

PROSPER AWUNI

Senior Microsoft Security Consultant | Sentinel | Defender XDR | Entra | Intune

United Kingdom (Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Senior Microsoft Security Consultant with over five years of in-depth, hands-on experience implementing, configuring and optimising the Microsoft security technology stack across large, complex organisations. I have strong expertise in Microsoft Sentinel (Security Information and Event Management/Extended Detection and Response — SIEM/XDR), Microsoft 365 Defender, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Azure Active Directory/Entra ID, Conditional Access, and Microsoft Intune for Mobile Device Management (MDM) and Mobile Application Management (MAM). I have delivered end-to-end Sentinel workspace deployments including data connectors, KQL (Kusto Query Language) analytics rules, automated Security Orchestration, Automation and Response (SOAR) playbooks and operational workbooks. I am experienced in securing Microsoft cloud, hybrid and on-premises environments and providing senior-level guidance on threat protection, identity security and compliance tooling. I hold the Certified Information Systems Security Professional (CISSP) certification and bring the breadth of Microsoft platform knowledge and client-facing communication skills required to deliver transformational security projects.

CORE SKILLS AND TECHNICAL STACK

- **SIEM/XDR:** Microsoft Sentinel — workspace design, data connectors, KQL analytics rules, SOAR playbooks, workbooks, incident management
- **Threat Protection:** Microsoft 365 Defender, Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), Defender XDR
- **Identity and Access Management:** Azure Active Directory/Entra ID, Conditional Access, MFA, SSO, Privileged Identity Management (PIM)
- **MDM/MAM:** Microsoft Intune — device compliance, app protection policies, conditional access integration
- **EDR:** CrowdStrike Falcon (NG-SIEM, Prevent, Insight, Discover) — Expert level deployment and management
- **Vulnerability Management:** Tenable.io, AppCheck, Pentera Breach and Attack Simulation (BAS), Nessus
- **PAM:** BeyondTrust Privilege Management
- **Email Security:** Mimecast
- **Scripting/Automation:** PowerShell, KQL query development, SOAR automation
- **Incident Response:** NIST 800-61, MITRE ATT&CK framework, detection engineering, threat hunting
- **Frameworks/Compliance:** NIST CSF, CIS Controls, ISO 27001, Cyber Essentials+, JISC

PROFESSIONAL EXPERIENCE

University of the Arts, London (UAL) — Senior Cyber Security Analyst / Engineer *March 2025 – Present*

- Lead the implementation and ongoing management of the Microsoft Sentinel SIEM/XDR workspace, including data connector configuration, KQL analytics rule development, automated SOAR playbooks and operational workbooks
- Design, implement and continuously optimise Microsoft Defender for Endpoint (MDE), Defender for Identity (MDI) and Microsoft 365 Defender policies, ensuring maximum threat protection across the enterprise
- Administer Azure Active Directory/Entra ID Conditional Access, MFA, SSO and Privileged Identity Management (PIM) to enforce identity security across hybrid environments
- Configure and manage Microsoft Intune MDM/MAM policies for device compliance, app protection and remote device management
- Operate CrowdStrike Falcon NG-SIEM, EDR, Prevent, Insight and Discover alongside Microsoft Sentinel to deliver a unified hybrid Security Operations Centre (SOC)

- Serve as senior escalation lead for all high-severity incidents, applying NIST 800-61 and MITRE ATT&CK for structured investigation, containment, eradication and recovery
- Drive vulnerability management using Tenable.io, AppCheck and Pentera BAS, and administer BeyondTrust Privileged Access Management (PAM)

University of the Arts, London (UAL) — Cyber Security Analyst, Cyber Security and Identity

March 2022 – March 2025

- Designed and executed the enterprise deployment of Microsoft Defender for Endpoint, Microsoft Defender for Identity and Microsoft 365 Defender to over 8,000 users, managing configuration, onboarding and alert triage
- Built and tuned Microsoft Sentinel SIEM data ingestion pipelines and analytics rules using KQL, improving detection coverage and reducing false-positive alert volumes
- Administered Azure Active Directory/Entra ID, including Conditional Access policy design, MFA enforcement, SSO configuration and Group Policy management
- Managed Microsoft Intune MDM/MAM for device compliance, app protection policies and remote management capabilities across a diverse device fleet
- Conducted threat hunting, detection engineering and SOAR playbook development to automate repetitive response actions and improve SOC efficiency
- Maintained CrowdStrike Falcon EDR and managed Mimecast email security gateway, including anti-phishing, URL rewriting and impersonation protection configurations
- Supported ISO 27001, Cyber Essentials+ and CIS Controls compliance assessments, providing technical evidence and recommendations to senior stakeholders

HICX Solutions Ltd (SaaS/FinTech) — IT Engineer: Security, Quality and Infrastructure

February 2021 – March 2022

- Managed Microsoft 365 and Azure-based identity and security controls, including Active Directory, MFA and endpoint management in a cloud-forward SaaS environment
- Administered infrastructure security tooling, endpoint protection and patch management, ensuring a hardened security baseline
- Supported compliance and quality assurance programmes, embedding Microsoft security controls into operational and change management processes
- Provided technical guidance and advisory support to development and operations teams on security configuration standards

KEY ACHIEVEMENTS

- Designed and delivered an end-to-end Microsoft Sentinel SIEM/XDR workspace, encompassing data connectors, KQL analytics rules, automated SOAR playbooks and operational workbooks, enabling enterprise-wide threat visibility
- Led the deployment of Microsoft Defender for Endpoint, Defender for Identity and Microsoft 365 Defender to over 8,000 users, achieving full platform coverage across a complex hybrid environment
- Built and operationalised a hybrid Security Operations Centre (SOC) integrating Microsoft Sentinel and CrowdStrike Falcon NG-SIEM, providing unified detection and response capability
- Authored the organisation's incident response playbooks aligned to NIST 800-61 and MITRE ATT&CK, serving as senior escalation lead for all Priority-1 and Priority-2 security events
- Implemented structured vulnerability management using Tenable.io and Pentera Breach and Attack Simulation (BAS), consistently driving critical findings to remediation within SLA
- Delivered security awareness training campaigns, reducing phishing susceptibility rates and improving security culture across a large, diverse staff population

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- CompTIA Security+

- Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
-
