

PROSPER AWUNI

Senior Cyber Security Engineer | SIEM | EDR | Infrastructure Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of experience delivering hands-on technical security operations across large enterprise environments. I specialise in Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) platform management, Endpoint Detection and Response (EDR) using CrowdStrike Falcon, and infrastructure hardening across firewalls, email and web security gateways, and identity platforms. I have a strong track record managing Privileged Access Management (PAM), Mobile Device Management (MDM), Mobile Application Management (MAM), Multi-Factor Authentication (MFA), and Single Sign-On (SSO) technologies, and I lead vulnerability management programmes from scanning through to verified remediation. As the senior escalation point for incident response, I author and operate playbooks aligned to NIST 800-61 and the MITRE ATT&CK framework. I hold the Certified Information Systems Security Professional (CISSP) certification and am experienced in delivering security awareness training and supporting penetration test remediation in high-stakes, focused security teams.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (NG-SIEM, Prevent, EDR, Insight, Discover) — Expert
- **SIEM/SOAR:** Microsoft Sentinel, KQL (Kusto Query Language), analytics rules, playbooks, workbooks, data connectors
- **Endpoint Protection:** Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), Microsoft 365 Defender
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus
- **Identity and Access:** Azure Active Directory/Entra ID, Conditional Access, MFA/SSO, Group Policy
- **PAM:** BeyondTrust Privilege Management
- **MDM/MAM:** Microsoft Intune
- **Email Security:** Mimecast
- **Firewall/Network Security:** Check Point Harmony, IDS/IPS management, security certificate management
- **Scripting/Automation:** PowerShell
- **Incident Response:** NIST 800-61, MITRE ATT&CK, playbook authoring, threat hunting
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+, JISC

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Take technical ownership of the CrowdStrike Falcon EDR, Prevent, NG-SIEM, Insight and Discover deployment, maintaining hardened configurations and optimised detection alerting across the enterprise estate
- Manage SIEM and SOAR operations in Microsoft Sentinel, authoring KQL analytics rules, configuring data connectors, and building automated response playbooks to accelerate alert triage and incident handling
- Serve as senior escalation lead for all Priority-1 and Priority-2 security incidents, applying NIST 800-61 and MITRE ATT&CK to investigate, contain, eradicate and recover from threats
- Administer BeyondTrust PAM, Microsoft Intune MDM/MAM, and Azure Active Directory/Entra ID Conditional Access policies to enforce least-privilege and MFA/SSO across the organisation
- Drive the vulnerability management programme using Tenable.io, AppCheck and Pentera BAS, tracking all findings through to verified remediation with infrastructure teams
- Maintain Mimecast email security gateway configuration, managing threat policies, URL rewriting, impersonation protections and quarantine workflows

- Deliver security awareness training programmes and coordinate remediation of penetration testing findings with technical and management stakeholders
- Manage IDS/IPS monitoring, security certificate lifecycle management, and contribute to ad-hoc infrastructure security projects

University of the Arts, London (UAL) — Cyber Security Analyst, Cyber Security and Identity

March 2022 – March 2025

- Deployed Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI) and Microsoft 365 Defender across 8,000 users, managing onboarding, policy configuration, alert investigation and EDR/XDR alert response
- Performed continuous alert triage, threat hunting and SIEM detection tuning across CrowdStrike Falcon and Microsoft Sentinel, reducing false-positive rates and improving mean time to detect (MTTD)
- Managed vulnerability assessment cycles using Tenable.io, Nessus and AppCheck, prioritising findings by risk and coordinating end-to-end remediation with infrastructure and application teams
- Maintained Check Point Harmony endpoint security and firewall policies, enforcing consistent security standards across on-premises and cloud-connected environments
- Administered Azure Active Directory/Entra ID Conditional Access policies, MFA and SSO integrations, ensuring robust identity security across the organisation
- Managed Tanium endpoint management and Microsoft Intune MDM/MAM policies across the device estate
- Supported security awareness training delivery, contributed to ISO 27001 and Cyber Essentials+ compliance activities, and maintained security documentation aligned to CIS Controls

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure

February 2021 – March 2022

- Managed endpoint security, MDM and infrastructure security controls across a fast-scaling SaaS FinTech environment
- Performed infrastructure security assessments, maintained patch management cycles and contributed to quality and compliance initiatives
- Administered identity and access controls including Active Directory and MFA configurations, and supported monitoring and alerting tooling
- Collaborated with development and operations teams to embed security within infrastructure provisioning and change management processes

KEY ACHIEVEMENTS

- Built and operationalised a hybrid Security Operations Centre (SOC) using CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, delivering 24/7 threat visibility across a large, distributed organisation
- Designed and deployed the Microsoft Sentinel SIEM workspace end-to-end, including custom KQL analytics rules, automated SOAR playbooks, data connectors and operational workbooks
- Led the organisation-wide deployment of Microsoft Defender for Endpoint, Defender for Identity and Microsoft 365 Defender to over 8,000 users, achieving full coverage with minimal service disruption
- Authored the organisation's incident response playbooks aligned to NIST 800-61 and MITRE ATT&CK, serving as senior escalation lead for all high-severity security incidents
- Implemented a structured vulnerability management programme using Tenable.io and Pentra Breach and Attack Simulation (BAS), driving critical findings to remediation within agreed SLAs
- Delivered security awareness training campaigns across the university, measurably reducing phishing susceptibility rates across staff populations

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+
- Microsoft Certified Solutions Associate (MCSA)

- CompTIA A+
 - Google IT Support Professional Certificate
-
