

PROSPER AWUNI

**Cyber Security Engineer | CrowdStrike Falcon Expert | SIEM / SOAR / EDR | Vulnerability Management
| Identity Security | PAM**

United Kingdom (Hybrid/Remote) | +44 7403 190750 | prosper.awuni@gmail.com | linkedin.com/in/awuniprosper

PROFESSIONAL PROFILE

I am a Certified Information Systems Security Professional (CISSP)-certified Cyber Security Engineer with more than five years of hands-on experience managing Security Information and Event Management (SIEM), Security Orchestration, Automation, and Response (SOAR), and Endpoint Detection and Response (EDR) platforms within enterprise environments. I have deep expertise in CrowdStrike Falcon across its Next-Generation SIEM (NG-SIEM), EDR, Prevent, Insight, and Discover modules, and strong experience with Microsoft Sentinel using Kusto Query Language (KQL), Microsoft Defender for Endpoint (MDE), Microsoft Defender for Identity (MDI), and the wider Microsoft 365 (M365) security stack. I am experienced in administering web and email security gateways including Mimecast, Multi-Factor Authentication (MFA) and Single Sign-On (SSO) solutions, Mobile Device Management and Mobile Application Management (MDM/MAM) via Microsoft Intune, Privileged Access Management (PAM) via BeyondTrust, and structured vulnerability management programmes using Tenable.io, AppCheck, and Nessus. I have a track record of triaging and resolving SIEM/SOAR/EDR alerts, co-ordinating vulnerability remediation including penetration test findings, and contributing to security awareness training delivery for large, diverse user populations. I bring a disciplined, hands-on approach to securing enterprise infrastructure as part of a focused security team, with experience across Intrusion Detection and Prevention Systems (IDS/IPS), next-generation firewall management, and identity lifecycle management.

CORE SKILLS AND TECHNICAL STACK

Endpoint Detection and Response (EDR) / Extended Detection and Response (XDR)

CrowdStrike Falcon (NG-SIEM, EDR, Prevent, Insight, Discover) | Microsoft Defender for Endpoint (MDE) | Microsoft Defender for Identity (MDI) | Tanium

SIEM / SOAR Platforms

Microsoft Sentinel (KQL) | CrowdStrike Next-Generation SIEM (NG-SIEM) | Splunk / Security Processing Language (SPL) | SOAR automation via PowerShell scripting

Vulnerability Management

Tenable.io | AppCheck | Nessus | Pentera Breach and Attack Simulation (BAS) | penetration test finding remediation | vulnerability scan and remediation tracking

Identity and Access Management (IAM)

Microsoft Entra ID / Azure Active Directory (Azure AD) | Conditional Access | MFA / SSO | Group Policy management

Privileged Access Management (PAM)

BeyondTrust PAM (account discovery, just-in-time access, privileged session recording)

Email and Web Security Gateways

Mimecast (anti-phishing, anti-malware, impersonation protection) | Check Point Harmony web gateway

MDM / MAM

Microsoft Intune (device compliance, configuration profiles, corporate and BYOD management)

Firewall and Network Security

Check Point Harmony next-generation firewall | IDS/IPS management and tuning | network security policy review

Security Frameworks

NIST Cybersecurity Framework (CSF) | NIST 800-61 Incident Response | MITRE ATT&CK | CIS Controls | ISO 27001 | Cyber Essentials Plus

PROFESSIONAL EXPERIENCE

University of the Arts London (UAL)

March 2025 - Present

Senior Cyber Security Analyst / Engineer

- Lead the deployment, configuration, and day-to-day management of CrowdStrike Falcon across NG-SIEM, EDR, Prevent, Insight, and Discover modules for an 8,000-user environment; tune detection policies, manage alert workflows, and optimise platform configurations to improve signal quality and reduce false positives
- Manage SIEM/SOAR/EDR alert triage and incident response using Microsoft Sentinel (KQL) and CrowdStrike NG-SIEM; investigate and resolve security incidents originating from phishing reports, SIEM/SOAR alerts, cloud detections, and endpoint telemetry
- Administer the Microsoft 365 security stack including MDE, MDI, Microsoft Defender for Cloud Apps (MDA), and the M365 Defender portal, maintaining security across 8,000 staff and students
- Manage structured vulnerability management programmes using Tenable.io, AppCheck, and Pentera BAS; co-ordinate remediation tracking, prioritise findings by risk, and work with infrastructure teams to close vulnerabilities and penetration test findings within agreed timescales
- Administer Microsoft Entra ID / Azure AD, including Conditional Access policy design and enforcement, MFA rollout, SSO configuration, and Group Policy management; investigate and respond to identity-based security alerts
- Manage Microsoft Intune for MDM/MAM across corporate and BYOD device fleets; configure device compliance baselines and enforce mobile application management policies
- Administer BeyondTrust PAM, including privileged account discovery, just-in-time access controls, and privileged session recording; conduct regular privileged account reviews
- Manage Mimecast email security gateway including anti-phishing, anti-malware, safe links, and impersonation protection policy configuration; investigate email-based threat incidents
- Manage Check Point Harmony next-generation firewall and IDS/IPS rulesets; review and optimise firewall policies to enforce least-privilege network access
- Deliver security awareness training and phishing simulation exercises to a user population of 8,000+; monitor reporting rates and adjust programme content based on outcomes
- Manage digital certificates and security certificate lifecycle across enterprise systems
- Support compliance activities aligned to ISO 27001, Cyber Essentials Plus, and CIS Controls; contribute to security audit evidence and remediation tracking

University of the Arts London (UAL)

March 2022 - March 2025

Cyber Security Analyst, Cyber Security and Identity

- Monitored, triaged, and investigated SIEM alerts using Microsoft Sentinel (KQL) and CrowdStrike Falcon; escalated and managed incidents in line with playbooks and NIST 800-61 procedures
- Administered Mimecast email security gateway including policy management, threat investigation, and quarantine review
- Managed Azure AD / Entra ID, Conditional Access, MFA, and SSO configurations; supported identity lifecycle management and conducted Joiner-Mover-Leaver (JML) access reviews
- Operated Microsoft Intune for MDM/MAM policy management across corporate and BYOD device fleets; maintained device compliance and configuration baseline standards
- Contributed to vulnerability management activities using Tenable.io and Nessus; tracked and co-ordinated remediation of identified findings across infrastructure and endpoint environments
- Supported BeyondTrust PAM administration including privileged session monitoring and account review
- Assisted with IDS/IPS alert monitoring and firewall policy review activities
- Supported security awareness training campaigns and phishing simulation exercises; contributed to end-user security communications
- Contributed to incident response investigations and post-incident reviews, including root cause analysis and lessons-learned documentation

HICX Solutions Ltd (SaaS/FinTech)

February 2021 - March 2022

IT Engineer: Security, Quality and Infrastructure

- Managed endpoint security, network infrastructure, and access management systems for a SaaS/FinTech organisation, maintaining firewall policies, IDS/IPS configurations, and MFA/SSO controls
- Administered identity and access management solutions including MFA enforcement and SSO integrations across corporate systems
- Performed vulnerability assessments and supported remediation tracking; contributed to patch management processes to reduce exposure
- Managed MDM/MAM policies and device compliance for corporate device fleets
- Delivered security quality assurance activities in support of ISO 27001 compliance; contributed to audit evidence preparation and control documentation
- Provided Tier 2/3 technical support and contributed to IT service management and infrastructure maintenance activities

KEY ACHIEVEMENTS

- **CrowdStrike Falcon platform optimisation:** Led end-to-end optimisation of CrowdStrike Falcon across NG-SIEM, EDR, Prevent, Insight, and Discover modules for an 8,000-user environment, delivering measurable improvements in detection quality, alert fidelity, and incident response speed
- **Microsoft Defender deployment at scale:** Spearheaded the deployment of Microsoft Defender for Endpoint (MDE) and Microsoft Defender for Identity (MDI) across 8,000 users, improving endpoint telemetry coverage and identity threat detection capabilities across the organisation
- **Vulnerability management programme:** Built and operated a structured vulnerability management programme using Tenable.io, AppCheck, and Pentra Breach and Attack Simulation (BAS), enabling risk-based prioritisation of findings and quantifiable reductions in critical and high vulnerabilities
- **BeyondTrust PAM implementation:** Deployed and administered BeyondTrust Privileged Access Management (PAM) controls, reducing the attack surface created by unmanaged privileged credentials and improving audit readiness for privileged account activity
- **SOAR automation development:** Developed PowerShell-based SOAR automation scripts to accelerate alert triage, automate repetitive response actions, and reduce mean time to respond (MTTR) for common incident types
- **Security awareness training programme:** Designed and delivered a university-wide security awareness training programme for 8,000+ users, achieving measurable improvements in phishing reporting rates and reductions in simulated phishing click-through rates

EDUCATION

- M.Sc. Environmental and Resource Engineering
- B.Sc. Chemical Engineering

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
 - CompTIA Security+
 - Microsoft Certified Solutions Associate (MCSA)
 - CompTIA A+
 - Google IT Support Professional Certificate
