

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike EDR | SIEM / SOAR | WAF | Vulnerability Management | Hybrid (London)

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of experience delivering hands-on security engineering across complex enterprise environments in regulated sectors. I have expert-level proficiency in CrowdStrike Falcon Endpoint Detection and Response (EDR), alongside deep practical experience managing Security Information and Event Management (SIEM), Security Orchestration Automation and Response (SOAR), Web Application Firewall (WAF), email security, Multi-Factor Authentication (MFA), Mobile Device Management (MDM), vulnerability management, and Privileged Access Management (PAM) platforms. At the University of the Arts London, I operate within a small, focused security team responsible for the security of over 8,000 users, managing the end-to-end security technology stack. I am seeking a senior role within a City of London financial services organisation where I can bring this breadth of engineering expertise to a dynamic, commercially focused security team.

CORE SKILLS AND TECHNICAL STACK

- CrowdStrike Falcon: Endpoint Detection and Response (EDR), Prevent, Insight, Discover, Next-Generation Security Information and Event Management (NG-SIEM) - Expert
- SIEM / SOAR: Microsoft Sentinel, CrowdStrike NG-SIEM - alert response, detection tuning, automation
- Web Application Firewall (WAF) / Distributed Denial of Service (DDoS) protection
- Email security gateway management: Mimecast
- Firewall management: Check Point Harmony
- Intrusion Detection System (IDS) / Intrusion Prevention System (IPS)
- Multi-Factor Authentication (MFA) / Single Sign-On (SSO): Entra ID / Azure Active Directory (Azure AD) / Conditional Access / Group Policy
- Mobile Device Management (MDM) / Mobile Application Management (MAM): Microsoft Intune
- Vulnerability scanning and remediation: Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS)
- Privileged Access Management (PAM): BeyondTrust
- Digital certificate and PKI lifecycle management
- Security awareness training and phishing simulation (KnowBe4-style campaigns)
- Penetration test findings remediation and risk tracking
- Kusto Query Language (KQL) / PowerShell scripting / SOAR playbook development
- Frameworks: NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL) | Senior Cyber Security Analyst (UAL) Engineer

March 2025 - Present

- Manage the end-to-end security technology stack for an organisation of 8,000+ users, including CrowdStrike Falcon EDR, WAF/DDoS protection, Mimecast email security gateway, SIEM/SOAR platforms, firewalls, MFA/SSO, MDM/MAM, vulnerability management, PAM, and digital certificates.
- Administer CrowdStrike Falcon EDR, Prevent, Insight, and NG-SIEM, triaging and investigating alerts, conducting proactive threat hunts, and tuning detection rules and prevention policies to reduce risk.
- Manage Mimecast email security gateway, configuring policies, quarantine management, and impersonation protection to maintain a strong web and email security posture.
- Configure and maintain Multi-Factor Authentication (MFA) and Single Sign-On (SSO) via Microsoft Entra ID / Azure Active Directory (Azure AD) Conditional Access, enforcing identity controls across 8,000 users.

- Administer Microsoft Intune Mobile Device Management (MDM) and Mobile Application Management (MAM), enforcing device compliance and application security policies.
- Manage BeyondTrust Privileged Access Management (PAM), overseeing session recording, privileged account provisioning, and periodic access reviews.
- Conduct vulnerability scans and remediation management using Tenable.io, AppCheck, and Pentera BAS, coordinating findings closure with infrastructure teams and reporting to the security leadership team.
- Manage digital security certificate lifecycle, ensuring timely renewals and PKI compliance across all systems.
- Deliver security awareness training and phishing simulation campaigns, measurably improving staff resilience against social engineering attacks.
- Remediate penetration test findings, maintaining the risk register and providing progress updates to the IT Security Officer and cyber leadership team.
- Maintain Check Point Harmony firewall and IDS/IPS rules, performing regular rule reviews and applying updates to counter emerging network threats.
- Develop SOAR automation playbooks and PowerShell scripts to automate repetitive alert response tasks and improve team efficiency.

University of the Arts London (UAL) Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Administered CrowdStrike Falcon EDR and Microsoft Sentinel SIEM/SOAR, responding to alerts, managing incidents, and contributing to detection rule improvements.
- Managed Mimecast email security gateway, handling phishing investigations, policy updates, and threat intelligence integration.
- Administered Entra ID / Azure Active Directory (Azure AD), Conditional Access policies, Group Policy, MFA, and SSO, managing identity security for 8,000 users.
- Supported BeyondTrust PAM platform management, including privileged account provisioning and access certification reviews.
- Performed vulnerability scanning using Tenable.io and Nessus, triaging findings and coordinating remediation with infrastructure teams.
- Managed Microsoft Intune MDM/MAM policies, ensuring device and application compliance across the fleet.
- Delivered phishing simulation campaigns and security awareness training, reducing phishing susceptibility rates across the organisation.
- Assisted in penetration test remediation tracking, maintaining the vulnerability register and reporting remediation progress.
- Managed digital certificate renewals and PKI compliance activities across the estate.

HEX Solutions Ltd (SaaS/FinTech) Engineer, Security, Quality and Infrastructure

February 2021 - March 2022

- Managed security operations in a regulated SaaS/FinTech environment, covering email security, endpoint protection, identity management, network security, and vulnerability management.
- Administered network firewalls, IDS/IPS systems, and web security controls, applying rule updates and monitoring for network-level threats.
- Managed Azure Active Directory (Azure AD) identity provisioning, MFA, and SSO policies for the organisation.
- Conducted vulnerability scans and coordinated patch remediation with the infrastructure team to maintain compliance.
- Managed MDM device compliance and contributed to ISO 27001 and Cyber Essentials+ compliance activities.
- Delivered security awareness communications and training to staff within the FinTech environment.

KEY ACHIEVEMENTS

- Deployed CrowdStrike Falcon EDR and NG-SIEM enterprise-wide at UAL across 8,000+ users, achieving full endpoint visibility and a measurably improved detection and prevention capability.
- Implemented Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across the estate, consolidating endpoint and identity threat detection into a unified Microsoft security platform.

- Implemented BeyondTrust Privileged Access Management (PAM) from the ground up, achieving full visibility and control over privileged accounts and sessions.
- Built SOAR automation playbooks in CrowdStrike and Microsoft Sentinel, reducing mean time to respond (MTTR) by automating high-volume, repetitive alert triage workflows.
- Delivered sustained Cyber Essentials+ certification for UAL, demonstrating strong preventative security controls across the hybrid estate.
- Established a structured vulnerability management programme using Tenable.io, AppCheck, and Pentera BAS, systematically reducing the organisation's attack surface over time.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
