

PROSPER AWUNI

Senior Security Consultant | Microsoft Defender | Sentinel (SIEM/XDR) | Entra | Cloud Security

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniproper

PROFESSIONAL PROFILE

I am a Senior Security Consultant with over five years of hands-on experience designing and delivering Microsoft 365 and Azure security solutions in line with industry best practices and security standards. I bring deep expertise in implementing and configuring Microsoft Defender (including Microsoft Defender for Endpoint, Defender for Identity and Microsoft 365 Defender), Microsoft Sentinel (Security Information and Event Management/Extended Detection and Response — SIEM/XDR), Entra ID/Azure Active Directory, and Microsoft Intune across enterprise-scale environments. I have a proven record of translating complex security requirements into practical, effective solutions and communicating findings clearly to both technical and non-technical stakeholders. I hold the Certified Information Systems Security Professional (CISSP) and Microsoft Certified Solutions Associate (MCSA) certifications, alongside CompTIA Security+, and bring the breadth of Microsoft cloud security knowledge and advisory experience required to drive digital transformation security programmes across multiple sectors.

CORE SKILLS AND TECHNICAL STACK

- **SIEM/XDR Design and Delivery:** Microsoft Sentinel — workspace design, data connectors, KQL (Kusto Query Language) analytics rules, SOAR playbooks, workbooks, incident management
- **Threat Protection Implementation:** Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Microsoft 365 Defender, Defender XDR
- **Identity and Access Management:** Azure Active Directory/Entra ID, Conditional Access, MFA, SSO, Privileged Identity Management (PIM)
- **MDM/MAM:** Microsoft Intune — device compliance policies, app protection, Conditional Access integration
- **EDR:** CrowdStrike Falcon (NG-SIEM, Prevent, Insight, Discover) — Expert-level deployment and management
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus
- **PAM:** BeyondTrust Privilege Management
- **Email Security:** Mimecast email security gateway
- **Scripting/Automation:** PowerShell, KQL, SOAR automation
- **Incident Response and Advisory:** NIST 800-61, MITRE ATT&CK, detection engineering, threat hunting, playbook development
- **Frameworks:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+, JISC

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Design and deliver Microsoft 365 and Azure security solutions in line with best practices and industry standards, implementing and configuring Microsoft Defender, Sentinel (SIEM/XDR) and Entra ID across the enterprise
- Lead the Microsoft Sentinel SIEM/XDR implementation, authoring KQL analytics rules, configuring data connectors, developing automated SOAR playbooks and building operational workbooks to support security operations
- Design, implement and optimise Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI) and Microsoft 365 Defender, providing comprehensive threat protection across a hybrid environment
- Configure and administer Azure Active Directory/Entra ID Conditional Access, MFA, SSO and identity governance controls to align with Zero Trust security principles
- Manage Microsoft Intune MDM/MAM policies for device compliance, app protection and conditional access integration across the organisation's device fleet

- Operate CrowdStrike Falcon NG-SIEM and EDR alongside Microsoft Sentinel, providing holistic threat detection and response capability from a unified hybrid SOC
- Serve as senior advisory escalation point for security incidents; provide technical guidance and strategic recommendations to senior leadership on security posture improvements

University of the Arts, London (UAL) — Cyber Security Analyst, Cyber Security and Identity

March 2022 – March 2025

- Delivered the enterprise-wide deployment of Microsoft Defender for Endpoint, Defender for Identity and Microsoft 365 Defender across 8,000 users, designing configuration policies and managing rollout across multiple phases
- Designed and implemented Microsoft Sentinel SIEM workspace including data ingestion pipelines, KQL-based detection rules and automated playbooks, improving threat detection coverage across cloud and hybrid workloads
- Configured Azure Active Directory/Entra ID Conditional Access policies, MFA enforcement, SSO integrations and Group Policy to enforce strong identity and access management standards
- Administered Microsoft Intune MDM/MAM, implementing device compliance baselines, app protection policies and automated remediation workflows
- Conducted threat hunting, detection engineering and SOAR automation development, providing advisory recommendations to improve security architecture and reduce organisational risk
- Managed vulnerability assessments using Tenable.io, Nessus and AppCheck, producing risk-prioritised remediation plans and advisory reports for technical and senior stakeholders
- Contributed technical expertise to ISO 27001, Cyber Essentials+ and CIS Controls compliance programmes, advising on control implementation and producing audit evidence

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure

February 2021 – March 2022

- Designed and implemented Microsoft 365 and Azure security controls, including identity management, MFA configuration and endpoint management for a growing SaaS FinTech business
- Provided advisory support to senior stakeholders on security tooling selection, configuration best practices and compliance requirements
- Managed infrastructure security, patch management and endpoint hardening, contributing to quality and compliance programmes across the organisation
- Collaborated with development and operations teams to embed Microsoft cloud security standards into infrastructure provisioning and change management workflows

KEY ACHIEVEMENTS

- Designed and delivered an end-to-end Microsoft Sentinel SIEM/XDR workspace, including KQL analytics rules, automated SOAR playbooks, data connectors and workbooks, providing enterprise-wide threat visibility
- Led the enterprise deployment of Microsoft Defender for Endpoint, Defender for Identity and Microsoft 365 Defender to over 8,000 users across a complex hybrid environment, achieving full coverage within project timescales
- Built a hybrid Security Operations Centre (SOC) integrating Microsoft Sentinel with CrowdStrike Falcon NG-SIEM, enabling unified detection and response across on-premises and cloud workloads
- Authored the organisation's incident response playbooks aligned to NIST 800-61 and MITRE ATT&CK, advising leadership on improvements to the security programme and serving as senior escalation lead
- Implemented a vulnerability management programme using Tenable.io and Pentera BAS, delivering risk-prioritised advisory reports and tracking remediation to closure within agreed SLAs
- Delivered security awareness training programmes, providing advisory and educational content that measurably reduced phishing susceptibility across a large and diverse staff population

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
