Drove remediation of critical findings from internal and third-party penetration testing engagements, reducing the organisation's attack surface in measurable terms.

- Rolled out Multi-Factor Authentication (MFA) across all 8,000 users via Microsoft Entra ID, achieving full adoption and eliminating password-only authentication for privileged systems.
- Managed the deployment of Pentera Breach and Attack Simulation (BAS) to continuously validate security controls against real-world attack scenarios.

EDUCATION

M.Sc. Environmental and Resource Engineering

B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
