

PROSPER AWUNI

Cyber Security Engineer | CrowdStrike | SIEM/SOAR | MDM/MAM | Identity Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Cyber Security Engineer with over five years of hands-on experience securing enterprise infrastructure across financial and higher-education environments. I bring expert-level skills in CrowdStrike Falcon Endpoint Detection and Response (EDR), Security Information and Event Management (SIEM) and Security Orchestration, Automation and Response (SOAR) operations, and identity security using Azure Active Directory/Entra ID with Conditional Access, Multi-Factor Authentication (MFA) and Single Sign-On (SSO). I am experienced in administering Web Application Firewall (WAF) and DDoS protection, email security gateways (Mimecast), Mobile Device Management (MDM) and Mobile Application Management (MAM) via Microsoft Intune, and vulnerability management across the full remediation lifecycle. I hold the Certified Information Systems Security Professional (CISSP) certification and consistently deliver alert triage, threat hunting and incident response as the senior escalation point in focused, high-impact security teams.

CORE SKILLS AND TECHNICAL STACK

- **EDR/XDR:** CrowdStrike Falcon (EDR, NG-SIEM, Prevent, Insight, Discover) — Expert level, deployed and managed in production
- **SIEM/SOAR:** Microsoft Sentinel, KQL (Kusto Query Language), data connectors, analytics rules, automated playbooks, workbooks
- **Identity and Access:** Azure Active Directory/Entra ID, Conditional Access, MFA/SSO, Group Policy (Entra equivalent of Okta/Duo identity controls)
- **MDM/MAM:** Microsoft Intune — policy management, device compliance, app protection
- **Email Security:** Mimecast — threat policies, URL rewriting, impersonation protection, quarantine management
- **Endpoint Protection:** Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI), Microsoft 365 Defender
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus
- **PAM:** BeyondTrust Privilege Management
- **Firewall/Network Security:** Check Point Harmony firewall, WAF/DDoS protection concepts, IDS/IPS
- **Scripting/Automation:** PowerShell — SOAR automation, endpoint management scripting
- **Incident Response:** NIST 800-61, MITRE ATT&CK, threat hunting, playbook authoring and execution
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Own the CrowdStrike Falcon EDR, Prevent and NG-SIEM deployment across the enterprise, ensuring hardened configurations, optimised detection policies and effective EDR/XDR alert response
- Manage SIEM and SOAR operations using Microsoft Sentinel, building KQL analytics rules, configuring data connectors, and automating response workflows via playbooks to reduce mean time to respond (MTTR)
- Lead as senior escalation point for all high-severity security incidents, applying NIST 800-61 and MITRE ATT&CK to drive containment, eradication and recovery
- Administer Azure Active Directory/Entra ID Conditional Access, MFA and SSO policies, and Microsoft Intune MDM/MAM controls across the device and application estate
- Manage Mimecast email security gateway, including threat policy tuning, URL rewriting, anti-impersonation controls and quarantine administration
- Run vulnerability management cycles using Tenable.io, AppCheck and Pentera Breach and Attack Simulation (BAS), coordinating remediation with infrastructure teams through to closure

- Administer BeyondTrust Privileged Access Management (PAM) and deliver security awareness training to staff across the organisation

University of the Arts, London (UAL) — Cyber Security Analyst, Cyber Security and Identity

March 2022 – March 2025

- Deployed Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI) and Microsoft 365 Defender to 8,000 users, managing onboarding, policy configuration and ongoing EDR/XDR alert triage
- Performed continuous alert triage, threat hunting and SIEM detection rule tuning across CrowdStrike Falcon and Microsoft Sentinel to reduce false positives and improve detection fidelity
- Administered Azure Active Directory/Entra ID Conditional Access, MFA and SSO configurations to enforce strong identity controls across on-premises and cloud-connected systems
- Managed Microsoft Intune MDM/MAM policies for device compliance, app protection and remote wipe capabilities across the university's device estate
- Delivered vulnerability management assessments using Tenable.io and Nessus, risk-ranked findings and coordinated end-to-end remediation with infrastructure and application owners
- Maintained Check Point Harmony endpoint and firewall policies, IDS/IPS monitoring and security certificate management
- Supported ISO 27001, Cyber Essentials+ and CIS Controls compliance activities, including documentation, evidence gathering and internal audit support

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure

February 2021 – March 2022

- Managed endpoint security, MDM and infrastructure security for a growing SaaS FinTech business, ensuring hardened device standards and consistent patch management
- Administered identity and access management including Active Directory, MFA configurations and role-based access controls
- Supported security monitoring, incident management and infrastructure provisioning in a fast-paced, cloud-forward environment
- Contributed to quality assurance and compliance programmes, embedding security controls into operational processes

KEY ACHIEVEMENTS

- Built and operationalised a hybrid Security Operations Centre (SOC) leveraging CrowdStrike Falcon NG-SIEM and Microsoft Sentinel, achieving full enterprise threat visibility
- Led the enterprise deployment of Microsoft Defender for Endpoint, Defender for Identity and Microsoft 365 Defender to over 8,000 users with minimal operational disruption
- Designed and delivered the Microsoft Sentinel SIEM workspace including KQL analytics rules, automated SOAR playbooks and operational dashboards
- Served as senior escalation lead for P1/P2 security incidents, authoring incident response playbooks aligned to NIST 800-61 and MITRE ATT&CK
- Implemented a structured vulnerability management programme using Tenable.io and Pentera BAS, consistently driving critical findings through to remediation within agreed SLAs
- Delivered security awareness training campaigns, measurably reducing phishing susceptibility across staff populations

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
-
