

# PROSPER AWUNI

Senior Cyber Security Engineer | Security Information and Event Management (SIEM) | Endpoint Detection and Response (EDR) | Identity and Access Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

## PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience protecting enterprise environments through the design, implementation, and continuous optimisation of security technologies. I bring expert-level proficiency with CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) platforms, Security Orchestration, Automation and Response (SOAR), and Identity and Access Management (IAM) solutions including Microsoft Entra ID and Azure Active Directory. I have a strong track record of managing the full security lifecycle across endpoint, email, network, and cloud infrastructure, including alert response, vulnerability management, Privileged Access Management (PAM), and incident response aligned to the NIST 800-61 framework. I am confident working within small, focused security teams and am comfortable reporting directly to senior stakeholders while taking ownership of day-to-day security operations and strategic improvement projects.

## CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon (Prevent, Insight, Discover, NG-SIEM) - Expert
- **Security Information and Event Management (SIEM) / Security Orchestration, Automation and Response (SOAR):** Microsoft Sentinel with Kusto Query Language (KQL), CrowdStrike NG-SIEM, SOAR automation and playbook engineering
- **Email and Web Security Gateways:** Mimecast, Check Point Harmony
- **Identity and Access Management / Multi-Factor Authentication / Single Sign-On:** Microsoft Entra ID, Azure Active Directory, Conditional Access, MFA, SSO
- **Mobile Device Management / Mobile Application Management:** Microsoft Intune, MDM, MAM
- **Privileged Access Management (PAM):** BeyondTrust
- **Vulnerability Management:** Tenable.io, Nessus, AppCheck, Pentera Breach and Attack Simulation (BAS)
- **Microsoft Defender Suite:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Endpoint Management:** Tanium, Microsoft Intune
- **Intrusion Detection and Prevention Systems (IDS/IPS), WAF/DDoS:** Check Point Harmony, network security controls
- **PowerShell Scripting and Automation**
- **Frameworks:** NIST Cybersecurity Framework (CSF), NIST 800-61, MITRE ATT&CK, CIS Controls, ISO 27001, Cyber Essentials Plus
- **Certifications:** Certified Information Systems Security Professional (CISSP), CompTIA Security+

## PROFESSIONAL EXPERIENCE

- University of the Arts, London (UArL) | Senior Cyber Security Analyst & Engineer | March 2025 - Present
- University of Management and Technology (UMT) | Senior Cyber Security Analyst & Engineer | March 2025 - Present
- Discover modules across an enterprise estate of over 8,000 users, including alert triage, threat hunting, and proactive detection rule engineering.
- Administer Microsoft Sentinel SIEM with KQL-based detection rules, SOAR playbooks, and automated response workflows to reduce mean time to detect and respond to security incidents.
  - Manage Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender across the full user estate, including configuration, policy tuning, and incident investigation.
  - Operate and maintain Mimecast email security gateway, configuring policies for phishing, malware, and data loss prevention to protect the organisation's email infrastructure.

- Administer BeyondTrust Privileged Access Management (PAM) to enforce least-privilege access controls and manage privileged account lifecycles across the enterprise.
- Manage Microsoft Entra ID and Azure Active Directory including Conditional Access policies, MFA enforcement, Single Sign-On (SSO) configurations, and identity governance.
- Oversee Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, ensuring endpoint compliance and security across the device fleet.
- Lead vulnerability management programmes using Tenable.io, AppCheck, and Pentera Breach and Attack Simulation (BAS), including prioritisation, remediation tracking, and penetration test finding remediation.
- Drive incident response activities aligned to NIST 800-61, coordinating containment, eradication, and recovery across security events, and producing post-incident reports for senior stakeholders.
- Deliver security awareness training and phishing simulation campaigns to strengthen the organisation's human layer of defence.
- Produce meaningful reporting on security posture, SIEM/EDR performance, and risk metrics for senior leadership and governance committees.

**University of the Arts, London (UAL) - Cyber Security Analyst, Cyber Security and Identity**  
 University of the Arts, London Operations across Security, Analysis and Cyber Security patterns, performing alert triage, investigation, and escalation in line with defined runbooks. *March 2022 - March 2025*

- Configured and maintained Microsoft Entra ID Conditional Access policies, MFA and SSO integrations, and identity lifecycle management workflows.
- Administered Microsoft Intune MDM/MAM policies to manage and secure Windows, macOS, iOS, and Android devices across the enterprise estate.
- Conducted vulnerability assessments using Nessus and AppCheck, tracking remediation progress and reporting risk posture to the security leadership team.
- Assisted in incident response investigations, performing log analysis, forensic triage, and MITRE ATT&CK-aligned threat mapping to support containment and recovery activities.
- Supported deployment and configuration of BeyondTrust PAM, enforcing privileged session management and just-in-time access controls.
- Maintained and refined SIEM detection rules and SOAR automation playbooks to improve detection fidelity and reduce alert noise.
- Collaborated with IT and infrastructure teams to remediate security control gaps identified through internal assessments and external penetration tests.

**HUX Solutions Ltd (SaaS/FinTech) - IT Engineer, Security, Quality and Infrastructure**  
 Implemented and maintained endpoint security controls, including MDM policies and software update management across the device fleet. *February 2021 - March 2022*

- Configured MFA and SSO solutions to strengthen access controls for cloud-hosted SaaS applications and internal systems.
- Monitored security events and alerts, performing triage and escalation to minimise dwell time and business impact.
- Supported vulnerability scanning and remediation activities to maintain compliance with internal security policies and customer contractual requirements.
- Delivered IT infrastructure support across cloud and on-premises environments, maintaining system availability and security baselines.

## KEY ACHIEVEMENTS

- Led the deployment and configuration of CrowdStrike Falcon across an 8,000-user enterprise, establishing EDR coverage, detection tuning, and threat hunting workflows from the ground up.
- Designed and implemented a Microsoft Sentinel SIEM and SOAR solution, engineering KQL detection rules and automated playbooks that reduced mean time to respond to high-severity incidents.
- Deployed Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across the full user estate, significantly improving endpoint and identity threat visibility.
- Achieved and maintained Cyber Essentials Plus certification for the organisation through rigorous control implementation and audit preparation.
- Implemented BeyondTrust PAM, reducing privileged account risk and enforcing least-privilege access across critical systems and infrastructure.

- Ran Pentera Breach and Attack Simulation (BAS) exercises to validate security control effectiveness and prioritise vulnerability remediation efforts.

## EDUCATION

---

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

## CERTIFICATIONS

---

- Certified Information Systems Security Professional (CISSP)
  - CompTIA Security+
  - Microsoft Certified Solutions Associate (MCSA)
  - CompTIA A+
  - Google IT Support Professional Certificate
