

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike | SIEM | SOAR | Incident Response

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Senior Cyber Security Engineer with over five years of hands-on experience securing complex enterprise environments. I bring deep expertise in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platforms, and end-to-end incident response. I have led the deployment and management of CrowdStrike Falcon across large-scale user populations, managed email and web security gateways including Mimecast, administered Web Application Firewall (WAF) and perimeter security controls, and delivered robust vulnerability management programmes using Tenable.io and Pentera. I am skilled in Microsoft Entra ID, Multi-Factor Authentication (MFA), Single Sign-On (SSO), Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, and Privileged Access Management (PAM) using BeyondTrust. I am experienced in firewall administration, penetration test remediation, and delivering security awareness training to diverse user communities. I thrive in small, high-impact security teams where I can take broad ownership of security controls and contribute meaningfully to the firm's security posture.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR) and Threat Hunting:** CrowdStrike Falcon (Falcon Prevent, Falcon Insight, Falcon Discover, Falcon NG-SIEM, CrowdStrike Overwatch)
- **SIEM and SOAR:** Microsoft Sentinel (Kusto Query Language (KQL)), CrowdStrike NG-SIEM, alert triage, detection engineering, automated playbooks
- **Email and Web Security Gateways:** Mimecast, anti-phishing controls, email filtering and policy management
- **Endpoint and Device Management (MDM/MAM):** Microsoft Intune, Microsoft Endpoint Configuration Manager, Tanium
- **Identity and Access Management (IAM):** Microsoft Entra ID (formerly Azure Active Directory (AD)), Conditional Access, MFA, SSO, Group Policy
- **Privileged Access Management (PAM):** BeyondTrust PAM
- **Firewall Administration:** Check Point Harmony, perimeter security controls, network segmentation
- **Vulnerability Management:** Tenable.io, Pentera Breach and Attack Simulation (BAS), AppCheck, Nessus
- **Incident Response:** National Institute of Standards and Technology (NIST) 800-61, MITRE ATT&CK Framework, digital forensics, containment and remediation
- **Microsoft Defender Suite:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender
- **Scripting and Automation:** PowerShell, Security Automation
- **Compliance and Frameworks:** ISO 27001, Cyber Essentials Plus, NIST Cybersecurity Framework (CSF), CIS Controls, General Data Protection Regulation (GDPR)

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) -- Senior Cyber Security Analyst / Engineer *March 2025 -- Present*

- Lead engineer for CrowdStrike Falcon across an 8,000-user estate, administering Falcon Prevent, Falcon Insight, Falcon Discover, and CrowdStrike NG-SIEM to deliver advanced threat detection, alert triage, and proactive threat hunting.
- Manage and maintain SIEM and SOAR platforms including Microsoft Sentinel; author KQL detection rules, tune alert logic, and build automated response playbooks to reduce mean time to respond (MTTR).
- Administer email and web security controls including Mimecast, enforcing anti-phishing, anti-malware, and data loss prevention (DLP) policies across the organisation.

- Oversee WAF and perimeter security controls, working with infrastructure teams to harden the network boundary and reduce attack surface.
- Manage Microsoft Entra ID Conditional Access policies, MFA enforcement, and SSO integrations to control privileged and non-privileged access across cloud and on-premises systems.
- Administer Microsoft Intune for MDM and MAM, managing device compliance policies and mobile application security across a diverse device fleet.
- Manage BeyondTrust PAM to enforce least-privilege access and audit privileged account activity.
- Drive vulnerability management programmes using Tenable.io and Pentera BAS, triaging findings, prioritising remediation, and tracking closure of penetration test findings.
- Lead and coordinate incident response activities aligned to NIST 800-61, managing containment, eradication, recovery, and post-incident reviews.
- Deliver security awareness training to staff, reducing susceptibility to phishing and social engineering attacks.
- Administer and maintain security certificates, managing renewals and ensuring certificate hygiene across the environment.

University of the Arts, London (UAL) -- Cyber Security Analyst, Cyber Security and Identity

March 2022 -- March 2025

- Deployed and managed CrowdStrike Falcon EDR, configuring detection policies, managing exclusions, and responding to EDR alerts to protect 8,000 endpoints across UAL's campus and remote estate.
- Monitored security alerts and detections via SIEM platforms (Microsoft Sentinel and CrowdStrike NG-SIEM), triaging threats and escalating high-severity incidents for response.
- Administered Mimecast email security, managing inbound/outbound filtering policies, and investigating email-based threat campaigns.
- Managed Microsoft Entra ID including Conditional Access, MFA, SSO, and identity governance, supporting identity security and zero-trust access controls.
- Administered Microsoft Intune MDM/MAM for device compliance and mobile security, and BeyondTrust PAM for privileged access control and session recording.
- Conducted vulnerability assessments using Tenable.io and AppCheck, reporting risk findings to leadership and tracking remediation progress.
- Supported incident response activities, performing log analysis, threat correlation, and digital forensics to investigate security events.
- Contributed to security awareness programmes, delivering phishing simulation campaigns and training sessions.

HICX Solutions Ltd (SaaS/FinTech) -- IT Engineer: Security, Quality and Infrastructure

February 2021 -- March 2022

- Managed security controls and infrastructure tooling across a SaaS and FinTech environment, implementing endpoint protection, patch management, and access control policies.
- Administered network and endpoint security tools, configuring firewall policies, and supporting vulnerability remediation activities.
- Provided security input into IT quality and infrastructure projects, ensuring security-by-design principles were applied to new deployments.
- Supported identity and access management processes, onboarding and offboarding users and managing role-based access control (RBAC) across cloud and on-premises systems.

KEY ACHIEVEMENTS

- Led the full deployment and operationalisation of CrowdStrike Falcon across 8,000 endpoints at UAL, achieving full EDR coverage and enabling proactive threat hunting capabilities.
- Built and tuned KQL-based SIEM detection rules in Microsoft Sentinel, significantly reducing false positives and improving alert fidelity for the security operations team.
- Deployed BeyondTrust PAM enterprise-wide, eliminating standing privilege across critical systems and achieving compliance with least-privilege access requirements.
- Implemented Pentera Breach and Attack Simulation (BAS) to continuously validate security controls, enabling a risk-based approach to remediation prioritisation.

- Delivered a comprehensive security awareness training programme, reducing phishing click-through rates and building a stronger security culture across UAL.
- Established robust incident response processes aligned to NIST 800-61, reducing mean time to detect (MTTD) and mean time to respond (MTTR) for security events.

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
