

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM/SOAR | CrowdStrike EDR | Incident Response

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience designing, implementing and maintaining security controls across complex hybrid environments. I have deep practical expertise in managing Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, Endpoint Detection and Response (EDR) tools, firewalls, web application security, multi-factor authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM), and vulnerability management programmes. I am an expert user of CrowdStrike Falcon across its full suite including Next Generation SIEM (NG-SIEM), EDR/Prevent, Insight, Discover and Exposure Management. I excel in incident response, threat hunting, alert triage and security operations, and I hold the Certified Information Systems Security Professional (CISSP) certification alongside CompTIA Security+. I am experienced working within small, focused security teams and collaborating directly with infrastructure and operations colleagues to deliver resilient security programmes, including remediating penetration testing findings and supporting out-of-hours security incidents.

CORE SKILLS AND TECHNICAL STACK

- **SIEM/SOAR/EDR:** CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) - Expert; Microsoft Sentinel with Kusto Query Language (KQL); Splunk/SPL
- **Endpoint and Email Security:** CrowdStrike EDR, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Mimecast email security
- **Identity and Access Management:** Microsoft Azure Active Directory (Azure AD) / Entra ID, Conditional Access policies, MFA, SSO, BeyondTrust Privileged Access Management (PAM)
- **Network and Perimeter Security:** Check Point Harmony firewall; Web Application Firewall (WAF); DDoS mitigation; security gateways
- **Mobile Device and Application Management:** Microsoft Intune MDM/MAM; Tanium endpoint management
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS)
- **Incident Response and Threat Hunting:** NIST 800-61 IR lifecycle; MITRE ATT&CK framework; detection engineering; alert triage
- **Scripting and Automation:** PowerShell; SOAR playbook automation
- **Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) Senior Cyber Security Analyst / Engineer

March 2025 - Present

- Lead the design, implementation and ongoing management of security controls across UAL's hybrid IT estate, ensuring robust protection of infrastructure, endpoints, and data for 8,000 users
- Administer and optimise the CrowdStrike Falcon platform (NG-SIEM, EDR, Prevent, Insight, Discover), managing SIEM/SOAR pipelines including alert triage, detection rule development, and automated incident response playbooks
- Manage Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) within a Microsoft 365 security environment, integrating telemetry into centralised SIEM monitoring
- Oversee WAF/DDoS controls, security gateways, Check Point Harmony firewall rulesets, and Mimecast email security, maintaining a layered perimeter defence
- Administer MFA/SSO solutions and Azure AD/Entra ID Conditional Access policies, reducing identity-based attack risk across the organisation

- Manage Microsoft Intune MDM/MAM policies governing mobile device and application security for staff and student endpoints
- Lead vulnerability management programme using Tenable.io and Nessus, prioritising and tracking remediation of penetration testing findings in collaboration with infrastructure teams
- Conduct incident response investigations following the NIST 800-61 framework, performing containment, eradication and recovery activities for security incidents including ransomware, phishing, and credential compromise
- Perform proactive threat hunting using MITRE ATT&CK mapping and CrowdStrike Falcon Insight, identifying and containing threats before escalation

University of the Arts, London (UAL)

Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Deployed and managed Microsoft Defender for Endpoint across 8,000 devices, performing alert triage, incident investigation and automated remediation via SOAR workflows
- Operated Microsoft Sentinel SIEM, writing and tuning KQL detection rules, configuring analytics, and integrating threat intelligence feeds to improve detection fidelity
- Managed CrowdStrike Falcon EDR/Prevent, configuring prevention policies, exclusions, and response actions in coordination with IT operations
- Administered BeyondTrust PAM, enforcing least-privilege access controls and auditing privileged sessions across critical systems
- Conducted regular vulnerability assessments using Tenable.io and AppCheck, producing risk-prioritised reports for management and tracking remediation through to closure
- Supported identity and access management via Azure AD/Entra ID, implementing Conditional Access, MFA, and SSO for staff and student populations
- Managed Mimecast email security platform, configuring anti-phishing, anti-spoofing and data loss prevention policies
- Developed and maintained security operations playbooks and runbooks, reducing mean time to respond to security incidents

HICX Solutions Ltd (SaaS/FinTech)

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Implemented and managed endpoint security controls and MDM policies across a cloud-first SaaS environment, supporting hybrid infrastructure and remote workforce security
- Administered firewall rulesets, VPN access controls, and security gateway configurations, contributing to network security hardening
- Conducted vulnerability scans and monitored security alerts, triaging and escalating incidents in line with defined response procedures
- Supported SSO/MFA rollouts and identity lifecycle management using Azure AD, improving authentication security and access governance
- Contributed to ISO 27001 compliance activities, supporting audit preparations and evidencing adherence to security controls

KEY ACHIEVEMENTS

- Reduced security incident dwell time by over 40% by optimising CrowdStrike Falcon SIEM detection rules and automating SOAR response playbooks, enabling faster triage and containment
- Successfully deployed and managed Microsoft Defender for Endpoint across an 8,000-user estate, achieving full endpoint visibility and reducing critical vulnerability exposure
- Led the implementation of CrowdStrike Falcon Exposure Management (Discover), providing real-time asset inventory and attack surface visibility across UAL's hybrid environment
- Delivered a UAL-wide phishing simulation and awareness programme in partnership with Mimecast, reducing click rates by over 60% within six months
- Drove Pentera Breach and Attack Simulation (BAS) engagements, using automated testing findings to prioritise and close critical gaps in security controls

- Designed and deployed BeyondTrust PAM controls for privileged account management, removing standing admin rights for over 200 accounts and improving the organisation's identity security posture

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
