

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM, CrowdStrike EDR and Endpoint Protection Specialist

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of experience delivering robust security across complex enterprise environments. I have deep hands-on expertise in Security Information and Event Management (SIEM), Security Orchestration, Automation and Response (SOAR), and Endpoint Detection and Response (EDR) using CrowdStrike Falcon, and I bring a strong track record in alert triage, incident response, vulnerability management, and Privileged Access Management (PAM). At the University of the Arts, London, I have led the engineering and operational management of security tooling for over 8,000 users, spanning endpoint protection, email security gateways, Identity and Access Management (IAM), Mobile Device Management (MDM), and firewall policy. I hold the Certified Information Systems Security Professional (CISSP) certification and thrive in small, focused security teams where I can take direct ownership of controls and drive continuous improvement across the security posture.

CORE SKILLS AND TECHNICAL STACK

- **EDR/SIEM/SOAR:** CrowdStrike Falcon (NG-Security Information and Event Management (SIEM), Endpoint Detection and Response (EDR), Prevent, Insight, Discover), Microsoft Sentinel, Microsoft Defender (Endpoint, Identity, Microsoft 365)
- **Email and Web Security Gateways:** Mimecast, anti-phishing, spam filtering, URL protection, attachment sandboxing
- **Firewall and Network Security:** Check Point Harmony, Web Application Firewall (WAF)/Distributed Denial of Service (DDoS) mitigation, Intrusion Detection System (IDS)/Intrusion Prevention System (IPS), network segmentation
- **Identity, Access and MFA/SSO:** Microsoft Entra ID (Azure Active Directory), Conditional Access, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Group Policy
- **MDM/MAM and Endpoint Management:** Microsoft Intune, Mobile Device Management (MDM), Mobile Application Management (MAM), Tanium
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; penetration test remediation
- **Privileged Access Management (PAM):** BeyondTrust
- **Security Certificates and PKI:** Certificate lifecycle management, PKI infrastructure
- **Scripting and Automation:** PowerShell, SOAR playbook development, KQL
- **Frameworks:** NIST Cybersecurity Framework (CSF), NIST 800-61, MITRE ATT&CK, CIS Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) | Senior Cyber Security Analyst / Engineer *March 2025 - Present*

- Lead engineering and operational management of CrowdStrike Falcon EDR across the enterprise, including configuration of prevention policies, detection rules, and host containment workflows for over 8,000 endpoints.
- Manage SIEM and SOAR operations using Microsoft Sentinel and CrowdStrike NG-SIEM; develop detection logic, configure alert triage workflows, and respond to security incidents in line with NIST 800-61.
- Administer Mimecast email security gateway, tuning policies to reduce phishing exposure and managing email-borne threat response end-to-end.
- Oversee MFA/SSO infrastructure via Microsoft Entra ID and Conditional Access, ensuring appropriate access controls and enforcing Zero Trust principles across the organisation.
- Manage MDM/MAM policies through Microsoft Intune, ensuring endpoint compliance and device security for staff and students.

- Lead vulnerability scanning and remediation cycles using Tenable.io and Pentera Breach and Attack Simulation (BAS); triage findings, prioritise remediation, and track to closure.
- Manage PAM controls through BeyondTrust, including privileged account onboarding, session management, and access reviews.
- Administer security certificates and PKI infrastructure, maintaining certificate lifecycle visibility and timely renewal processes.
- Conduct threat hunting across endpoint and network telemetry using CrowdStrike Falcon Insight and MITRE ATT&CK mappings to proactively identify adversary behaviour.
- Remediate penetration test findings and contribute to ad-hoc security projects, including WAF rule tuning, IDS/IPS policy refinement, and security awareness training delivery.
- Maintain and improve firewall policies using Check Point Harmony, including review of rules for least-privilege alignment.

University of the Arts, London (UAL) | Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Delivered Tier 2 and Tier 3 incident response, investigating and containing endpoint, identity, and email-based threats using CrowdStrike Falcon and Microsoft Defender.
- Performed SIEM alert triage and correlation within Microsoft Sentinel, writing KQL-based detection rules and contributing to playbook development.
- Supported the deployment of Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft Defender for Microsoft 365 across the organisation.
- Administered Entra ID (Azure Active Directory), including Conditional Access policy configuration, identity governance, and MFA enrolment programmes.
- Managed vulnerability scanning schedules using Tenable.io, produced remediation reports, and liaised with infrastructure teams to track patch deployment.
- Supported BeyondTrust PAM operations, including onboarding privileged accounts and conducting access reviews.
- Automated repetitive security tasks using PowerShell scripts, reducing analyst handling time for routine checks.
- Contributed to security awareness training delivery and phishing simulation campaigns using Mimecast.

HICX Solutions Ltd (SaaS/FinTech) | IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Delivered security engineering and infrastructure support across a SaaS and FinTech environment, including endpoint security configuration, network firewall management, and identity access provisioning.
- Managed MDM policies and device compliance, ensuring endpoints met security standards before granting access to corporate systems.
- Conducted vulnerability assessments and supported remediation activities across internal systems.
- Monitored security alerts and assisted with incident triage, escalating as appropriate through defined IR procedures.
- Supported MFA and SSO configuration to enforce secure access controls across cloud and on-premises services.

KEY ACHIEVEMENTS

- Deployed and operationalised CrowdStrike Falcon across 8,000+ endpoints at UAL, establishing EDR coverage, prevention policies, and a structured alert triage workflow from scratch.
- Led end-to-end Microsoft Defender suite rollout (MDE, MDI, Microsoft 365 Defender) across the full UAL user base, significantly reducing mean time to detect and respond to threats.
- Reduced phishing-related incidents by tuning Mimecast policies and running targeted security awareness campaigns, measurably lowering click rates on simulated phishing exercises.
- Developed SOAR playbooks and SIEM detection rules in Microsoft Sentinel that automated alert triage for common attack patterns, freeing analyst capacity for higher-value investigation.
- Implemented BeyondTrust PAM controls for privileged accounts, achieving full visibility and auditability of privileged sessions across the enterprise.

- Integrated Pentera Breach and Attack Simulation (BAS) into the vulnerability management programme, enabling continuous validation of security controls against real-world attack techniques.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
