

PROSPER AWUNI

Senior Cyber Security Engineer | Security Information and Event Management (SIEM) | Endpoint Detection and Response (EDR) | CrowdStrike | Identity and Access Management

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a senior cyber security engineer with over five years of hands-on experience protecting enterprise environments across education and technology sectors. I bring deep expertise in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, Privileged Access Management (PAM), vulnerability management, and Microsoft identity technologies including Entra Identity (formerly Azure Active Directory) and Intune Mobile Device Management (MDM). I am comfortable operating at pace in a small, high-impact security team, working both independently and alongside a Security Officer to manage a broad and modern security stack. I hold the Certified Information Systems Security Professional (CISSP) certification and have a strong track record of translating threat intelligence into actionable security controls across firewalls, email gateways, multi-factor authentication (MFA), endpoint protection, and identity platforms.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR) / Extended Detection and Response (XDR):** CrowdStrike Falcon (Prevent, Insight, Discover, NG-SIEM) - Expert; Microsoft Defender for Endpoint (MDE)
- **SIEM and SOAR:** Microsoft Sentinel with Kusto Query Language (KQL), CrowdStrike Falcon NG-SIEM, Splunk with Search Processing Language (SPL); alert triage, playbook development, automation
- **Firewalls and Network Security:** Check Point Harmony; firewall policy management, IDS/IPS, WAF/DDoS mitigation; experienced with enterprise perimeter security architecture
- **Email and Web Gateway Security:** Mimecast; email threat protection, anti-phishing, data loss prevention (DLP)
- **Identity and Access Management (IAM):** Microsoft Entra ID (Azure Active Directory), Conditional Access, MFA, Single Sign-On (SSO), Group Policy; BeyondTrust Privileged Access Management (PAM)
- **Endpoint and Device Management:** Microsoft Intune MDM/MAM, Tanium; mobile device management and application management at scale (8,000-user deployment)
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus; vulnerability scanning, prioritisation, and remediation tracking
- **Incident Response:** NIST SP 800-61 framework; full incident lifecycle - detection, analysis, containment, eradication, recovery, lessons learned; MITRE ATT&CK mapping
- **Security Certifications and Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus, MITRE ATT&CK
- **Scripting and Automation:** PowerShell; SOAR playbook automation, reporting, and operational scripting

PROFESSIONAL EXPERIENCE

Senior Cyber Security Analyst / Engineer

March 2025 - Present

University of the Arts, London (UAL)

- Lead the day-to-day operation of a broad security stack including CrowdStrike Falcon EDR, Microsoft Sentinel SIEM, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and Microsoft 365 Defender, across an estate of approximately 8,000 users
- Own SIEM/SOAR alert triage, tuning, and response; develop KQL detection rules and automated playbooks in Microsoft Sentinel to reduce mean time to respond (MTTR)
- Manage CrowdStrike Falcon policies including prevention policies, EDR configuration, and Insight/Discover modules to maintain full endpoint visibility across staff and student devices
- Oversee Mimecast email gateway configuration, anti-phishing policies, and impersonation protection rules; respond to business email compromise (BEC) and phishing incidents

- Administer Microsoft Entra ID (Azure Active Directory) Conditional Access policies, MFA rollout, and Single Sign-On (SSO) integrations to enforce Zero Trust identity controls
- Manage BeyondTrust Privileged Access Management (PAM) platform, controlling and auditing privileged account activity across the enterprise
- Lead vulnerability management programme using Tenable.io and Pentera Breach and Attack Simulation (BAS); prioritise and track remediation with IT infrastructure teams
- Oversee Microsoft Intune MDM/MAM policies ensuring compliant and secure device enrolment for staff and student endpoints
- Conduct security incident response in line with NIST SP 800-61; lead post-incident reviews, root cause analysis, and lessons-learned exercises; map threat actor techniques to MITRE ATT&CK framework
- Deliver security awareness training to staff and respond to data protection queries in coordination with the Data Protection Officer (DPO)

Cyber Security Analyst - Cyber Security and Identity

March 2022 - March 2025

University of the Arts, London (UAL)

- Deployed and maintained CrowdStrike Falcon across the UAL estate; configured EDR prevention policies, exclusions, and sensor management, achieving full endpoint coverage
- Built and tuned Microsoft Sentinel SIEM analytics rules and workbooks; developed KQL queries for threat detection, investigation, and reporting dashboards
- Monitored and investigated security alerts from SIEM, EDR, email, and identity platforms; escalated and managed incidents following the NIST incident response lifecycle
- Administered Microsoft Entra ID (Azure Active Directory), managing Conditional Access, MFA enforcement, and identity governance for approximately 8,000 students and staff
- Managed the Mimecast email security platform; created and tuned anti-spam, anti-malware, DLP, and impersonation-protection policies
- Supported Check Point Harmony firewall policy reviews and IDS/IPS rule management; assisted with network access control and segmentation projects
- Ran vulnerability assessments using Tenable.io and Nessus; coordinated patch prioritisation and tracked remediation activity to closure
- Onboarded and supported BeyondTrust PAM, defining privileged account policies and managing access reviews
- Contributed to Cyber Essentials Plus accreditation; maintained security documentation, risk registers, and policy frameworks aligned to ISO 27001 and NIST CSF

IT Engineer: Security, Quality and Infrastructure

February 2021 - March 2022

HICX Solutions Ltd (Software as a Service / FinTech)

- Managed endpoint security, MDM configuration, and infrastructure security controls across a cloud-first SaaS environment
- Supported MFA, SSO, and identity management for internal systems; implemented access control reviews and user lifecycle management
- Conducted vulnerability scans, maintained asset inventories, and coordinated patch management processes
- Contributed to ISO 27001 compliance activities; documented security procedures, access controls, and operational runbooks
- Provided security awareness guidance and IT support across the organisation, bridging security engineering and IT operations functions

KEY ACHIEVEMENTS

- Delivered a full enterprise CrowdStrike Falcon EDR deployment across UAL's 8,000-user estate, achieving 100% endpoint visibility and materially reducing dwell time for detected threats
- Built a Microsoft Sentinel SIEM detection library from the ground up, authoring over 40 custom KQL analytics rules covering identity, endpoint, email, and network threat vectors
- Led the design and rollout of Conditional Access and MFA policies across Microsoft Entra ID (Azure Active Directory), significantly reducing credential-based attack surface

- Integrated BeyondTrust PAM into UAL's identity governance framework, eliminating standing privileged access for over 95% of administrative accounts
- Drove a continuous vulnerability management cycle using Pentera Breach and Attack Simulation (BAS) and Tenable.io, enabling risk-prioritised remediation aligned to the CIS Controls framework
- Supported successful Cyber Essentials Plus certification, coordinating technical evidence across endpoint, firewall, patching, and access control domains

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
