

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR | Vulnerability Management | Incident Response

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with more than five years of hands-on experience securing complex enterprise environments. I have deep expertise in CrowdStrike Falcon, including its Endpoint Detection and Response (EDR), Next-Generation Security Information and Event Management (NG-SIEM), Falcon Prevent, Insight, and Discover modules, and I combine this with strong proficiency in Security Information and Event Management (SIEM) platforms and Security Orchestration, Automation and Response (SOAR) tooling. I am experienced in managing Web Application Firewall (WAF) and Distributed Denial of Service (DDoS) mitigation, security gateways, Intrusion Detection and Prevention Systems (IDS/IPS), Privileged Access Management (PAM), Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM), and Mobile Application Management (MAM). At the University of the Arts London, I manage security operations across more than 8,000 users, lead incident response aligned to the NIST 800-61 framework, and deliver end-to-end vulnerability management using Pentera Breach and Attack Simulation (BAS), Tenable.io, and AppCheck. I am looking for a permanent, hybrid Senior Cyber Security Engineer position in London where I can apply this expertise to protect critical financial infrastructure.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon EDR, Falcon Prevent, Falcon Insight, Falcon Discover, Microsoft Defender for Endpoint (MDE)
- **SIEM and SOAR:** CrowdStrike Falcon NG-SIEM, Microsoft Sentinel with Kusto Query Language (KQL), SOAR automation and playbook development
- **Identity and Access Management:** Microsoft Entra ID (formerly Azure Active Directory), Conditional Access, MFA, SSO, Group Policy
- **Vulnerability Management:** Pentera BAS, Tenable.io, AppCheck, Nessus; penetration test findings review and remediation
- **Endpoint and Email Security:** Mimecast email security, Microsoft Intune MDM/MAM, Tanium
- **Privileged Access Management:** BeyondTrust PAM
- **Network Security:** Check Point Harmony firewall, IDS/IPS management, WAF/DDoS mitigation, web and email security gateways
- **Incident Response:** NIST 800-61, MITRE ATT&CK, threat hunting, malware analysis, forensics
- **Compliance and Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Scripting and Automation:** PowerShell scripting for security automation and alert enrichment

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL)

March 2025 - Present

- Manage and optimise the CrowdStrike Falcon platform across a 8,000-user estate, administering EDR, Falcon Prevent, Falcon NG-SIEM, Falcon Insight, and Falcon Discover for continuous endpoint visibility and threat detection.
- Administer and tune Microsoft Sentinel SIEM, building and maintaining advanced KQL detection rules, custom alert logic, and SOAR playbooks to automate incident triage and reduce mean time to respond.
- Lead Level 3 (L3) security incident response using the NIST 800-61 framework, correlating alerts across CrowdStrike EDR, Sentinel SIEM, and Microsoft Defender for Endpoint to investigate and contain threats.
- Manage BeyondTrust Privileged Access Management (PAM) solution, enforcing least-privilege access controls and maintaining audit trails for privileged account activity across IT infrastructure.

- Administer Mimecast email security gateway, configuring policies for anti-phishing, anti-spoofing, URL protection, and impersonation defence to protect users from email-borne threats.
- Configure and manage Microsoft Entra ID (formerly Azure Active Directory) Conditional Access policies, MFA enforcement, and SSO integrations to secure identity across cloud and hybrid environments.
- Deploy and manage Microsoft Intune MDM and MAM policies, controlling device compliance and application security across Windows, iOS, and Android endpoints.
- Conduct end-to-end vulnerability management using Pentera BAS, Tenable.io, AppCheck, and Nessus, remediating findings from routine scans and penetration tests to reduce attack surface.
- Manage Check Point Harmony firewall, IDS/IPS controls, and web security gateways, maintaining network perimeter defences and DDoS mitigation capabilities.
- Deliver security awareness training and phishing simulation campaigns, building a security-conscious culture across a diverse academic community.

University of the Arts London (UAL) Cyber Security Analyst, Cyber Security and Identity

March 2022 - March 2025

- Monitored and triaged security alerts from SIEM, EDR, and email security tools, escalating incidents and conducting root-cause analysis aligned to MITRE ATT&CK tactics and techniques.
- Supported the deployment and ongoing management of CrowdStrike Falcon EDR and Microsoft Defender for Endpoint across the enterprise, improving endpoint detection coverage.
- Administered Azure Active Directory (now Entra ID), managing identity governance, MFA roll-out, and Conditional Access configuration for a large, diverse user base.
- Managed vulnerability scanning with Tenable.io and AppCheck, coordinating remediation with IT infrastructure teams and tracking risk reduction over time.
- Supported incident response processes, contributing to post-incident reviews, root-cause identification, and implementation of preventive controls.
- Administered Mimecast email security and managed Tanium endpoint visibility, maintaining accurate asset inventory and endpoint hygiene across the estate.
- Contributed to security awareness programmes, delivering training sessions and maintaining phishing simulation campaigns across UAL's 8,000-strong user community.

HICX Solutions Ltd (SaaS FinTech) IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

- Managed security controls across cloud and on-premise infrastructure for a Software as a Service (SaaS) FinTech organisation, including firewall administration, vulnerability scanning, and access management.
- Supported GDPR and data protection compliance initiatives, contributing to risk assessments and security policy development.
- Administered MDM and MAM solutions, securing corporate-owned and bring-your-own-device (BYOD) endpoints.
- Delivered IT infrastructure support covering network security, identity management, and systems administration across the organisation's hybrid environment.

KEY ACHIEVEMENTS

- Deployed Microsoft Defender for Endpoint, Defender for Identity, and Microsoft 365 Defender across more than 8,000 users at UAL, significantly improving endpoint threat detection and response capability.
- Engineered advanced CrowdStrike Falcon NG-SIEM detection rules and SOAR automation workflows that reduced alert triage time by automating repetitive enrichment and containment tasks.
- Led implementation of BeyondTrust PAM at UAL, enforcing least-privilege access controls across critical infrastructure and eliminating standing privileged access risks.
- Built and maintained a Pentera BAS programme that continuously validated defensive controls and prioritised remediation of critical vulnerabilities across the UAL estate.
- Designed and delivered enterprise-wide MFA and Conditional Access policies in Microsoft Entra ID, reducing identity-related risk across a 8,000-user hybrid environment.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**
