

PROSPER AWUNI

Senior Cyber Security Engineer | CrowdStrike Falcon | SIEM/SOAR | Endpoint & Identity Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP) with over five years of hands-on experience protecting large-scale enterprise environments across higher education and technology sectors. I specialise in Endpoint Detection and Response (EDR) platforms, specifically CrowdStrike Falcon, alongside Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) operations. In my current senior role at the University of the Arts London, I manage security tooling for an 8,000-user estate, covering CrowdStrike Falcon EDR, Mimecast email gateway security, Privileged Access Management (PAM) via BeyondTrust, Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, and identity security through Microsoft Entra ID with Conditional Access and Multi-Factor Authentication (MFA). I have a strong track record in alert triage, vulnerability scanning and remediation, penetration test finding remediation, incident response, and delivering security awareness training to technical and non-technical stakeholders. I am looking for a hybrid permanent role in London where I can apply these skills within a focused security engineering team.

CORE SKILLS AND TECHNICAL STACK

- **Endpoint Detection and Response (EDR):** CrowdStrike Falcon Prevent, Insight, Discover, NG-SIEM (Expert)
- **SIEM / SOAR:** Microsoft Sentinel with Kusto Query Language (KQL), CrowdStrike Falcon NG-SIEM, SOAR playbook automation
- **Email and Web Security:** Mimecast email gateway, web filtering, anti-phishing, DDoS and Web Application Firewall (WAF) management
- **Identity and Access Management:** Microsoft Entra ID / Azure Active Directory, Conditional Access, MFA, Single Sign-On (SSO), Okta familiarity
- **Privileged Access Management (PAM):** BeyondTrust PAM platform, privileged session management, just-in-time access
- **Mobile Device Management (MDM) / Mobile Application Management (MAM):** Microsoft Intune, policy deployment, compliance enforcement
- **Vulnerability Management:** Tenable.io, AppCheck, Nessus, Pentera Breach and Attack Simulation (BAS), scan management and remediation tracking
- **Incident Response:** NIST 800-61 framework, MITRE ATT&CK mapping, digital forensics, threat hunting
- **Firewalls and Network Security:** Check Point Harmony, IDS/IPS, network segmentation, certificate management
- **Endpoint Management:** Microsoft Defender for Endpoint (MDE), Tanium, Microsoft Defender for Identity (MDI)
- **Scripting and Automation:** PowerShell scripting, SOAR automation, detection-as-code
- **Security Frameworks:** NIST Cybersecurity Framework (CSF), CIS Controls, ISO 27001, Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Lead engineering and management of CrowdStrike Falcon EDR platform across an 8,000-user estate, configuring prevention policies, performing threat investigations using Falcon Insight, and managing Falcon Discover for asset visibility.
- Administer SIEM/SOAR infrastructure using Microsoft Sentinel and CrowdStrike Falcon NG-SIEM; author KQL detection rules, analytics rules, and automated SOAR playbooks to reduce mean time to respond.

- Manage Mimecast email security gateway, including anti-spoofing, anti-phishing, attachment sandboxing, and email continuity controls, mitigating phishing and Business Email Compromise (BEC) threats.
- Own Privileged Access Management (PAM) operations using BeyondTrust, implementing just-in-time access provisioning and privileged session recording for administrative accounts.
- Manage MDM and MAM policies via Microsoft Intune, enforcing device compliance, application deployment, and remote wipe capabilities across the estate.
- Configure and maintain Microsoft Entra ID Conditional Access policies, MFA enforcement, and SSO integrations to protect identity and enforce Zero Trust principles.
- Conduct vulnerability assessments using Tenable.io, AppCheck, and Pentra BAS; track and remediate penetration test findings in collaboration with IT and application teams.
- Lead security incidents using NIST 800-61 Incident Response lifecycle, coordinating containment, eradication, and recovery, and producing post-incident reports with root cause analysis.
- Deliver security awareness training and communications to staff across technical and non-technical functions, reducing phishing click rates and improving security culture.
- Oversee IDS/IPS alert monitoring, manage security certificates lifecycle, and contribute to WAF/DDoS protective controls in the perimeter security stack.

University of the Arts, London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Performed SIEM alert triage and investigation using Microsoft Sentinel, developing KQL queries to detect and respond to threats across endpoint, identity, email, and cloud telemetry.
- Managed CrowdStrike Falcon EDR operations, including alert response, policy tuning, and threat hunting using Falcon Insight queries.
- Supported deployment and configuration of BeyondTrust PAM across administrative accounts, reducing privileged access risk.
- Managed Mimecast email security configurations, investigating and remediating email-borne threats including phishing, malware, and spam campaigns.
- Administered Microsoft Intune MDM/MAM policies, onboarding devices, enforcing compliance baselines, and managing conditional access.
- Conducted vulnerability scanning with Tenable.io and Nessus, triaging findings and coordinating remediation with infrastructure and application teams.
- Contributed to the Microsoft Entra ID / Azure Active Directory identity security programme, implementing Conditional Access, MFA roll-out, and SSO configurations for an 8,000-user estate.
- Participated in incident response activities, performing root cause analysis and documenting findings aligned to NIST 800-61 and MITRE ATT&CK frameworks.

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Managed security and IT infrastructure for a Software as a Service (SaaS) fintech platform, implementing access controls, endpoint security policies, and security monitoring tools.
- Supported vulnerability management processes including scanning, risk assessment, and remediation co-ordination with development and infrastructure teams.
- Configured and maintained identity and access management controls, enforcing MFA and SSO across cloud and on-premise services.
- Contributed to quality assurance processes, supporting ISO 27001 audit preparation and internal security reviews.
- Delivered IT support and security awareness guidance to end users, improving security posture across the organisation.

KEY ACHIEVEMENTS

- Led the full deployment and optimisation of CrowdStrike Falcon EDR across an 8,000-user estate at UAL, improving endpoint visibility and threat detection coverage.
- Developed and tuned Microsoft Sentinel analytics rules using KQL, reducing false positive alert volumes and accelerating threat detection across the security operations function.

- Implemented BeyondTrust PAM platform, establishing just-in-time privileged access controls and eliminating standing administrative access across critical systems.
- Deployed Microsoft Intune MDM/MAM across the UAL estate, achieving full device compliance and enabling secure remote working.
- Reduced phishing incident rate through Mimecast email gateway configuration improvements and targeted security awareness training campaigns.
- Achieved and maintained CISSP certification, demonstrating broad expertise across all eight domains of information security.

EDUCATION

- **M.Sc. Environmental and Resource Engineering**
- **B.Sc. Chemical Engineering**

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
